

THE CAT SPEAKS

The Cadre is understaffed. The edifice of this campus rag is an utter squalor. The few students who are working on the Cadre do not have enough time to do the research required to put out something meaningful. They go to classes and they do study for tests, contrary to what little Edith Ann thinks. However, I am not writint this letter to weep and cry.

Even though there are enough excuses about the poor quality of the paper in general, the Cadre has been able to put some thing concrete into the garbage. However the feedback has been quite petty. Instead of quibbling over trivial things like ~~sh~~ ~~it~~ language students should put their minds on more pertinent issues! May I suggest the purpose of this university on Prince Edward Island and how it should be designed to suit the needs of the Island.

In this issue, there is a rip-off article on Kraftco. Even though some of you are aware of the problem already, the N.F.U. would be glad to see that we, the students, are giving them some kind of support for collective bargaining. The dairy farmers on the island would welcome the support.

There are many other issues that the paper could get into. The Cadre could do more research on slum housing beginning right here on campus. If the students bought their own residences, perhaps through co-op housing of some sort, the students could be the tenants and the landlords at the same time. This would also eliminate hassles with guys like jim griffith. The students would be able to make their own rules. The students would become more aware of the problems the Tenent's Union are faced with and perhaps support them through the Cadre.

The Cadre could also help the Micmacs by giving full support to their efforts in getting a causeway or a bridge to Lennox Island.

Yes there are these and many other issues which the students of U.P.E.I. could get into. It would mean a better education. It would mean less student alienation. However, to put out a paper with well researched information requires human resourses. I believe that their are more students who have the time and energy to put out a good quality paper. Therefore, the Cadre staff invites all students to try and get involved in whats happening.

If any student is interested in joining the Cadre, all they have to do is drop down to the office in the basement of Memorial Hall Monday or Tuesday nights. They could also consult any member of the Cadre staff.

THE CAT B.A.

LIBRARY ATTACKED

As I sat in the library yesterday, I began to wonder why the majority of people bothered to come here at all.

I picture the library as a place of peace and quite where one can study in absolute peacefulness. I spent from 10:30 a.m. to 3:00 p.m. in the library trying to do a paper. During that time period I experienced about 5 minutes of complete silence, this was around 12:30 p.m. when there were there. Ninty nine present of the time it sounded like a market place. One could't concentrate if he wanted to.

I noticed this week that there were alot of students from Ch'town Rural High using the library contributing to the noise. I understand that there is a sign in the entrance to the library stating that only U.P.E.I. students are allowed to study in the library. Well! what may I ask are half of the students from Ch'town Rural High doing studying in the library

I'm not sure who makes more noise, the students from Charlottetown Rural High or the students from the University. Who wants to sit and listen to people relating thier life histories to each other, or telling each other jokes? I don't mind hearing a good joke, but there is a time and place for everything. I think maybe they should take down the title of library and put up one reading "public gathering held here!"

Somebody is being very slack in thier responsibilities ???

Signed : a concerned student

MAN DEMONSTRATING HIS SUPERIORITY OVER ANIMALS.
