MARKETS and FINANCE

N. Y. Stocks

NEW YORK (AP)—The stock market made a strong technical rebound Wednesday that added nearly three billion dollars to the quoted value of securities.

It was the third best advance of the year, but it was accomplished on very light volume in a narrow market. There was nothing robust about the affair. Because of Columbus Day, there was a semi-holiday in the financial district.

The Associated Press average of 60 stocks was up \$2.40 at \$165.80, the third best advance for the average this year. Based on the action of the average, it was estimated that \$2,735,000,000 was added to the quoted value of securities listed on the New York stock exchange.

Brokers said the action of the market appeared to be based on technical considerations—the market has been going down fast, it has reached a low average price level that made many securities attractive, and buyers were attracted.

The rise brought gains of 1 to around 3 points frequently. There were few losses in significant areas.

The industrial component of the average added \$3.70, railroads were ahead \$2.00 and utilities added 50 cents.

In an advancing Canadian section, International Nickel gained 2 1/2, McIntyre was up 1 1/2, Distillation Segram advanced 1 1/2, Canadian Pacific was up and Dome Mines was ahead 1/2. Hiram Walker was alone on the downside, off 1/2. Royalite Oil on the American exchange posted a gain of 3/4.
