THE COMING ELECTION FOR THE SECOND DISTRICT OF KING'S COUNTY.—During the past week we have received letters from various parts of this District, the contents of which are not of a very encouraging nature for Her Majesty's Printer, Edward Reilly, Esquire. These communications state that, although Mr. Reilly does not employ truth where the contrary is better calculated to serve his purpose, Mr. McEwen is "sure to win." We are aware that there are many persons in the District who do not entertain exalted opinions of the new Queen's Printer, but may vote for him simply because he is a Liberal and an office-holder under the Government. Now, Mr. McEwen, it is well-known, is a staunch and true Liberal, and it is not probable that his support of the Government will have to be bought by a lucrative office. If the Second District of King's County think proper to return a man from amongst themselves, ready and anxious to support a Liberal Government, we can readily believe that Mr. Reilly's defeat will not seriously embarrass the Government.

☞ An advertisement appears in another column announcing a Concert to be given on Thursday evening next, in St. Andrew's Hall, by some of the Students of St. Dunstan's College. The Rev. Az. Trudelle, P. P. at Egmont Bay, is just now on a visit to the city, and we understand the Concert will be conducted by him. A grand affair is anticipated.

The Canadian is the name of a new periodical published at Boston, U. S. At present it appears monthly, but its publishers intend soon, we observe, to issue it weekly.

News by Saturday Night's Mails.

BY TELEGRAPH FROM EUROPE.

LONDON, Jan. 16, eve.—It is reported that Lord Bloomfield, British Minister of Austria, and Lord Clarendon, have gone to Rome, to request the Pope to use his influence with the inhabitants of Ireland for the suppression of Fenian agitation.....The preliminary examination of the prisoner Lennox was concluded Evidence was given to the effect, that he was the leader of the attack on the police at Stephinny last spring. He was held for trial on the charge of high treason. ...The aggressive policy of the Russian Government cause much alarm in Turkey. The *Northern Post*, of St. Petersburg has a noticeable letter on the subject. The writer declares that Russia does not desire an extension of territory, and her only aim is to secure the safety of the Christian subject of the Porte.....The St. Petersburg Gazette asserts that both England and France have urged the Sultan to make extensive military and naval preparations in the Mediterranean.....The intelligence of the death of Maximilian was for the first time communicated to Carlotta four days ago. The effect of the announcement on the mind and health of the Archduchess is not known.

LONDON, Jan. 16th.—Considerable excitement was occasioned in this city to-day by the announcement that Fenian Deasey, who, with Kelly, was rescued from the custody of the police at Manchester some weeks ago, had been captured. The police late yesterday afternoon overhauled a man near Waterford, Ireland, who answers completely the description of Deasey. There are other strong circumstances with these which warrant the belief that the authorities have not been mistaken. The prisoner under a strong guard, started from Manchester this morning, where he will be confined with the fellow-prisoners of Deasey for recognition. The Government officials are very vigilant. Yesterday, p. m., two Americans, named Barrett and O'Neill, were arrested at Glasgow and imprisoned. Papers found on their person indicate beyond doubt that they belong to Fenian organizations. The motion recently made in the Court of Queen's Bench for a change in the place of the trials of the remans Burke, Casey, Shaw and Mullony from Warwick to London is likely to be granted.

LONDON, Jan. 17th.—Information has been received here that a very violent hurricane recently prevailed at Teneriffe and vicinity. Ships were driven to sea, houses unroofed and blown down, and damage very great, though no mention of loss of life.

LONDON, Jan. 18th.—The Turkish Government is seeking to raise a loan in the English market, the proceeds of which are to be applied to improving navigation at the mouth of the Danube.....Advices from Hong Kong and Shanghai have been received, which state that another battle had been fought between the rebels and Imperialists at Shangtum. The Imperialist army which was under the command of Footall was again defeated.

CORK, Jan. 17.—A vial of explosive fluid, known as Greek fire, was thrown yesterday at one of the witness for the Government in the Fenian trials; but the material failed to ignite, and no injury was done. No clue has been obtained to the perpetrator.

DUBLIN, Jan. 17.—At the examination of Lennon yesterday, sergeant Kelly, the survivor of the two policemen who were shot at Cheapside, and a woman, both swore that they fully recognized the prisoner as the man who fired the pistol shot which wounded one policeman and killed another. Consols 92⅞; 5-20's 71¾ Markets unchanged. Gold 38⅞.

FLORENCE, 17.—The sales of the Ecclesiastical estates sequestered by Italian Government have so far been very productive. The sums realized at these sales show an average proportion of 43 per cent in the value of the property since it was placed in the market.

LONDON, Jan. 18.—When the Cunard Steamer *Scotia*, from New York for Liverpool, entered the port of Queenstown late last night for the usual transfer of the London and Irish passengers and mails, a strong police force quietly went aboard and arrested Messrs. George Francis Train, Grinnell and Gee, three of the passengers who sailed from New York. It is understood that these gentlemen were taken into custody on the charge of being active members of the American branch of the Fenian organization. These proceedings, naturally enough, cause considerable excitement here and elsewhere throughout the Kingdom, and especially among American residents. ....The Prussian Diet has passed a bill for a Railway loan of forty millions.....The Party of the left has been defeated in the Italian Parliament on a motion to adjourn the debate on the budget for this year.....A strict search of the person and baggage of George Francis Train disclosed no proofs of complicity with the Fenians, or justifying his arrest by the British police on suspicion. Train asserts that he came over to England as the special correspondent of New York *World*. He was personally protected through the United States Consul against his detention.

LONDON, Jan. 19th, (eve).—The police of Limerick have made a seizure of guns and ammunition found in the shops of that city, to put it out of reach of the Fenians....Dr. Waters, another Editor of the Dublin *Irishman*, has been arrested, but the particular charge is not stated. It is supposed, however, to be complicity with the Fenian movements. Mike Larratte, who is positively known to be the party who fired the fuse at the Clerkenwell explosion, has been arrested at Glasgow, and brought to London in irons. A man named Clancy has been arrested in this city, charged with firing upon the police. A Fenian manifesto was found this morning posted on the walls of the Mansion house, where it has been posted despite the vigilance of the police, who have no clue to the perpetrators of this daring act. The boldness or audacity of Fenians in face of the vigorous measures of repression which have been adopted excites much uneasiness....Kulm has been appointed Austrian Minister of War .. The remains of the late Emperor Maximilian arrived at Vienna on the 18th, by a special train from Trieste, in charge of a military escort. The train was met upon its arrival by the Austrian officials, a large body of troops, and a vast crowd of people who had assembled to give expression to their respects for the dead, and their sympathy with the living. The remains were formally received by the Imperial family at the palace. The manifestation of popular feeling was intense.

LONDON, 20th, Eve.—Since the abolication of the Tycoon some fears have been entertained that the Japanese Government would refuse to carry out the important treaties concluded last year with the Commissioners of Foreign Powers; but later advices from Japan mention that the new Ruler of that country will maintain and enforce the stipulation of Commercial Treaties made by his predecessor.... Later information is received from Africa in regard to Dr. Livingstone, which it is thought confirms all previous reports of his safety.... The Bill for the ratification of the Treaty transferring the Islands of St. Thomas and St John to the United States, was taken up to-day in the Folksthing, the popular branch of the Danish Parliament, and without important debate the whole subject was referred to a special committee, the sessions of which are to be strictly private.....Michael Barratt (not Maryatt, as incorrectly reported) was placed under examination at Bow Street to-day. He was identified by three of the Government witnesses; they testified that he assisted in preparing the explosion at Clerkenwell House of Detention and swore he was the man who actually lit the fuse attached to the barrel of powder, which was rolled against the prison walls... In the course of the investigation it was ascertained that Barratt had frequently been seen in company with the well-known Fenians Burk and Casey. He narrowly escaped capture when the latter were arrested, having parted from them only the moment before the officers came upon them with their warrants.

LONDON, Jan. 20th.—Michael Barret under examination at Bow street to-day, identified by three witnesses, testifying he assisted in preparing the explosion at Clerkenweil; it was sworn that he actually lit the fuse.

FROM THE STATES.

NEW YORK, Jan. 15.—Havana specials contain the following items:—An assassination plot to kill President Falcon, of Venezuela, was exposed December 31st, and several articles captured from the conspirators. President Falcon had assured his Cabinet that a free election for his successor should take place. Generals Aristeguia and Sil had left Caracccas to put down the rebellion in Avagua and Carabobo. Haytien dates of the 5th state there are symptoms of a revolution in favor of General Solomon, now Envoy to England. A French sea captain had killed a customs officer in a quarrel at Aux Cayes.

NEW YORK, Jan. 18.—An Havana letter of the 11th, says the city is full of startling rumors, which I have been unable to trace to any authentic source. There is a report that the garrison at Porto Prince and some troops at Porto Rico have revolted because they did not receive their pay; another report is that the Spanish Minister at Washington had sent a telegram to the Captain General directing that officer to hold the troops in readiness as the American fleet would pass by the Island to take possession of St. Thomas, and would try to excite a revolt in Porto Rico.....Report number three says that everything is in revolt in Porto Rico, and that the people will vote for annexation to the United States as soon as St. Thomas shall have been transferred.....Gold 38¼.

FROM CANADA.

MONTREAL, Jan 20th. — Further developments in regard to Henry, the liquor dealer, who absconded to the States, show that the loss to the Customs, through his operations, amount to 120,000 dollars. A portion of his cellar was set apart as a bonded warehouse. It is supposed that he drew liquor by means of a suction pump, disposing of it on the ground floor, subsequently substituting water for the liquor. There are nearly two hundred similar bonded warehouses in this city, and some reform is loudly called for.

MONTREAL, Jan. 20.—Great distress is reported among the laboring classes of Quebec. The Moutreal Board of Trade meets to-day to devise means of relief.

TORONTO, Jan 20th.—Sentries placed over magazines—guards doubled, in consequence of the discovery of pyrotechnics inserted through the door, and other suspicious indications of an attempt to blow it up....Gold 38¼.

KINGSTON, CANADA, Jan. 20.

On Sunday morning a fire broke out in the Rectifying House connected with Kingston Brewery and Distillery, which together with three large storehouses, was entirely destroyed. The barque "John Breedan" was considerably damaged.

The fire is attributed to incendiaries. Loss very heavy but fully insured.

ST. JOHN, Jan. 24th.—Discussion of Alabama claims reviewed in English journals. Lord Hobort sustains the position taken by American Government. *Historicus* and London *Times* reply in tone moderately conciliatory. Russia declares rumours of sending troops to Southern rebellion....Ontario Legislature voted $5,000 to the Nova Scotia fishermen. Public meeting was held to raise funds for said purpose. Gold 39¼.

DR. SUTHERLAND HONORABLY ACQUITTED.—The Halifax British Colonist of the 21st inst says:—The trial of Dr. Sutherland for having caused the death of the child, Rosina Collins, by selling to her mother *tartar emetic* for *cream of tartar*, terminated on Saturday last in his triumphant and honorable acquittal. The Jury, without leaving the box, returned a unanimous verdict of "Not Guilty;" and the foreman stated that they desired to express their sympathy with Dr. Sutherland. The Chief Justice, in addressing Dr. Sutherland, stated that he did not consider it inconsistent with his duty to say that he concurred in the expression of sympathy, and congratulated him on his full and honorable acquittal. The announcement of the verdict, and the remarks of the foreman of the Jury, and of the learned CHIEF JUSTICE were received with loud applause by the crowded audience.

A Halifax paper, of the 17th inst. says that a letter has been received at Yarmouth stating that the schooner *Lizzie Chute*, from Antigua, bound to Bear River, is a total wreck at Chegoggin Point, near Yarmouth, and that all hands were lost. The master's name is not given, nor the date when the disaster occured. The schooner was built at Bear River, and cost $8,000. She was insured in St. John for $2,000. The hull, &c., has been sold for $165.

A St. John Paper says:—"We are informed that a valuable Lead and Silver Mine has been discovered in the vicinity of the Quispamsis Station, and that the proprietors intend very shortly to open up and develop the property. We are pleased to learn that such valuable minerals as those described are to be found so near our city, which must very greatly enhance their value."

A St. John, N. B., paper says that the Eastern Express brought on Tuesday night one hundred thousand dollars of the half million of Dominion Government paper intended for circulation in New Brunswick. The remainder of the amount will probably reach St. John by next steamer.

A few days ago as a messenger of a banking firm at No. 19, Broad-st., was returning from the sub-treasury with a bag containing $920 in gold, some unknown person threw pepper in his eyes and stole the bag.

A late despatch from Troy, N. Y., says that the story of the sinking of Recluse Island is a hoax.

It is stated that Prussia has joined France and Austria in their notice to the Government of Servia, concerning its hostile preparations.

The school-house in the settlement of South Pinette, Lot 58, was burned to the ground on the night of the 10th inst. The origin of the fire is not known.

Selling Off appears to be all the rage at present, especially among our Dry Goods Merchants. The thing seems to have become epidemic. But we think it only right and proper that the public should know that Robert Young is always selling off, and that he is prepared at all times to furnish the best value for the money to be found in town.

Magnetic Iron Ore is found in immense quantities at the Moisie river, which enters the Gulf of St Lawrence from the North, many hundred miles north east of Quebec city. It was stated in the Legislature of Quebec, a few days since, that six hundred persons are now profitably employed in the iron works at this remote and desolate spot on the Labrador coast! The discovery of the existence of this valuable ore was made only quite recently.

The London *Times* lately asserted that the convictions for crime in England are from six to ten times more numerous than those in France. Some of the other English papers tried to controvert this; and, allowing that there may be some exaggeration in the statement, it is impossible not to see that the *Times* is mainly right, and that, socially speaking, the English have a more reckless tendancy to lawless acts than the French.

Foreign newspapers not printed in the French language are to be allowed to circulate in France free of the censorship after the first of February.

Two little boys at Corktown, Ont., got up a duel about a young lady. The mother of the cause assaulted the principals and seconds with a heartless broomstick, and put them to rout.

It is said by one who professes to know, that the best way to cook cabbage is to cut it up and boil it in a bag. It is made more palatable and tender.

The N. Y. *Express* says that there are 50,000 mechanics and working people now out of work in that city.
