TWO RECORDS BROKEN

AUCKLAND, N.Z. (AP) — Two world motorcycle records were claimed Saturday at Swannanoa, Canterbury. Russell Wright, on a 1,000 cc Vincent Black Lightning, averaged 185 miles an hour over a time kilometre.

Robert Burns, on a Vincent Black Lightning with sidecar, clocked 161 m.p.h.—six miles an hour better than his previous record.

High Prices Featured In Ayrshire Review

The Canadian Ayrshire Review for the month of June featured "Vista Grande Naomi" the highest selling animal at the dispersal sale of the Ayrshire herd at Vista Grande Farm, Cropseyville, New York. "Naomi", who holds the highest 305 day butterfat record on two times a day milking in her production of 18,493 lbs. of milk, 811 lbs. of butterfat, sold for $5,-200.00 to David Lampert, owner of Meredith Farms, Topsfield, Mass. The sale was a great success with the cows averaging well over $800.-00 each and the grand average of $526.00 proves the demand for Ayrshires in the United States to be growing rapidly.

The "Review" also introduced one hundred and eight new breeders of the Canadian Ayrshire Breeders Association to the past members of the club. Ontario had the largest increase in membership with a total of thirty-six.

This month, for the first time, the only official records of performance issued were cows producing 20% or better over the breed requirements. This naturally reduced the number of cows listed considerably. "Royalty Lady Susan" bred and owned by Col. F. I. Andrew, led all other cows in the 365 day mature class with 14,-260 lbs. milk, 704 lbs. of butterfat with a test of 4.92%. The sire of this high producing cow was also bred by Col. Andrew. George P. Matheson & Son, Milton, owned the cow "Kirkside Ora" which stood sixth in the same class with 13,-724 lbs. of 4.10% milk.

Downed U. S. Plane Saved

CHURCHILL, Man. (CP) — A downed American transport plane which had been perched on a shrinking ice floe in Hudson bay for nearly two months was towed into the mouth of the Churchill river early Monday and tied up in the harbor dock.

Two boats and three canoes were used to tow the floe and its cargo to safety.

For most of the time the salvage crew, headed by H. J. Hunt, camped on the ice. A helicopter took them hot meals from Churchill.

When the ice began to break up, the floe drifted further out to sea and for a time was lost in the fog.

The $600,000 plane was specially treated to prevent damage from saltwater spray and the salvage crew spread 150 tons of sawdust on the ice for insulation from an unusual June heat wave.

Pontoons were placed under the plane to keep it afloat if the floe melted.

Practically all Norwegian merchant ships built since 1945 have single cabins for most of the crew members.
