## THE ALCHEMISTS

### Failed in Their Work of Changing Metals Into Gold.

### Diamond Dyes Never Fail to Make Old and Faded Things Look As Good As New.

Alchemists like Geber, Alfarabi, Avicenna, Albertus Magnus, Artepheus and others, who pretended to be able to change all the base metals into gold, were, in their times, first class impostors and deceivers. The art of making old, faded and dingy dresses, capes, shawls, jackets, coats, pants, vests and other articles of wearing apparel look as good as new has been brought to perfection by the introduction and use of the Diamond Dyes, those triumphs of modern chemistry.

Millions on this continent are saving money each year by using the Diamond Dyes in the home. They are true and faithful family benefactors, and so easy to use that a child can dye successfully with them.

Diamond Dyes have such an extended popularity, fame and immense sale in every locality that imitators have put on the market worthless and adulterated dyes in packages bearing a close resemblance to the "Diamond." It is therefore necessary for every woman, when buying dyes, to see that the name "Diamond" is on each packet. Package dyes without the name "Diamond" can never give satisfaction. Muddy, dull and streaky colors will be some of the disappointments met with. Diamond Dye colors are guaranteed brilliant, rich and full, and will last as long as the goods hold together.

## BRITISH IN AMERICA.

It is Estimated That They Own Twenty Million Acres Here.

How much property do British subjects own in America? The aggregate, based on absolute facts, is known to be at least 20,000,000 acres, asserts Tit-Bits.

The largest of all is probably the Texas possession of the syndicate which includes in its membership the Dukes of Beaufort and Rutland, Earl Cadogan and the Baroness Burdett-Coutts.

The total amount of land held by this association is 3,300,000 acres. It is, as is the case with most of the Texas land, largely composed of what is called range country—that is, land that is better adapted for cattle raising than anything else.

Cattle and wheat are what the British investor seems to think money should be made on in the United States. That is why the syndicate represented by the British capitalist Vincent Scully owns 3,000,000 acres of land in Nebraska, Iowa and Illinois. This property is situated in the heart of the wheat growing section.

Two American girls, who now wear, by virtue of their marriage with English peers, two of the highest British titles—the Duchess of Marlborough and Lady Randolph Churchill—are interested with Sir Edward Reed in a syndicate that owns 2,000,000 acres situated in Colorado, Wyoming and New Mexico. This is purely a cattle country, and it ranges thousands of head of live stock.

There is another syndicate which includes among its members the Earl of Dalhousie, as well as Viscountess Cross, Lady Hamilton Gordon, the Marquis Cholmondeley and several others.

There is a holding in a still different part of the country, for the lands of the syndicate comprise 1,800,000 acres in Mississippi, including cotton plantations, acres and acres of sugar cane and enough swine to stock 1,000 farms.

Lord Tweeddale is a syndicate in himself and owns 1,300,000 acres. Like most individual land owners with large holdings, his property includes a vast territory which, like that of the syndicate spoken of, includes immense tracts of grazing lands. Nearly all of this immense possession is devoted to stock.—St. Louis Republic.

## Acute Rheumatism

### Pains in the Foot and Limb—A Complete Cure Accomplished by Hood's Sarsaparilla.

"For a number of years I was afflicted with acute rheumatism in my left side and all the way down my limb into my foot. I live five blocks from my work and had to stop and rest several times in going and coming. I could get no relief from my trouble and was on the point of giving up my job when I happened to hear of Hood's Sarsaparilla. I purchased a bottle of this medicine and a vial of Hood's Pills and began taking them. Before I had half finished them I was relieved and it was not long before I was completely cured. I never lose an opportunity to praise Hood's Sarsaparilla, for my cure meant a great deal to me, as I have a family and must always be at my post."

## SARCASM BY WHISTLER.

Word Sketch Which Scored a Member of the Hogarth Club.

There is in London an institution called the Hogarth club, the membership of which is restricted to artists and litterateurs. It is something on the lines of the old Bohemian club, and both business men and American millionaires are strictly interdicted. Whistler is a member, and, of course, shines by his witticisms. The lines being strictly drawn there is always an effort being made by some outsider to force an entrance, and in the case of Baron Grant it met with success. Grant was a treble millionaire who had made his fortune in Turkish contracts and had invested in an Italian title on his way back to London. He was a particularly notorious person and quite the last man whom the Hogarth should have admitted. However, by dint of buying pictures he got in and proceeded to make his friends happy.

One night a big dinner was organized in his honor and Whistler invited. Though the great artist had refused, he happened into the club on the important evening and a deputation of his friends finally persuaded him into the supper room. He appeared, was wildly cheered and was at once asked to make a speech.

"Gentlemen," he said, "it is on the subject of titles I should like to speak. There are several kinds of titles. Some men are born into them—these are inherited titles; others are conferred by the sovereign and have been earned by distinguished service; a few are attributes of the government, of the law or of the church. All this you know, most of you. But a title which is not inherited, nor yet bestowed for merit, nor even the sign of a position, is but a barren grant."—San Francisco Wave.

### A Thrifty Scotchman.

"Well, James, how are you feeling today?" said the minister to one of his parishioners, an old man suffering from chronic rheumatism. "You are not looking as brisk as usual."

"Na, sir," replied the old fellow sadly, "I've been gey unfortinit the day."

"How, James?"

"Weel, sir, I got a letter fra a Glasgow lawyer body this mornin, tellin me tha ma cousin Jock was deid, an that he had left me twa hunner pound."

"Two hundred pounds!" repeated the minister. "And you call that hard luck? Why, it is quite a fortune for you, James."

"Ay," said the old man sorrowfully, "but the stupid lawyer body dinna pit enuch stamps on his letter, an I had a hale saxeince to pay for extra postage."

—Lewiston Journal.

### From His Point of View.

"But you confess, father," protested the beautiful girl, when the father showed indications of a desire to withhold his consent, "that you do not know of a single solitary thing that is in the least derogatory to his reputation."

"That's just it," replied the old gentleman. "I don't like the idea of bringing any one into my family who is so infernally sly as all that."—Chicago Post.

Many of the fruits and vegetables now eaten in England were almost unknown to our forefathers. Not until Henry VIII's time were either raspberries or strawberries or cherries grown in England, and we do not read of the turnip, cauliflower and quince being cultivated before the sixteenth century or the carrot before the seventeenth century.
