

"C—R," after regretting that so many Protestants are on the point of leaving this Island, without expressing a hope that their temporal and spiritual interests may be advanced in their intended new abodes, coolly suggests the Christian propriety of carrying on such unrelenting and diabolical persecution against the Roman Catholics resident here, as shall cause them to renounce their faith or leave the Colony.

At this happy season, when Roman Catholic and Protestant Churches are preparing to celebrate the advent of their blessed Lord and Master's Nativity on this earth, it is pre-eminently consonant to one's feelings in a Christian paper to read the insinuating proposition, and receive the bland advice of Christian Rajah.

The heathen Rajah, in his benighted ignorance and infatuated bigotry, believed he was doing his God's service by sweeping from the face of India all Christian souls in one summer. Our Christian Rajah recommends the total expulsion from this Island of all "the heathens," as he politely terms the Roman Catholics, during the coming inclement season. Now, Sir, I am not in the habit of writing homilies, or referring in public journals to texts of Scripture, but request C. R., if he owns a Bible, to turn to Romans 12 ch. 18 & 20 verses, and to picture to himself, lying at death's door on an Indian battle-field, and seeing a veritable heathen, or a Christian Roman Catholic, "drawing water" from a well, refusing to drink his last draught on earth from the hands of either, for fear the "price of their services" should be "his eternal ruin."

Sir, I regret to allow it is no cause of wonder by this time that the editors of the Protector should admit anything into their columns, either as editorial or other matter, and not wishing to foul your pages by more than barely mentioning such a set of seditious immoral, low scoundrels, I remain yours,

A LAYMAN.

THE REBELLION IN INDIA.

SEVERAL FIGHTS IN OUDE, AND GREAT DESTRUCTION OF THE ENEMY.

ALEXANDRIA, OCT. 25.—The steamer Ganjee arrived at Su-z from Bombay yesterday. Dates—Bombay, 10th Oct; Aden, 18th Oct.

Tantia Toppe having for a few days after his former defeat occupied S-roze, fled on the approach of the detachments under General Michel and Brigadier Smith, and is now marching in the direction of Chandernagore.

Several gallant affairs have taken place in various parts of Oude, all ending in the total rout and great destruction of the enemy, with trifling loss on our side.

The campaign has not yet commenced, but Lord Clyde has left Allahabad for Cawnpore, en route for Lucknow; meanwhile the rebels stated to be still in great numbers and ravaging the country, and sorely oppressing the inhabitants wherever our troops are not posted.

FAST INDIA HOUSE DESPATCH.

The advanced force under Captain Mayne, consisting of 420 sappers of the Malwa Field Force, reached Seronge on the 30th of September, but found that the enemy under Tantia Toppe had broken up his camp, and retreated towards Esanghur. This place the rebels attacked and captured on the 2d of October.

Brigadier Smith, with his force from Gounah, reached Esanghur on the morning of the 5th of October. The enemy, with his guns and elephants, had the same morning, at sunrise, left the place for Chandernagore. Brigadier Smith's cavalry, however, succeeded in capturing four guns.

Eight hundred sappers had been despatched by the rebel leaders to pumder Kanade (Qy.)

A combined movement is proposed for hemming the enemy in at Chandernagore by the Malwa Field Force—the force under Brigadier Smith, and the troops at Gounah, Saugor, and Oojein. Major-General Michel has been placed in command of the troops serving in Rajpootana and Central India.

With the exception of a slight Bheel disturbance in Khandeish, the Bombay Presidency is quiet.

Her Majesty's 46th Regiment and the left wing of her Majesty's 91st have arrived in Bombay from Suez. The former has gone to Sende.

—H. L. ANDERSON, Secretary to Government.

DISMISSAL OF THE PRUSSIAN MINISTRY.—The following members of a new Prussian Ministry have been appointed:—Prince Hohenzollern, President of the Council; M. Schlieffen, Foreign Affairs; M. Bethmann-Hollweg, Public Instruction; General Bonin, War. The rest of the present Ministers are to be dismissed as soon as the arrangement for supplying their places are completed. Prince Hohenzollern-Sigmaringen who belongs to a branch of the Royal Family of Prussia—has not hitherto taken any prominently active part in politics. He is in the prime of life, having just entered upon his forty-eighth year, and will probably be most familiar to the generality of our readers as father of the young Queen of Portugal, who recently became our guest for a short time, on her way to her Lisbon bride. It is not surmised that his Liberalism is of a very pronounced description, but he will bring to the new Cabinet the prestige of an unimpeachable character and the éclat of the highest social position. In these appointments no triumph certainly will have been gained for ultra-liberal views, but an assurance will have been given of a steady determination to free the administration of affairs from those servile and retrograde principles of home and foreign policy of which the late Cabinet had so long been the exponent.

THE INSURRECTION IN BOSNIA.—The Austrian Gazette of Vienna says:—"According to the latest accounts from Bosnia the insurrection, of which the signal was given in the Naha of Gradashatz, has already wretchedly ended. The cavalry corps of Gradashatz and a corps of Turkish volunteers, hastily collected, surprised the Christian insurgents in the environs of Wranjuk, and massacred a great number of them, the rest of the Christians succeeding in escape beyond the Save. Another band of insurgents is in the country between Modric and Osozani, but, as they are ill armed, and as Turkish regular troops are marching against them from all directions, they will probably soon be dispersed.

REMOVED CABINET CHANGES.—Now that Ministers have resumed their Cabinet Councils, rumours begin to circulate freely relative to new Ministerial combinations. It is affirmed, in usually well informed quarters—though we do not vouch for the accuracy of the information in this case—that Lord Derby, finding the Premiership and the gout to be incompatible, and finding moreover, that he cannot get rid of the latter, had determined on relinquishing the former. The same authorities state, with no less confidence, that there is to be a reconstruction of the Conservative Cabinet, with Lord John Russell as the Premier, and Lord Stanley and Sir James Graham as prominent members. Sir James Graham gets the credit of having suggested this "combination."

SPECIAL MISSION TO THE IONIAN ISLANDS.—The working of Constitutional Government in the Ionian Islands has for many years been attended with difficulties, which have recently assumed a complicated and embarrassing character. Her Majesty's Government, wishing to obtain the most accurate information respecting the causes which have led to the political disorganisation of this important dependency, have determined to entrust the investigation of the grievances of our Ionian fellow-subjects to a Special Commissioner, whose information will be acquired by personal observation. Mr. Gladstone has accepted this mission, and the Right Honourable Gentleman will shortly leave England for Corfu.

DEFEAT AND SLAUGHTER OF 1000 REBELS IN OUDE.

The following telegram, dated Bombay, Sept. 27, has been received at the India House:—

A successful attack on a body of rebels, numbering about 8,000, posted on an island of the Gogra, took place on the

19th Sept. Two companies of Europeans, the Kupperthela Contingent, and some of Hodson's Horse, attacked and drove them out of their entrenched position on the island, killing, it is reported, 1,000. The Artillery fire did great execution among the fugitives, and also sunk two boats laden with the enemy. Two of the rebel leaders are reported to be among the slain. The British loss not severe.

The Gwalior rebels are still at Seronge, but it is thought that they will make an attempt to cross the Nerbudda, between Saugor and Bilsa. The following are the present positions of three columns of British troops serving in Central India:—Major-General Michel, commanding Malwa Field Force, at Bilsa; Brigadier Parke, with Neemuch Field Force, at Sarungpore; and Brigadier Smith, moving with his force from Gouna towards Seronge.

The first cavalry reinforcement for Central India, consisting of Guzerat and Gaekwar Horse, from Dohad, under the command of Captain Buckle, was expected at Oojein. The Bombay Presidency is quiet.

BERMUDA.

A storm, or rather a succession of storms, more severe than has been witnessed here for many years, has visited these Islands during the last few days. For some ten days the wind had been blowing from the East, and it increased in violence on Thursday and Friday last, and on Saturday, blew a very heavy gale from the same quarter. The mercury in the Barometer fell rapidly, and stood very low. On Saturday evening the wind fell a little, and blew from two or three points South of East, but on Sunday morning it was blowing a severe gale from the South West. A very high sea was running into Hamilton Harbour, and the vessels at anchor there pulled heavily at their anchors, but fortunately their moorings proved equal to the strain. During the forenoon of Sunday, the wind being West, the gale increased in violence, and, at times, tremendous gusts and flaws struck the land and the water. Afternoon, the wind raged with terrific violence, and from 12 o'clock until about two p.m. it blew a hurricane. About 1 p. m., the slate was blown off many houses throughout the Islands, and some buildings were blown down, Somerset Church was damaged. The walls of the Roman Catholic Chapel or School Room in this town, which had risen, within the last few weeks, with marvellous rapidity, yielded to the storm, and disappeared almost entirely, and the gable ends of a more substantial building, which is intended for a School-room in connection, we believe, with Trinity Church, gave away almost at the same time. Several boats in and near Hamilton Harbour either dragged their moorings or parted them, and went on shore. A small boat at the bottom of the Lane was blown over and broken to pieces. Several large trees near the same spot were blown down, and among them cedars, which in all probability were much older than the oldest inhabitant. Many cedars were also blown down on the hills on the South-side of Paget parish.

The Bark Pearl, riding at anchor outside of Hamilton Harbour, between White's Island and the North Shore of Paget, at one time threatened to go on shore, and it was not without difficulty that she was saved from injury. When the tide flowed in the afternoon it rose to an unusual height, so high indeed that the road near the Public Ferry was rendered impassable. The tide has not been so high since the great storm of the 15th October, 1848. Many fruit trees have been severely injured and some levelled. Near the bottom of the Lane a large branch of a tree was wrenched or twisted off, and a limb of a small cedar torn off.

It is with the greatest pain we have to add that the vegetation, which, a few days ago, was as green as we ever saw it, is now blackened and blighted, and affords a most pitiable spectacle. Truly we may say of this visitation, as the old Hebrew Seer said of the advance of a conquering hero, before it was as a garden of roses and behind it, it leaves a desolate wilderness. The industry of months has been destroyed in a moment, for, notwithstanding the high winds which have prevailed, the plantations looked healthy and robust until Sunday noon, and the fatal blast which blighted them at last was apparently a brief but very severe flow from the North West. The potatoes, sweet and Irish, are, as far as we have heard, quite destroyed; and other vegetables, such as turnips, peas, beans, radishes, lettuce, and pumpkin vines are not less injured. The arrowroot alone appears to have escaped. Such, at least, is the effect of the storm in such parts as we have heard from; but we hope to hear better accounts from other quarters.—Bermuda Royal Gazette, Oct. 26.

WRECK OF THE "PETREL."

The bark Major Norton, Captain Levaeh, which arrived at Pictou on the 6th instant, reports having experienced a gale from the 25th to 28th ult., in which her stanchions were carried away and boats stove. She had on board the captain and twelve of the crew of the ship Petrel, of Quebec, which were rescued in an almost exhausted condition from the wreck of that vessel on the 28th ult. The rescue was made with difficulty, as the boats of the Petrel were all washed away,—the long boat of the Major Norton stove, and her jolly boat so much injured that she had to be patched with canvas to keep her afloat. The Petrel, Captain Sullivan, it appears, sailed from Quebec on the 16th of October, for Androssan, with a cargo of timber. She sprung a leak in a severe gale on the 25th ult., the pumps incessantly going could not relieve her. On the 26th had 2 1/2 feet water in her hold. At noon started wood ends and went on her beam ends,—main and mizzen masts were cut away and the ship righted. As the sea was making a complete breach over the ship, the men were ordered to the fore-top. One man, named McBride, came out of the top and went into the house on deck,—a sea broke over the ship and carried away the house, and three boats,—McBride was not seen afterwards. The ship was kept before the wind,—not a sail was seen all day. The crew being weak from exposure and want of food could not remain in fore-top,—a sail was got and spread in the after part of the poop, on which they remained all night. In the morning found deck beams gone and cargo floating out,—saw a sail to windward, made signal of distress, and the bark Major Norton bore down. When the boat pulled to the wreck, the sea ran so high she could not get alongside. The men on the ship secured themselves with a rope, which was thrown to the boat, they then jumped over and were hauled in. The weakest men were to have been the first saved,—but while two of them were waiting the approach of the boat a sea broke over the ship and swept them off—they were both lost—their names were Henry Foreade and John Burke. The remainder were all rescued as described—they save nothing but what they had on. They were most kindly cared for on board the Major Norton, and safely landed at Pictou,—some of the crew are suffering severely from their late exposure. The Eastern Chronicle containing the particulars of the wreck, has also a card of thanks to Captain Levaeh from the Capt. of the Petrel.—Halifax Sun.

Nov. 8.—Cleared—Schr. Eglantine, Eldridge, Charlottetown. Captain of Bark Mary Stewart, reports—left St. John on Wednesday, 20th October, 1858. On Sunday, 24th, experienced heavy gales from the north east. Monday 25th, at 3 30 a. m., whilst lying to, a sea struck the ship on the port bow, knocking away the stanchions and bulwarks on port side from the night heads as far as the main rigging, and in midships on starboard side, starting cathead, outwater, boats, water casis and spars, taking away the forecastle, scuttle, galley, cabins, and the cooking utensils, &c., and filling the forecastle with water. Thru-day 26th, at 3 26 north, lost 65 30, saved the captain and 9 of the crew of the bark Clara, of New York, from South Shields, laden with coal, in a sinking state, 14 feet water in the hold. The other five men were taken out by the American bark Essex, of Boston, which remained dodging about the Clara, till 5 p. m., apparently wrecking. On the 27th, the male and two men, belonging to the Clara under the impression that the vessel was going down, attempted to leave her in a boat, which was swamped, and all three were drowned. On Sunday, 31st, the Capt. and crew of the Clara on board of the ship Francis B. Cutting, bound to New York, lat. 40 47 N., long 68 41 W.—(The F. B. Cutting arrived at New York, 6th inst.)—Hr. PAIN KILLER.

CINCINNATI, Ohio, July 4, 1857. Gents:—Having used and witnessed the beneficial effects of Perry Davis' PAIN KILLER, I take great pleasure in recommending it to the public as the very best family medicine with which I am acquainted. In this establishment are employed nearly 100 persons, and your Pain Killer has been used with the most astonishing results. For four years not a single severe case of cholera, summer-complaint, or dysentery, but has yielded like magic to the curative powers of the "Killer"; and for cuts, bruises, etc., it is in all instances daily used, and with like good effects. JOHN TANNER, Foreman of Wrightson's & Co's Printing Establishment, T. Desbrisay & Co., wholesale agents in Charlottetown, P. E. Island and by dealers everywhere.

Every mother and housekeeper must often act as a family physician in the numerous illnesses and accidents that occur among children and servants. For many of these cases, I have used Davis' Pain Killer, and consider it an indispensable article in the medicine box. In diarrhoea it has been used with effect. For cuts and bruises it has been in valuable.—(N. Y. Examiner.) Sold by all medicine dealers.
