

Be a Woman.

Of I've heard a gentle mother, As the twilight hours began. Pleading with a son on duty, Urging him to be a man.

Mother, then, unto your daughter Speak of something higher far Than to be mere fashion's lady— "Woman" is the brightest star.

Yes, a woman! Brightest model Of that high and perfect beauty, Where the mind and soul and body Blend to work out life's great duty.

Drive the Deer into the Sea.

The Rev. Duncan Macgregor of Chicago, President of the Scottish Land League of America, has just returned from a trip to Scotland, and was at the St. Denis Hotel, New York, last week.

"I found in the highlands of Scotland," said Mr. Macgregor, "300,000 crofters, small farmers, who have no leases of their land, and are at the mercy of tyrannical landlords. I travelled from Isle to Isle of the Hebrides, and saw all of the crofters. I spoke fifty times to them in Gaelic. At Skye I held a tremendous meeting that lasted seven hours. The crofters are in the utmost destitution. Some of them have actually to gather whelks for their food. They can't get oatmeal. They say they will bear oppression no longer. They are determined to kill all the deer, because the deer eat their crops. They have to take turns with their wives keeping the deer off at night. They intend to surround the deer by a cordon of men and drive them into the sea.

"The poor people are in danger of becoming disloyal to Queen Victoria. The Queen, they say, pretends to sympathize with them, but they don't see any fruits of it. They declare that evictions must cease. They will not use violence, but passive resistance. If they are sentenced to prison, they will not go, but will have to be carried. The crofters have pledged themselves not to vote for a man who will not promise to befriend them. Their great cry is: 'Down with the landlords, and down with the deer.' I left three intelligent crofters, who have suffered severely, to act as missionaries in my absence." Mr. Macgregor returned to Chicago. He will preside at a meeting there in the interests of the crofters, and will come to New York to raise funds to take to them.

Another Monte Carlo Victim. The death of another victim of Monte Carlo has to be recorded. A clerk in a large counting-house in Germany was spending his honeymoon in Italy, and received 40,000 francs in payment of a bill due his employers. On his way back he stopped at Monte Carlo, and fearing its temptations, entrusted the money to his wife's custody. He was called away for a time and found on his return that his wife was missing. He made enquiries to no purpose. At last he learned that a young woman, after loosing 40,000 francs at the gaming table had thrown herself into the sea. The bride had entered the Casino from curiosity, had staked some small sums and then, egged on by women believed to have been stationed there for the purpose, had lost everything. The Casino authorities had ordered the affair to be kept quiet, and but for one of the officials being touched by the husband's anguish, the young man might never have known what had become of his wife.

Somewhere in the West a sable knight of the lather and brush was performing the operation of shaving a hoser with a very dull razor. "Stop," said the hoser, "that won't do." "What's do matter, boss?" "The razor pulls." "Well, no matter, foh dot, sar. If de handle of de razor don't break, de beard am bound to come off, sho."

A new steam oyster dredge has been invented. An endless chain of buckets scoops up oysters by the peck. But it is said that the machine will kill off the whole oyster tribe by the disturbance it makes in the bed. That, however, remains to be seen.

NOTES. Not the promissory, but facts about WELCOME SOAP, an article that does not contain any particle of the adulterations used to reduce the cost of "Cheap Goods," but does possess the value of legitimate Washing Qualities, the demand for which proves the advantage gained by the use of the genuine over Soaps of doubtful character. None should be deceived even by Red and Yellow Wrappers, or any of the imitations of the WELCOME, as a pair of clasped hands is stamped on every bar. Made by CURTIS, DAVIS & Co.

OUR GRAND DISPLAY OF SPRING CLOTHING AND FURNISHINGS IS VERY TEMPTING

ROBERTSON'S ONE-PRICE CLOTHING STORE, No. 50 Queen Street. Charlottetown, May 21, 1885.

New and Original Departure in Coal Cooking Stoves COMBINING DURABILITY, HEAT AND ECONOMY.

THE above Stove I invented and patented in 1876, and at the present time HUNDREDS ARE IN USE, giving perfect satisfaction. A large number have been in constant use for eight years, and the repairs have been very trifling, in many instances none have been required. This valuable experience should be sufficient evidence of their durability, which is accounted for in the following:—It has, instead of a Lined Fire Box, two heavy Curved Cylinders, which obviate the expense connected with all Square Cooking Stoves of being compelled to renew Linings and Grates, at least once or twice every year. The heat being radiated from the Cylinders to the floor, where most needed, overcomes a serious objection to all kinds of ordinary Coal Cooking Stoves. The Cylinders are situated directly under the cover holes, and a fire may be made in one or both, thus adapting it for use either in winter or summer, with equal satisfaction, besides effecting a great saving to fuel. I have also attached the PATENT TELESCOPE OVEN to all my Elevated Oven Wood Stoves, such as the Waterloo, Niagara, Star, &c, causing the thousands using them to exclaim—My Stoves are worth TEN DOLLARS MORE than the same kind made by other foundries. The trade and retail purchasers will please bear in mind the fact that although a great advantage is claimed for my own Oven above all others, they cost no more, and being the sole manufacturer and patentee, no other foundry can supply. Enquire for Fawcett's Patent Telescope Oven, and if your dealer has none on hand send direct to the Sackville Stove Foundry.

This Cut represents my Patent Fire King Cooking Stove, with the oven, end and lining partially drawn out, as it appears while being cleaned, or when a new lining is being replaced.
