## Driving is Hazardous In Southern Kings Co.

Several inches of wet snow continued to cause hazardous driving in Southern Kings yesterday and last night. The department of highways plows have been busy trying to open all main roads and in general they have succeeded. However, cuttings are narrow and the travelling public has to proceed with caution and in many cases may have to back from cuttings to allow passage of on-coming traffic.

Many secondary roads are still blocked but re-routing made it possible for people from country areas to get to the shopping centre for groceries and on other business.

Montague Regional High School resumed classes yesterday after being closed since the previous Friday. This means that over a dozen teaching days have been lost this winter due to storms and road conditions.

School management has decided to make up several of these missed days by teaching on Saturdays commencing this Saturday as they are aware that several more days could be missed due to spring travel for their storms.

Mr. Mally said he had received word from the Post Office department that approval has been given to an arrangement whereby post offices in the two centres will have an evening mail despatch and delivery service, in addition to the morning service now provided by the Canadian National transport.

The new service will originate in Murray Harbor and pick up - going mail at both of - hoped to have the new service in operation very shortly.

# STATEMENT BY STEWART SPARKS SPECULATION

By DON MACLEOD  
The question on the lips of many persons in Charlottetown yesterday, in their speculation on the political career of Hon. J. David Stewart is, "what does he mean?"

In the legislature on Wednesday, Mr. Stewart referred to himself as a politician "on the way out."

Other than this brief mention of his political career, he would not elaborate further on the remark, either Wednesday night or yesterday.

Premier Walter R. Shaw had no comment yesterday. The premier said "since Mr. Stewart would not make a further comment, I have none." He added, however, that many unusual things are said on the floor of the House.

Mr. Stewart's words were greeted with raised eyebrows. One Conservative member said "this was the first intimation that Mr. Stewart plans any changes in his political career; it was quite surprising."

If Mr. Stewart does plan any changes, it is thought that man was Jack Anderson. Devotions were conducted by Lester Keizer after a sing-song was led by John Evans and Dr. Paul Cadmore.

Next week the Y's Men from Charlottetown and Summerside will travel again by bus to Montague where they will stage a typical Y's men meeting for the benefit of prospective members of a club which is expected to be chartered there in the near future.

Ron Atkinson gave a short report of the trip at last night's meeting at the YMCA. Chairman of the present highway development committee at Montague, deliver out - going mail for forwarding to Charlottetown and pick up the in - coming mail and the Evening Patriot which will be delivered to the Murray River and Murray Harbor of the return trip.

Mr. Mally said it was hoped to have the new service in operation very shortly.

# Defendant To Appeal Seal Case Judgment

Gerard R. Foster, QC, counsel for Dr. Marc Arsenault, Magdalen Islands, yesterday announced that his client, one of the defendants in the island's famous "Seal poth case" has appealed the Jan. 9 decision by Mr. Justice George J. Tweedy handed down in the Supreme Court.

It could not be learned if the other defendant, Louis Denker Inc. of New York, was also appealing the decision, as the firm's lawyers, John P. Nicholson, could not be reached.

The Supreme Court has not yet set a date for the new trial. Mr. Justice Tweedy has awarded \$29,665 in damages to the plaintiffs, and the sealers and crews of the sealing vessels Polar Star, North Star 6, and the Arctic Sealer. Bears sentling them was Alexander Campbell, of Summerside, in association with Gordon S. Black, Halifax.

The case was the first of its kind in Canada since 1922. The sealers had claimed that hell-copiers from the Magdalen Islands had, during the 1963 sealing season in the Gulf of St. Lawrence, stolen and transported to shore seal pelts which had been piled on the Gulf ice by the crews of the sealing vessels.

It had been before the courts for nearly two years when the Supreme Court brought in its decision last month.

Two Men Spend Night In Woods  
SOURIS - Two Bear River men had an adventure during night, when they were lost in the blizzard and spent the night in the woods.

Edwin MacDonald and Stephen MacAdam were visiting the home of Lazarus McGaugan and when they left for their respective homes at around midnight they lost their way due to poor visibility.

They finally found their way into the woods where they spent the night.

The weather cleared around 8 a.m. Monday allowing them to find their way home again, stated that the date is not definite yet.

# Gov't To Consider Liquor Problems

Premier Walter R. Shaw said yesterday, that although there has been no indication the government plans changing liquor legislation, the matter is to be considered "at sometime."

Questioned as to the date the

BRITISH TROOPS FLY TO CYPRUS
