"Covers Prince Edward Island Like The Dew"

CHARLOTTETOWN CANADA, SATURDAY, DECEMBER 21, 1957

Parity Prices Insured For Farm Producers Battle Honors To Local Unit

OTTAWA (CP)—The army Friday announced that 15 battalions to eight regiments for service during the Second World War. The announcement brings to 49 the number of regiments to which such honors have been awarded.

The regiments and number of battle honors a war d ead each: Royal 22d Regiment, 21; Prince Edward Island Regiment (17th Reconnaissance), one; Algonquin Regiment, 15; Arctic Assault, 15; South Alberta Light Horse (29th Armored), 15; 1st Battalion of the Royal New Brunswick Regiment (Carleton and York) and 2d Battalion, Royal New Brunswick Regiment (North Shore) 45; Stormont, Dundas and Glengarry Highlanders (MG), 19; Seaforth Highlanders of Canada, 25; and Edward Island Regiment (17th Reconnaissance), one; Algonquin Regiment, 15; Arctic Assault, 15; South Alberta Light Horse (29th Armored), 15; 1st Battalion of the Royal New Brunswick Regiment (Carleton and York) and 2d Battalion, Royal New Brunswick Regiment (North Shore) 45; Stormont, Dundas and Glengarry Highlanders (MG), 19; Seaforth Highlanders of Canada, 25; and Edward Island Regiment (17th Reconnaissance), one.

Protests U.S. Is Leader in Nuclear Code

MOSCOW (Reuters)—A leading Soviet scientist said Friday that Russia still has a long way to go to "beat the United States on all scientific fronts" and asked for more money to do the job.

There is duplication in the work of Russian scientists, he said, and better equipment and more money are needed. The amount allotted for research was "less than in the United States" and industry had failed to "produce what the scientists want."

DELIVERS BRICKS

LOS ANGELES.—A runaway truck loaded with five tons of bricks fell in the smashed center of the Best Butterworth home af-

ter it tumbled down on top of the mentalist's residence. The truck ploughed 40 feet and through the roof as it went out of control coming down a steep hill. The driver jumped from the truck before the plunge. The occupants of the house had left a few minutes earlier, and no one was hurt.

INITIAL EXPLORATIONS FINISHED

Imperial Oil To Begin Drilling In A Few Weeks

Actual drilling for oil in Prince Edward Island will commence in a few weeks according to information received from Imperial Oil Ltd. in Halifax. This is the third phase of exploratory work which the company began two years ago.

It is supposed that the first "spudding" will take place in a short distance west of Summersburg. On the other hand, it is believed that the oil, if it exists, is to drill for it.

The second phase of the work in a seismicographic survey in which dynamite is placed in a hole and the shock waves from the resultant explosion are measured. A seismograph is an instrument so delicate it can measure the footsteps of an ant.

The shock waves set a second and so the depth of the rock they bounce off from is estimated. In this way of men learn the shape of underground formations and may discover the rock traps they are seeking.

However in spite of all this information gathered from the gravimeter survey and the seismicographic survey, drilling must be carried out. Once the oil man has discovered a trap which he believes might contain oil, he often finds that nature has played a trick on him.

Perhaps he found a perfect rock trap, but there is a crack in it, and the oil may have leaked out. Or the trap may be a geological trap, but the rock is not a good seal.

According to information received from Imperial Oil, drilling equipment is on its way to the island and as soon as the seismicographic work is completed the first "spudding" will take place in no less than 30 days.

The company stated that they will in no instance go as deep as the hole drilled by an American company in the Hillsboro Bay during the war. A hole almost 15,000 feet was sunk at that time.

Discover Ghost Satellite Now

By FRANK CAREY WASHINGTON (AP)—A "Spook" has been haunting the heavens. Discovery of a "ghost satellite" is reported by the U.S. Army.

Discovery of a "ghost satellite" is reported by the U.S. Army. The satellite was on the opposite side of the world—as has been reported by Dr. Harry W. Wells of the Carnegie Institution of Washington.

Start More New Houses

OTTAWA (CP)—Almost double the number of new houses were started last month than in the corresponding month last year, Central Mortgage and Housing Corporation reported Friday.

The government's housing agency said starts totaled 9,358 in November against 4,704 a year earlier. However, in the first 11 months of the year starts dipped to 74,002 from 84,384.

The federal government made \$120,000,000 available for construction of low-cost housing early in September and an equal amount will be made available this month.

Act To Amend Criminal Code

OTTAWA (CP)—Justice Minister Fulton Friday gave notice on the Commons order paper that he will introduce an act amending the Criminal Code to ensure that the "public interest" is protected. No details of the legislation were given.

Jumps Price To 10 Cents

SUBSBURY, ONT. (CP)—The Subsidary Star Friday announced an increase in daily price to 10 cents, effective today. Weekly price has been seven cents and the price of the Saturday edition 10 cents.

PARLIAMENT AT A GLANCE

By THE CANADIAN PRESS Ottawa (CP)—Agriculture Minister Douglas Harkness is expected to make a statement in the House of Commons today regarding the farm price support bill.

The changes related to the legislation specifically to a form of parity and based support price on a 10-year, rather than a three-year, moving average.

Mr. Harkness said the idea of the new legislation was to provide a more stable and secure market for farm products.

The bill, which is expected to be introduced in the House of Commons today, would amend the Agricultural Products Marketing Act.

Princess To Visit Canada

OTTAWA (CP)—Princess Margaret will make her first visit to Canada in July to take part in British Columbia's centenary celebrations.

She will arrive in B.C. probably Vancouver, by Air from England and spend about two weeks in the province. During the visit she will visit other parts of Canada, including Ottawa and perhaps Toronto, Montreal and other large cities.

An announcement is being issued by the prime minister's office that merely the Princess Margaret will "spend approximately two weeks in the province, after which she will visit other parts of Canada for about 10 days."

No mention was made in the announcements here and London of a visit to the United States. In Toronto Controller Jean Newman, acting mayor, wired State Secretary Ellen Fairclough that "Toronto is most anxious to welcome Her Royal Highness."

It also was reported that Ottawa authorities would extend the length of the visit to make it possible for her to open the Canadian National Exhibition Aug. 29.

Almost 75,000 U. S. Auto Workers To Be Laid Off

DETROIT (AP)—Temporary layoffs are in prospect this holiday season for almost 75,000 auto workers in the United States because so many 1958 model cars are in dealers' showrooms instead of on Christmas trees.

Chrysler Friday announced shutdowns for up to two weeks of all its Detroit plant operations. Ford said it plans to furlough about 21,000 hourly workers for all of Christmas week. Some 10,000 of these will be in the Detroit area.

General Motors said no week-long shutdowns are planned. But GM plant managers have the option locally of adjusting work schedules.

THOUSANDS AFFECTED The Chrysler shutdowns in Detroit will affect at least 60,000 hourly employees. Chrysler, Detroit's largest single employer, has some 100,000 employees in the hourly rated and salaried ranks. The company declined to give an exact figure on the number to be made idle.

In Detroit Chrysler is closing its Dodge plants by the end of work Monday and Jan. 7, its DeSoto production from Monday until Jan. 6. Its Chrysler division plants from Monday until Jan. 2 and its Plymouth plants from Tuesday noon until Jan. 2.

Among the smaller makers, American Motors said it will work full time through the holidays with the exception of Christmas and New Year's day. Studebaker Packard, already producing at about 50 per cent of the rate of a year ago, plans to work two days next week—Thursday and Friday.

The same schedule probably will apply for New Year's week.

New Study On Tidal Project

OTTAWA (CP)—Two University of New Brunswick professors have been commissioned by the Minister of Marine to study the economic effects on the fisheries of the possible development of the Passamaquoddy tidal power project.

The study is part of a larger investigation being made for the governments of Canada and the United States by the International Commission on the Feasibility of and Economic Prospects for the Development of the Passamaquoddy Tidal Power Project.

NATO Policy Is Approved

LONDON (AP)—Prime Minister Morrison gave approval Friday to the NATO summit policy and the planning of U.S. military aid to the NATO countries.

The British cabinet has approved the NATO summit policy and the planning of U.S. military aid to the NATO countries.

TAKE-OFF AT SEA

A Soviet SSF aircraft carrier was launched from the Black Sea at night by the Soviet navy. The carrier is the first of a new class of ships designed for the detection of submarines and with the most modern anti-submarine weapons. One of these aircraft carriers is the first of a new class of ships designed for the detection of submarines and with the most modern anti-submarine weapons.
