POINTS IN THE ISSUE.

Mutual Preferential Trade within the British Empire.

Rebuke of Politicians who broke their pledges to the people—increasing expenditures and debt when they promised to reduce them.

Honest Government for United Canada.

Down with Tarte and Tartemism.

"The record of our party while it has been in power under its present leaders is one long, shameful story of promises unfulfilled and broken; of reckless extravagance; of jobbery and corruption; and of utterly disgraceful betrayal of every principle for which as a party we stood. For the purpose of securing themselves in office the men who have been entrusted with positions of leadership have brought disgrace upon our party and dishonour upon the name of Liberalism."—H. H. Cook.

THE DAILY EXAMINER

OCTOBER 22, 1900.

INVESTIGATION DEMANDED.

A petition has been sent to His Excellency the Governor-General praying for action in the matter of the attempted sale of a senatorship to Mr. H. H. Cook for \$10,000. This is the course that ought to be pursued. We have unfortunately had cause to doubt the word of the Premier. Neither can we accept as conclusive of the matter Mr. Cook's off-hand declaration. The matter is one to be formally and fully investigated. If the reported offer of a senatorship for \$10,000 was made by anyone having any connection with the Government, Sir Wilfrid Laurier and his colleagues are responsible before the country, and their plea of ignorance will avail them nothing. It is significant of the manner in which public business is conducted by the New Liberals at Ottawa that a man of the prominence of Mr. Cook has dared to make such a charge, involving as it does the Government and the country. The fact goes to prove that the charges that have been made concerning the sale of contracts and the "rakes off" made for the campaign fund are true.

NOTES AND COMMENTS.

—Dr. Carman, President of the Methodist Conference of Canada, is out with a pastoral to that denomination calling upon them to that prohibition calling upon them to that prohibition to the front and inferentially to kill Laurier. Read the manifesto.

—Mr. Fisher has attempted a feeble reply to Sir Charles Tupper's manifesto to our farmers. But it is a significant fact that Mr. H. H. Cook's attack upon the Laurier-Tarte Administration has not been met by any attempt at defence. The facts set forth by Mr. Cook are notorious and true.

—The fifty-six pound rails on the Drummond Railway are being taken up by Mr. Blair and replaced by eighty pound rails. It is reported that the old ones are to be sent to P. E. Island and will be used on the Murray Harbour Railway. Moreover, it is said the Miramichi Bridge is to be replaced with a new and heavier one and the old one will be brought to Charlottetown to be used on the Hillsborough. This is the way the people of the Island are to be served by the New Liberals; and so they are going to bleed this Province to the tune of \$12,000 a year!

Salt rheum, with its burning, stinging sensation; is due to poor blood and is cured by Herod's Sarsaparilla, the great blood purifier.

SOLOMON SLOW'S ADVICE.

What I Would Do or Have Done Were I Boss.

I would like to know why the roof of the new annex to the Asylum is being covered with old boards off the Prince of Wales College and Normal School, and why the Premier does not have it stopped. Also if it is according to specification to use old second-hand material. But then the contractors are Grits; that will account for a great deal in the Premier's eyes.

I would have all contractors on Government work keep up to their contracts. I would make them use up-to-date material in the Asylum annex.

I would have our Premier protect the death trap on the outer end of Prince Street ferry wharf, and also have him stop the dumping of manure on the road at the head of Southport wharf.

The death-trap called the steamer Southport is receiving an apology for repairs. I would have the work properly done.

I would warn the public not to travel on the steamer Southport until she is pronounced seaworthy by competent, independent persons.

I would advise the L. Governor that he and his advisers will be held responsible if some awful accident happens on the steamer Southport, and that he and they cannot hide behind their official position and take it for granted that they are no personally responsible.

I would return thanks to the power that prevented picnic parties from using the steamer Southport during the summer also that so far there has been no accident.

I would make our City Councillor send a man to cut down all the thistles and wildburdock growing so thick round the city.

I would make our city surveyor do more work in looking after our streets.

I would have the grounds about the Prince of Wales College cleaned up and properly graded.

I would put a watchman and gates at the railway crossing on St. Peter's road.

I would make all trains stop before crossing the St. Peter's Road until there is a watchman put there.

I would like to know if the engineer of the steamer Southport is duly qualified, and holds a certificate for running at passenger steamer.

I would dress our city marshal in a uniform suited to his position.

I would do lots of things; but it is no use trying to get a Grit to do anything, no matter what suffers, unless it will work for the benefit of the great party of corruption and broken promises.

I would finish painting the fence at the railway yard before the snow comes. But perhaps they are waiting for the removal of the post-hole called the railway station.

I would have our new Mayor push the police a little and have them arrest the corner loafers.

I would have our streets cleaned up. I would put a fountain on Market Square.

MONUMENT TO ISLANDERS.

The committee appointed to procure plans and ascertain cost of a monument in memory of the Islanders who were in the South African war, met Friday afternoon. It was moved by Mr. C. C. Gardner, and seconded by Mr. J. E. B. McCready, that the monument be of granite unless some other material be more suitable.

Mr. Justice Fitzgerald moved, seconded by Mr. P. Blake, that it be erected on the south side of Queen Square, directly opposite the Provincial Building. The secretaries were instructed to procure designs and to ascertain cost on a limit of \$3,000.

Mr. Pope, Mr. McCready and Mr. James Byrne were selected as a committee to prepare the inscriptions and submit them at the next committee meeting for approval. It is suggested that the names of Roland Taylor and Alfred Riggs be inscribed on the monument, and that a bronze tablet contain the names of all the Islanders.

Col. Moore, C. C. Gardner and L. L. Beer were appointed a committee to make arrangements for receiving the contributions. It was thought desirable that a volume should be prepared containing the names of contributors and be placed in the Legislative Library. Persons throughout the Island will be invited to co-operate with the committee. Premier Ferguson said that the Government was willing to send circulars to each school district, as was done in the case of the Patriotic Fund. It was suggested that all returns should be made previous to December 30th. Meeting adjourned to meet at call of the chairman.

MEETING AT MONTICELLO.

Conservative Cause Making Progress There.

A splendid meeting was held at Monticello Friday night.

The meeting was addressed by the candidates and by Mr. James McIsaac and Mr. Thomas Kickham.

The speakers on the Conservative side made an excellent impression. They showed up the deception and extravagance of the Laurier-Tarte administration, demonstrating clearly that they were not worthy of a renewal of confidence.

At Monticello, as elsewhere, the Liberal-Conservative cause is making great progress.

CURIOS DEMANDED

SIR,—Thank you for your portraits of the Conservative candidates. They are fine, honest-looking fellows, and will stand inspection. Now we'd like to see the Liberal candidates and secure their pictures for sundry purposes. Sir Leo has us charged "\$500 for photographs," while on the Quebec commission, and I'm sure must be on record in every possible attitude. I'd like the Petrel attitude, or that assumed when the news of the Belfast and Murray Harbor elections was brought him. And Mr. McKinnon as Attorney-General advising the House from the Speaker's chamber would be capital. Bernard before his own grave at Skinner's Pond, and J. J. in his Gladstonian pose before the Second Convention at Dundas would be worth procuring. Couldn't you oblige.

"It ought to be the guiding star of the legislation of this country to work for the development of our great agricultural and natural resources; so as to make this country, so far as we possibly can, a hive of industry, where labour finds its employment and its wage, and where abundant natural resources are worked up to the point of highest value which when put upon the markets of the world give the richest returns to the men who bring them forth and fashion them to the use of mankind."—Hon. George E. Foster, House of Commons, March 27, 1900.

Don't Neglect a Simple Cold in the Head.

JAPANESE CATARRH CURE CURE COLD IN THE HEAD IN A SINGLE NIGHT.

It is pleasant and harmless to use and clears the head almost instantly. You can use it on the smallest infant with Perfect Safety. Catarrh of the head usually starts with a cold in the head, and left unchecked in this climate rarely gets well itself. Another cold is usually added and before it gets well incipient catarrh sets in, and as each fresh cold is contracted the disease gradually becomes worse, until hearing, sense of taste and smell are gone, and finally incurable lung trouble is the result. If you have a cold in the head don't neglect it. Japanese Catarrh Cure relieves cold in the head in a few minutes and will cure in a single night.

Mr. Alex. McRae, the well-known tailor of New Westminster, B.C., writes:—"I was for some weeks suffering from a cold in the head, which was apparently developing into catarrh. I purchased a box of Japanese Catarrh Cure, and in less than two days the trouble entirely disappeared. I can highly recommend it; the first application relieved."

Harder to increase trade in clothes for knickerbocker boys than in any other department of a clothier's business—more competition. "Everybody" sell boys' clothes except hardware stores, and some day they'll be advertising patent aluminum suits with reinforced seats and knees.

Besides outside competition our boys are continually graduating into youths and men. The same families won't furnish boys indefinitely, so we have all the while to keep finding new boys to replace the growaways.

Then again many parents imagine that a boy ought to be dressed for a quarter the cost of dressing his sister. They read advertisements of boys suits for 98c, 49c, &c, and try them, generally resulting in the boys' discredit-able appearance. Even people who go to a first-rate clothing store for their boys' clothes often begrudge paying as much as is necessary to get real nice things.

We are going to revolutionize our boys' clothing trade by putting it on a basis as level as it ought to be effective.

Henceforth we shall sell clothes for knickerbocker boys without profit.

This means good clothes with only enough added to cost of material and labor to cover the expense of delivering them to you—not a dollar's worth of profit for ourselves; we'll wait for profit until the boy begins to pay for his own clothes.

The entire stock of boys' wearables—clothes—furnishings—hats and caps has been marked to accord with this idea.

You are invited to look.
