
CAR-TRUCK COLLISION RESULT

A truck-car head-on collision Tuesday afternoon at North Bedeque sent a Summerside youth, Barry Champion, to Prince County Hospital suffering from serious injuries. Damage to the car (above) which the Summerside High student was driving was estimated to be in excess of $1,000. The truck, a 1961 three-ton model owned by H. A. Fawcett and Sons of Petlcodiac, N.B., also sustained damage estimated at over $1,000.

Mash Possession Case Dismissed At Geo'town

GEORGETOWN — A charge of possessing a quantity of mash suitable for the manufacture of illicit spirits against William Blaine Nicolle, Murray River, was dismissed here yesterday. The case was heard by Magistrate James B. Johnston, QC.

The accused was represented by William A. Reddin of Montague while J.P. Nicholson of Charlottetown represented the excise department.

Crown evidence in the case was heard at an earlier sitting. Yesterday the defence called six witnesses, two of whom were character witnesses.

The mash in question was found in the woods near Murray River and the accused denied owning or touching it but he had heard it was there and was going to take some of it. However, the police, who were watching it, made their presence known just as the accused and a companion reached the container of mash.

The magistrate was of the opinion that no actual evidence of possession was before the court and that the accused had not carried out his intention to take any of it. He therefore dismissed the charge and refused to grant an application for costs by Mr. Reddin.

LeRoy Wayne Keenan, Murray River, charged with the same offence as Nicolle under the same circumstances, had the charge withdrawn on application to the court by Mr. Nicholson, following the dismissal of the charge against Nicolle.

Deputy Attorney General J. Arthur McGuigan, QC, represented the Crown in all cases other than those under the Excise Act.

HORSE CASE

James Felix Campbell, Baldwin's Road, who at an earlier sitting of the court pleaded guilty to ill treating a horse, was fined $20 and costs or 10 days. The court was informed that the horse was now in possession of SPCA officer Vernon Dennis, who had the owner's consent to destroy the animal, and that the costs of stabling the horse from the time it was taken from the accused and also the veterinarian's fees, were now paid

Russell James Bailey, Murray River, represented by Mr. Nicholson, charged with causing a disturbance in a public place by molesting other persons, had his case adjourned to Feb. 12 for hearing.

CASES ADJOURNED

Lawrence Wallace MacLeod, Murray River, represented by Mr. Nicholson, charged with selling liquor to a person under 21 years of age, had his case adjourned for hearing Feb. 12.

Raymond Martin Griffin, Montague, charged with the care and control of a motor vehicle while impaired, asked for and was granted an adjournment to Feb. 12 so that his attorney could be present.

One party was fined $20 and costs for being intoxicated in a public place.

Another person was fined $20 and costs for having liquor in a place other than his residence.

BONHOMME CARNIVAL AT ICE SPORTS

Bonhomme Carnival, spirit of the Quebec Winter Carnival, paid a short visit to the Prince Street Ice Sports at the Charlottetown Forum last night. He is shown here with Gail Coles, representing the Centennial Baby in a costume event. The jovial gent arrived in the city last evening.

U.S. Firm Given Licence For Oil Probe In Kings Co.

By RALPH CAMERON

Hon. Leo Rossiter, minister of industry and natural resources, has announced that two licenses have been granted to Eason Oil Company of Oklahoma, to carry out geophysical work in an area of slightly more than 344,000 acres, stretching from Morell to Boughton Island and East Point in Kings County.

To be carried on throughout the summer, the exploratory work is slated to get underway early this spring and when completed a decision will be made as to whether drilling operations will be carried out.

At the same time, the Minister announced agreement had been reached between the three Maritime Provinces as to the water boundaries of each for drilling purposes. The boundary lines have been drawn, running from the eastern tip of the province all the way round. In all sections, it is approximately half-way between Prince Edward Island and Nova Scotia, and continues through the Northumberland Strait, equidistant from this province and New Brunswick.

So far, this province is the only one of the three to have issued offshore licenses. These were for an area between Borden and just beyond West Point.

NEW BOUNDARY

The new boundary was outlined by competent surveyors and has been drawn on marine charts, B. Graham Rogers said.

Mr. Rogers, geological officer in the department of natural resources, said yesterday some seismograph work was done in the eastern section of the Island about a quarter-century back, by a Texas company, and only recently he was able to obtain results of the tests.

Negotiations were then started under instructions from Mr. Rossiter, and a consulting firm in New Orleans was employed with the result that an application for licenses to the Eason Company has been granted. While negotiations were in progress, some aerial work and additional surface work was done by geologists from Ottawa.

S'SIDE GREETS BONHOMME CARNIVAL

SUMMERSIDE — Civil officials and centennial committee members along with some 20 other interested spectators turned up at the Summerside airport last night to greet Quebec's Bonhomme Carnival on his first visit to P.E.I.

On hand to greet the colorful character at the airport were Mayor and Mrs. J. Ernest Morrison, Councillors Leo Wood, George Keys, Jr., Mrs. Frances Perry and Herbert Schurman; centennial committee members Edgar Cannon and George Clark along with Dr. Gilbert Gallant and Wing Cmdr. Esbel, who represented Group Captain A. G. Dagg.

During the stopover, Mr. Pisette, who accompanied Bonhomme Carnival, presented Mayor Morrison with a medal commemorating the tenth anniversary of the Quebec Winter Carnival.

Mayor and Mrs. Morrison then accompanied the Quebec group on the flight to Charlottetown.

The Travellers, Folk-Singing Quartet, Slated To Perform

The Travellers, a quartet of folk singers that has won raves from critics and audiences from Vancouver to Halifax will make its Prince Edward Island debut Saturday night at the Basilica Recreation Centre.

The centre's 1,000-seat capacity is expected to be taxed to the limit with folk singing fans curious to see if the group lives up to its advance billing.

The Toronto-based foursome has been met with sellout crowds wherever it has appeared and post concert reviews in newspapers across the nation underscore the fact that the group's performance matched its press clippings.

Said the Vancouver Sun: "Toronto singers win ovation here"; Montreal Gazette: "Travellers excellent in folklore"; Kingston Whig-Standard: "Singing group smash hit"; Globe and Mail: "Urbane crowd cheers at folk concert"; Saskatoon Star-Phoenix: "The natural charm exhibited by the group, together with their outstanding ability, had the audience cheering and applauding through the complete show"; Dalhousie University: "Travellers win ovation".

This widely heralded group is composed of four men and a woman, Simone Johnston. Other members of the quartet are Sid Dolgay, an expert on an instrument not often seen these days, the mando-cello; Jerry Gray, who earned a degree in dentistry while working with the Travellers and Ray Woodley, a guitarist.

The concert is scheduled to get underway at 8.15.

Drama Course Is Announced

A course in drama, covering acting, stage mechanics and direction will be given in the Little Theatre, Willow Street, starting next Tuesday.

The course will be given by Ronald Irving, provincial drama adviser, and will be open to all interested persons, as well as Little Theatre members. The course will start at 7.30 p.m.

The announcement of the holding of the course was made following a meeting of the executive of the Little Theatre, Peter Shama presided.

DAIRYMEN

(Continued from Page 1)

provincial association—this is already so in P.E.I., Manitoba and Nova Scotia.

MILK EVALUATION

The farm group endorsed an exhaustive study of the best means of evaluating milk which up to now has been based on its butterfat content.

They will seek greater coordination of "prices and pricing arrangements" for raw milk across Canada; retained for another year the Dairy Foods Service Bureau set-aside rate of one-quarter of one percent of the gross return; and asked the bureau to use every possible means to refute "the unsubstantiated propaganda linking dairy foods with causes of heart disease". Authorities including the American Medical Association have stated publicly there is no proof such claims are justified, the resolution emphasized.

The federal government is being urged to utilize surplus milk products where possible in a world food program, grant a certain subsidy to exporters of whole milk powder so they can take maximum advantage of export markets; and requested a continuation of the 14 1-4 cent subsidy on butter fat to eligible producers as farm-separated cream keeps millions of pounds of skim milk powder off the market.

ATTENTION TO CHEESE

Special attention was paid to a strengthening cheese industry with a request to the federal government to maintain the support price on cheddar cheese at the present level; maintain the 3c subsidy per cwt. on eligible milk going into cheddar cheese processing; re-establish the 4c export subsidy on cheddar cheese and to extend this subsidy to the exportation to any country of any type of cheese made of whole milk; and extend the 30c subsidy per cwt. presently granted on milk going into cheddar cheese to all eligible milk going into processing of any cheese made of whole milk.

The farmers also asked for an effort to effect an increase in the present 500,000 pound quota of cheddar cheese sales to the United States.

ARCTIC COLLIERY

Coal shipments from the Norwegian mine in the Arctic island of Spitsbergen in 1963 were 430,000 tons, a record since the Second World War.

Unloading Commences In Geo'town

GEORGETOWN — Unloading operations began here shortly after 5 p.m. last night of the MV Fossheim, loaded with 5,000 tons of super phosphate for the Island Fertilizers Inc. plant in Charlottetown.

The cargo was being trucked to Charlottetown, with a fleet of trucks expected to work through the night.

The ship, originally headed for Charlottetown, was diverted here because of heavy ice in Northumberland Strait. She had been off this port since early Tuesday, but was prevented from entering by poor visibility in a snow storm. She tied up at the railway wharf at 1.30 yesterday afternoon.

Pulpit Lamp Dedicated

BEDEQUE — at the morning service in the United Church, Jan. 12, Rev. R. M. Cameron, dedicated a pulpit lamp to the memory of two elders, Thomas Moyse, and Major Lowther.

At the time of his death Mr. Moyse was in his 100th year, and Mr. Lowther was 89.

Murray Harbour Has Rifle Shoot

MURRAY HARBOUR — Following are the results of the Murray Harbour rifle shoot, Jan. 10, 1964.

Fred White	97.5
Randall Richards	94.5
Allan Richards	91.4
John Cosbee	91.3
Marven Gorden	85

Don Jordon	80

Damaged Ship Heads For Port

NEW YORK (AP)—A British ore carrier, the Middlesex Trader with 43 men aboard, fought Wednesday night to reach Philadelphia despite storm damage.

The vessel, with the U.S. Coast Guard cutter Cook Inlet standing by, was under way but her progress against winds and seas was slow.

The Middlesex Trader, travelling without cargo from Rotterdam, The Netherlands, to Philadelphia, was about 450 miles southeast of Cape Sable, N.S.

Pollution Report For Review Today

A committee meeting this afternoon in the Provincial Department of Health building will study the harbor pollution report which has been received from L. Richards and Associates, Ottawa, consulting engineers.

A lengthy survey was conducted by the engineers last year and a report was filed sometime in December. The committee, headed by Dr. Burton Howatt, health officer, took the report under advisement and was scheduled to hold a meeting earlier to discuss the many aspects.

Members felt, at the first meeting after receiving the report, they had not had sufficient time to study it before making any recommendations based on it. Recent storms interfered with the holding of the last meeting scheduled.

The report noted significant pollution along the city waterfront but said the harbor as a whole revealed no serious pollution. It recommended elimination of wastes going into the Hillsborough River from the Parkdale sewer and Canada Packers Plant. The report proposed comminution and chlorination of all sewage and an extension of sewer lines to carry wastes to one outlet thence by extension to the mouth of the harbor.

Three Town Officials Get Re-appointments

BORDEN — At the regular monthly meeting of the Borden town council held Monday night, Mayor G.C. Bell reported that the town audit had been completed and sent to a firm for publication.

Three officials were re-appointed of their respective positions for the coming year: A.G. Chappell, magistrate F. W. Westhaver, town clerk and John MacKenzie as the light foreman.

Coun. MacIsaac read the police report for the first two weeks of January, stating that $50 had been collected in fines.

Coun. McIvor said that Maritime Electric had carried out a survey in connection with the mercury vapor lamps that are to be installed in the town in the near future.

The mayor read a letter from Solicitor General J. Watson MacNaught, Ottawa, concerning the erosion of the south bank. Mr. MacNaught suggested the matter should be taken up with the provincial government.

The discussion again came up with regard to the dogs running at large within the town. It was agreed that the town police are to have a more constant check on these dogs until the enforcement of the town by-law is carried out.

Kensington Has Breaks

KENSINGTON — Thieves broke into a warehouse and the Kensington rink early Wednesday morning but managed to steal only a few packages of cigarettes and less than $1 in change.

The Kensington rink, owned and operated by Isaac Walker, was entered by thieves who broke glass in the office door window. About 10 packages of cigarettes and less than $1 in change was taken from the rink canteen.

Kensington police constable Vernon Reeves said yesterday afternoon indications were that only one person was responsible for the break at the rink.

In a second break, a safe in a wholesale potato warehouse owned by Keith Harrington, Kensington, was partially pried open but nothing was taken. Thieves busted the combination on the safe but could not open it enough to get at the contents.

The Summerside Detachment RSMP assisted Constable Reeves in investigations into the two breaks.

Damage Heavy In Collision

SUMMERSIDE — Damage estimated in the vicinity of $450 resulted from a two-car collision on Water Street yesterday morning.

The collision occurred when William Vernon Craig, Bedeque, driving a 1964 car, stopped behind a parked car on Water Street and a second vehicle, a 1961 driven by Charles Edward MacLellan, Summerside, proceeding in the same direction as Mr. Craig, ran into the rear of the Craig car. Damage to the Craig car was estimated to be $125 while the MacLellan driven auto sustained approximately $300 damage.

East Kings Highways Said Heavy

SOURIS — Main highways were open in the East Kings County area last night but were "heavy" and drifting continued all day long

As most of the routes for the school buses were clogged with the drifting snow, Souris Regional High School was not open for classes. The two elementary schools in Souris were open as usual however.

Physical Education classes and a meeting of the home and school association last night were postponed.

Survey Results To Be Presented

Daniel Wermenlinger, secretary-general of the Canadian Council of Resources Ministers, which has started a review of legislation, programs and agreements affecting Canada's renewable resources, said yesterday the results will be presented at the meeting of the provincial and federal resources ministers slated for Charlottetown in June.

The study is concentrated on agreements relating to water, land, fish, forests and wildlife. Renewable resources programs on recreation and regional development are also being studied.

Half Century Club Meets

BEDEQUE — The Bedeque "Half Century" club met at the home of the president, Mrs. Walter Leard, Monday afternoon. Roll call was followed by the reading of the minutes of the last meeting.

The opening poem was read by Mrs. Ernest Johnson: "A Perfect Prayer". It was decided in future to have instead of the opening poem, "A thought for the day", either poetry or prose.

Much discussion took place regarding plans for the Centennial Year program. It was decided to hold a pantry sale Feb. 16. It was also decided to send dainty gifts to the shut-in members.

Next place of meeting is at the home of Mrs. J.H. MacFarlane, and instead of the usual program, members will come prepared to make fancy articles for a bazaar sale later on.

The hostess served a treat of chocolates.

Geo'town Seeks Information On Water, Sewage Systems

GEORGETOWN — The Georgetown council will seek the best engineering information available at the earliest possible date on the installation of water and sewerage systems in the town. This was decided at this month's council meeting held Monday night.

Co-operation of citizens in shovelling the snow off their sidewalks and sanding them afterwards when they are slippery is being urged by the council. A report from the chairman of the street and sidewalk committee, Coun. Hemphill stated that streets were being plowed and sanded. He passed on the thanks of the snowplow operators for the bonus paid them by the town for last winter's work.

Repairs are also being planned to the town hall as soon as a carpenter is available. Steps are also to be taken to improve the hall's heating system, which is not regarded as satisfactory at the present time.

Coun. Lavandier reported repairs to the rink and its pump, and he read a letter from the provincial fire marshal, which stressed that both stairway exits to the rink when being used as a dance hall must be open.

The report of the fire committee was presented by Coun. Walker, and the council instructed the town policeman to see that cars were removed from the streets while snowplowing was in progress.

No sanitation problems were reported by Coun. Johnson and there was no report from the police committee, due to the unavoidable absence of Coun. Murphy.

The year's financial statement was read by Coun. Lavandier and sufficient copies will be prepared for all ratepayers of the town. Mrs. Helen MacKinnon and Nelson Hansen were appointed auditors.

The clerk reported a number of judgments against delinquent taxpayers have been obtained and executions will be issued if settlements have not been made at the appointed time.

The mayor, Dr. A. Kennedy presided. Councillors present were: Guy Hemphill, Spurgeon Walker, J.F. Johnson and Frank Lavandier. Mrs. Jean Easton is the town clerk.

The monthly financial report was read by Coun. Johnson, in the absence of the chairman of the finance committee, Coun. A. H. Stewart, who was unable to be present due to ill-health.

PEARSON AND

(Continued from Page 1)

rons stationed in France, were not on the agenda.

There was support for the general impression among the Canadians that the talks were going well in the fact that de Gaulle asked Pearson to remain half an hour beyond the planned time for their first meeting. When it ended, de Gaulle personally conducted Pearson to the door and bade him good-bye as he drove back to his hotel.

Officials denied reports that the welcome given Pearson was any less enthusiastic than that given Premier Lesage of Quebec when Lesage visited here two years ago.

De Gaulle's absence from the airport was described as official protocol requiring the head of the French government-Pompidou-to meet the head of the Canadian government.

De Gaulle, as head of state, would receive the visiting Canadian head of state—the governor-general.

The assessment of Wednesday's events was that both Pearson and de Gaulle, conversing with only an interpreter present, let down their hair on the whole range of international affairs in a manner that promised closer relations between the two in future.

They are scheduled to meet again today when they are expected to go into trade matters by such as the forthcoming Geneva tariff-cutting talks among members of the General Agreement on Tariffs and Trade.

The approach of the European Economic Community to these talks has been in some doubt and Canadians were hopeful for a clearer indication of France's attitude to removal of such trade barriers as agricultural quotas.

WESTERN BRIEFS

IN WESTERN HOSPITAL

George Williams, Alberton, is a patient in the Western Hospital.

RECEIVING TREATMENT

Mrs. John Clark, Alma, is receiving treatment in the Western Hospital.

OPENS STORE

Mrs. Reginald Noye, Mt Pleasant, recently opened a general store in the building formerly occupied by a drug business.

IS RECOVERING

Ivan Brown, New London, is making a good recovery in the Prince County Hospital following a recent illness.

HAD SURGERY

Allan Sudsbury, son of Mr. and Mrs. Keith Sudsbury, Spring Valley, is making a good recovery following surgery in the Prince County Hospital, Summerside.

WRIST FRACTURED

Miss Harriet Glover, Norboro, is a patient in the Prince County Hospital, Summerside, where she is receiving treatment for a fractured wrist suffered in a fall at her home on Friday.

MacNUTT FUNERAL — The funeral for Mrs. Bruce MacNutt was held from her late residence at Malpeque, where the service was conducted by the Rev. Donald MacKay. Pallbearers were Ralph Edwards, Sidney MacGouzan, Robert Sutherland, William Auld and Frank MacNutt. Burial was in the People's Cemetery, Malpeque.

J.D. MacLean Montague, Dies

MONTAGUE — The death of Jonathan D. MacLean of Montague, formerly of Albion Cross, occurred at the Kings County Memorial Hospital Tuesday evening.

Mr. MacLean was born in Albion Cross in August 1881, the son of the late Mr. and Mrs. Hugh MacLean. He lived in British Columbia, but on the death of his father, he returned to take up farming on the old homestead at Albion Cross, retiring 12 years ago.

In 1914 he married Miss Minnie MacPhee of Mount Hope who is left to mourn, also surviving are four daughters and one son, Pearl, Mrs. Hazen Dawson, Albany, P.E.I.; Willena, Mrs. Stillman Acorn, Caledonia; Marion, Mrs. Garfield Jay, East Royalty; Mildred, Mrs. Lord, Innisfail, Alta., and Stewart, of Cambridge, Mass., who is flying home to be with the family in their bereavement.

Also surviving are 20 grandchildren.

Resting at the Montague Funeral Home. Funeral arrangements are not yet completed.

DEATH NOTICES

(Received too late for Classified Death Notice column).

MacKINNON — At St. Peters Bay, Jan. 15, 1964, Charlene MacKinnon, aged 2½ months, daughter of Mr. and Mrs. Reginald MacKinnon. Remains were transferred from the Perry Funeral Home to the home of her parents, from where the funeral will be held Friday afternoon at 2 o'clock. Interment in the church cemetery, St. Peters Bay.

MacCANNELL — At Canoe Cove on Jan. 13, 1964, Mrs. Duncan MacCannell in her 86th year. Resting at the Gatcliffe Funeral Home this morning, then to Canoe Cove Presbyterian Church, service commencing at 3 o'clock. Interment in the church cemetery. Please omit flowers.

HALIFAX (CP) — The weather office says late Wednesday evening skies were generally clear in all three Maritime Provinces and temperatures were slowly approaching the zero mark in New Brunswick and Prince Edward Island.

A ridge of high pressure will cross the district today, giving all regions a mainly sunny day. However, a weak disturbance centred near James Bay late Wednesday will spread cloud across the district late today and intermittent snow is expected to begin in western and northern New Brunswick this evening. Temperatures are expected to be milder in all regions.

Regional forecasts:

Mainland Nova Scotia, Prince Edward Island, Eastern N.B. Counties: Clear, clouding over by evening; milder; northwest winds 20 shifting late in afternoon to southwest 20. Low-high at Halifax 5 and 35, Yarmouth 17 and 28, Kentville 5 and 25, New Glasgow zero and 20 above; Goshen 5 and 18, Charlottetown zero and 18 above, Moncton 2 below and 18 above.

High tide today at Charlottetown 12:39 and 11:43 p.m. At Rustico at 6:40 p.m. Summerside tide eighteen minutes later than Charlottetown. Sun rises at 7:20 and sets at 4:59.
