

Students Perform Satanic Rituals: Frosh Virgins Sacrificed to the "Beenie God From the Barn"

The 1989 Frosh Committee surprised everyone this year by re-enacting the hundred year old tradition of a *Virgin Frosh Sacrificing*. The sacrificial event was going as planned until it was realized that there were no virgins in this year's gaggle of Freshmen and women. However, the Frosh Committee unflinchingly found a *Born Again Virgin* who once again wished to be sacrificed to the "Beenie God from the Barn". The sacrifice was very interesting and informative to all,

as their virgin wanted to use paper foil and not the traditional handcuffs.

Everyone wanted to watch and see the event unfold, but it was too much for some people who fainted once the sacrifice itself started.

"Next year, we hope to make it an even bigger event," commented one of the organizer, "We might do this by serving refreshments and drinks."
