LIFE-GIVING WATERS

Rivers are commanding attention these days. Rains and melting snows are flooding their channels, and streams, which ought to be the support of life and growth, are spreading destruction far and wide. Men have destroyed the safeguards which nature had built around these spring floods, and now the overflow, which has work made possible, is turning against them. But normally the river means a steady flow of the water which all life needs and which makes even "the desert rejoice and blossom as the rose."

It is easy to think of the outstanding examples—Peter and all that flowed out of the gift of the Spirit at Pentecost, Paul and the evangelization of the nations, Augustine shaping the thought to Christendom for a thousand years, St. Francis and his inspiration to service, Wesley and his leadership resulting in millions of conversions, Carey and the inspiration of modern missions.

Jet Fighter Launched From Mother Plane

WASHINGTON, Apr. 28—(AP)—The United States air force has announced the F-84 jet fighter plane has been launched in flight from the B-36 mother aircraft.

The terse announcement did not mention the recapture in flight of the fighter planes.

It said only that the Consolidated Vultee Aircraft Corporation at Fort Worth, Tex., has been conducting experiments for the air force involving air launching of F-84s from B-36s.

The announcement was made following inquiries about a story in the Fort Worth Star-Telegram, which said the B-36 bombers now can carry jet fighter planes inside their A-bomb bays, launch them in the air and recapture them in flight.

The F-84 Thunderjet has a maximum speed of more than 600 miles an hour, can carry bombs up to 4,000 pounds, and has a combat radius of more than 850 miles.

The B-36 has top speed of more than 435 miles an hour and a range of 10,000 miles with 10,000 pound bombload dropped midway.

IN MEMORIAM

DR. MILTON SIMPSON

Many friends in this Province were shocked on April 11th when the news came of the sudden and tragic death of Dr. Milton Simpson of Kalamazoo, Michigan.

Dr. Simpson was born at Belmont, P. E. I., on April 17th, 1879, where he spent his boyhood. He attended Prince of Wales College and taught school for three years, then in order to further his education he attended Acadia University and graduated in 1905. He then went to Yale and after graduating from there, went to Kalamazoo, Mich., where he was professor of English literature in the college, which position he held until he was superannuated.

On April 10th he left home, driving himself to Battle Creek on a matter of business. He had concluded his errand and was returning on a three-way highway when he turned out to pass a car. Simultaneously the driver ahead did likewise and in order to avoid hitting him Mr. Simpson slammed on his brakes and skidded into the path of an oncoming truck and trailer.

He was thrown two hundred feet and as well as seven broken ribs and cracked scapula, he suffered a double skull fracture which caused his death. He was conscious when picked up and rushed to the hospital where he died the following day.

His three children, Donald, Harold, and Dorothy were notified at the distance but because of the time to see their father before his death.

The funeral service was held from the Truesdale Chapel, on April 14th, where the officiating clergymen were Dr. T. Thomas Wylie and Dr. John Scott Everton, president of Kalamazoo College.

Besides the floral tributes which were beautiful, there were several substantial contributions to the college library and to the Senior Citizens Fund of Kalamazoo, in loving memory of one who had contributed so much of his time, talents, and material wealth to Kalamazoo.

The final resting place was in Mt. Ever Rest Memorial Park. Besides his sorrowing widow, his two sons and daughter, he leaves to mourn one sister, Miss Sophia Simpson of Hunter River.

Much sympathy is being extended to Miss Simpson who has been called upon in the course of a few weeks to mourn the loss of another devoted brother, Mr. Alfred Simpson of Summerside.

Publishers Deny Truman's Right To Steel Seizure

By JAMES DEVLIN NEW YORK, April 26—(AP)—Condemnation of President Truman's seizure of the steel industry and his implication that a President also could take over the United States press and radio was expressed Saturday in a resolution placed before the American Newspaper Publishers' Association.

The resolution declared the press would "resist and defeat" any attempted seizure "by any president."

A number of publishers immediately expressed support of the resolution, introduced by Maj.-Gen. Julius Ochs Adler, general manager of the New York Times. The association by-laws deferred a formal vote until Sunday.

Adler said he was prompted by the government seizure of steel and Truman's recent press conference statement "implying that he has power to seize the press."

The resolution said "This association deplores and condemns this recent action and assertion by the President of the U.S., under the guise of the inherent power of office."

The resolution expressed association belief "that no such inherent power exists."

Adler introduced his motion at the conclusion of a speech by a man who spoke from experience about seizure of a newspaper — Dr. Alberto Galina Paz, publisher of La Prensa, seized by the Argentine Government.

Charles F. McCallihill of the Cleveland News, A.N.P.A. president, said Galina Paz 10 years ago "like us today, would have felt this (seizure) to be inconceivable, unbelievable. Yet it happened."

Galina Paz said "The news which La Prensa published, more than its editorials, was the principal cause La Prensa was suppressed."

"Secrecy, even more than violence, is the hallmark of despotism; full information goes only with democracy."

McCallihill presented a plaque from the association to Galina Paz.

HAS TO WAIT

BRANTFORD, Ont. — (CP) — A provincial inspector, spotting a newly-painted sign reading "gaol" on the Brant County Jail, said that the proper way to spell it is "jail."

Major Sidney Rogers, jail governor, said it would probably remain "gaol" until they get another prisoner who can paint signs. The man who did the present sign was released recently.
