DENTAL.

I take pleasure in announcing to my patrons and the public generally that I have fitted up an apparatus for generating and administering NITROUS OXIDE GAS, which enables me to EXTRACT TEETH WITHOUT PAIN. It gives to the patient a feeling of relief, and is a healthy stimulant, unattended like other stimulants by subsequent depression. It gives to the patient power to retain the teeth during the operation, and Chloroform on the contrary depresses rather than elevates the tone of the system. I have prepared also an excellent TOOTH PASTE, which cleanses the teeth, and removes the Stains from the teeth and hardens the gums. **C. L. STOCKLAND,** Ch'town, Dec. 11, 1871.

War do not the anti-railway party

by their strength by calling a public meeting in Charlotte Town to discuss the "Steam Act." Is the duty of Hon. Daniel Davies to consult the wishes of his constituents in public meeting assembled, before he takes such a leading part against their expressed instructions to him to support the Railway policy of the Government?

While we respect Mr. Davies as a private gentleman, we must say that he occupies a most anomalous position.

Let us have a public meeting in Charlotte Town, therefore, to discuss the "Steam Act." Is the duty of Hon. Daniel Davies to consult the wishes of his constituents in public meeting assembled, before he takes such a leading part against their expressed instructions to him to support the Railway policy of the Government?

We have a choice Story especially translated from the French, for the EXAMINER.

It is a historical description of the Eastern lands, and is finely written and replete with interest.

The loss to the country this year of not having the railroad to Georgetown, and a winter steamer, will be greater than would pay for nearly a quarter of the road.
