### Part of a great team

The Navy is proud of its women sailors. In every naval division across Canada the Wrens are training one night a week, side by side with the men, to be ready in the event of mobilization.

During your two weeks summer training period, you may go to the Atlantic or Pacific coasts for advanced and specialist training in such branches as Radar, Seaward Defence, Communications, Supply, Electrical and Air Maintenance.

The attractive Wren uniforms are tailored to measure. Complete summer and winter uniforms are issued on enrolment in the RCN (Reserve).
