The carrying out of this project will require two barque-rigged steamers of 300 tons, a steam oil rendering establishment, etc., at a cost of over $100,000. This company will enter into competition with American sealers, and will probably be given authority to look after illegal poaching on the part of the Americans. Twenty-four millions seals have been killed and their skins exported to England in the last fifteen years.

A Great Scheme.

STEAMERS TO THE WEST INDIES AND BRITISH GUIANA—ALSO REGULAR PACKETS FROM ST. JOHN TO AUSTRALIA.

(*St. John Sun.*)

A meeting of the St. John Forwarding and Trade Promoting Association was held last night. J. DeWolfe Spurr presided, and there were present Hon. Dr. Pugsley, J. H. Parks, Rev. Geo. Bruce, H. F. Coombs, R. B. Humphrey, Jas. Pender, W. E. Vroom, Barton Gandy, T. Bent and others.

Hon. Dr. Pugsley said Mr. Coombs had waited upon several members and stated that he had some information with reference to the trade of the West Indies which it might be desirable to bring before the association.

The secretary stated that he had called upon Murdock, Dickson & Co., of Toronto, while in that city. They were ready to act as the agents of the association.

On motion of Mr. Humphrey this firm were appointed the agents of the association in Toronto.

Mr. Coombs being called upon, spoke at considerable length on the trade of the West India Islands and British Guiana. Four years ago he had, at the request of some of the merchants of P. E. Island, visited Ottawa and secured the signatures of some fifty members of Parliament to a petition asking the Dominion Government to give a subsidy to a line of steamers to run between Canada, the West Indies and South America. Nothing came out of it however, and last September he went to Toronto and called upon prominent merchants with a view of establishing a company to be called the West Indies and Southern Transporting Company. A petition had been circulated and sent to the postmaster general asking him to urge the Government to grant a subsidy for a line of steamers to carry a fortnightly mail between this country and the West Indies, etc. Mr. Coombs then read the prospectus of the company he is endeavoring to form, and stated that he proposed to run two steamers between St. John and Kingston, Ja., Barbadoes, Trinidad and British Guiana. The company would also charter sailing packets to run between Canada and Australia if freights offered. He went on to show that the steamers would reach the West Indies about nine days after they left St. John, which was about one-third the time consumed by a sailing vessel in making the voyage. He next enumerated the articles imported into and exported from the islands. Canada did very little trade with them as compared with the volume of their trade with the United States. The reason was simply this, that we had no direct means of communication with the islands. With a line of steamers running regularly we could do a large business with them. While the shipments from New Brunswick were very small, those from P. E. Island were considerable, particularly of oats, which were nearly as large as those of the United States, to the West Indies. The estimated cost of running steamers of two thousand tons would be about $350,000 per annum; earning, if full cargoes could be obtained at present rates, from New York to West Indies, $780,000. In speaking of the articles our people could ship to the West Indies Mr. Coombs paid a high compliment to Mr. Stewart and Mr. Logan of this city who, he said, make soap, equal if not superior to most of those in the London market. He said that Mr. Harris of Moncton was willing to take some stock in case a company was formed, and would have his sugar brought here in these steamers. The merchants of Charlottetown were willing to give all the assistance they could. All that was required was a start and there would be no trouble in finding men to take stock in the enterprise. The business men of the Upper Provinces would rather import their goods through St. John than by New York or any other foreign port. In conclusion Mr. Coombs pointed out that the company could carry goods just as cheaply as any line now running to American ports.

Mr. Pender said the charges in New York on goods shipped *via* that port to the West Indies were very high. They amounted to more than the freight.

Hon. Dr. Pugsley said the association was indebted to Mr. Coombs for the trouble to which he had gone to get this information. It was plain that the merchants preferred to import through St. John rather than by an American port. Mr. Perley of this city had been informed by his brother who was in England and interested in a line of steamers owned there, that he would be willing to put a considerable amount of money in a line of steamers to run between St. John and the West Indies if a company was established to operate such a line, provided the government gave a subsidy. He moved the following resolution:—

Resolved, That this association hereby tenders its thanks to Mr. Coombs for his very interesting statement, showing as it does the possibilities of developing a large and profitable business between Canada and the West Indies through the port of St. John if direct steamship communication were established.

This was seconded by Mr. Parks and carried.

On motion Chas. N. Skinner, M. P., W. E. Vroom and James Pender were appointed a committee to consider the matter.
