Dr. Thompson took occasion to exhort his man David, who was a namesake of his own, to abstain from excessive drinking, otherwise he would bring his grey hairs prematurely to the grave. "Take my advice, David," said the minister, "and never take more than one glass at a time."

"Neither do I, sir," said David, "neither do I; but I care unco little how short the time be atween the twa."

A French clergyman, who had usually a very small congregation, was one day preaching at the church in his village, when the doors being open, a gander and several geese came stalking up the aisle. The preacher, availing himself of the circumstance, observed that he could no longer find fault with the people of his district for non-attendance; because, though they did not come themselves, they sent their representatives.

POTATOES A REMEDY FOR BOTS.

Late in summer the large horse or gad fly, is busy in laying its small yellow eggs on the hairs of the sides and legs of horses, which being glutinous, adhere there. The horse, in licking himself, touches the eggs, which burst, when a small worm escapes, which adhere to the tongue and is carried with his food to the stomach and feeds and grows there until spring, when it passes out of the body and soon becomes a fly.—Youatt and Spooner, in their work on horses, claim that bots do not injure a horse, and cannot be removed from the stomach by medicine, but pass a way themselves in the spring. For more than fifty years I have heard of horses, and seen them, said to be sick of the bots, and to die of them. Many with a view to remove them, pour molasses and milk down the throat of the horse, of which is said that bots are fond, so that they are thus led to let go their hold of the stomach. This is soon followed by a pint of tanner's oil, or some other cathartic, causing the horse to discharge the bots.

When visiting a friend a few months since, a worthy brother clergyman, he informed me that a horse having died of the bots in his neighborhood, his stomach having been eaten through and through by them, some of them were put in spirits of turpentine and other fluids commonly fatal to the life of worms and insects, but did not suffer from them. Another horse in the same neighborhood was suffering severely from bots, when a quart of potato juice was poured down his throat, which soon relieved him of pain; and a large quantity of dead bots passed away from him.

To me this remedy was new, but it may be commonly known to farmers. But be this as it may, an important inquiry here arises, namely, are those eminent farmers, Youatt and Spooner, right in what they say with regard to bots? and, if so, what worms are those which, with farmers and others, have so long gone by the names of bots, and of which horses so often die, as is proved by examining their stomachs, which are extensively eaten and pierced through by them?—N. HUSBANDRY.

By husbandry, the ground gives us everything necessary for food and nourishment, and such things, likewise, as afford the greatest pleasures. Yet, though it gives us plentifully of all kinds of things, it does not allow us to reap them in sloth and idleness; but excites us to health by the labour it appoints us.

The practice of husbandry makes men strong and bold, enables them to defend their country.

He was surely a wise man that said husbandry was the mother and nurse of the other sciences; for when she flourished, all the other sciences and faculties fared the better; but when the ground lies uncultivated, and brings no crops, all the sciences and arts are at a loss, by land and sea.

It is healthful employment that breeds good men and occasions generosity of spirits and good will towards one's friends and country.

Startling, but True!

THE dark ages of medication now draw to a close. Dr. Maggell's two grand specifics—PILLS and SALVE—have struck at the root of the cruel idea that make it necessary for a man to pour masses of dead and effete drugs down his throat to aid the cure of his disease.

ONE TO TWO PILLS

are enough at any time for any man to take if the pills are made of pure, unadulterated drugs. MAGGELL'S PILLS and SALVE are superseding all the stereotyped physics of the day, because they are made of the finest materials in the laboratory, and never fail.

HEAR WHAT IS SAID:

"Dr. Maggell, your pill has rid me of all biliousness."

"No more noxious doses for me in five or ten pills taken at a time. One of your pills cured me."

"I thank Doctor. My headache has left me. Send a other box to keep in the house."

"After suffering torture from Bilious Cholera, two of your pills cured me, and I have no return of the malady."

"Our doctors treated me for Chronic Constipation, as they called it, and at last said I was incurable. Maggell's pills cured me."

"I had no appetite; Maggell's Pills gave me a hearty one."

"Your pills are marvellous."

"I send for another box, and keep them in the house."

"Dr. Maggell has cured my headache that was chronic."

"I gave half of one of your pills to my babe for cholera morbus. The dear little thing got well in a day."

"My nausea of a morning is now cured."

"Your box of Maggell's Pills cured me of noises in the head. I rubbed some salve behind my ears and the noise left."

"Send me two boxes; I want one for a poor family."

"I enclose a dollar, your price is twenty-five cents, but the medicine to me is worth a dollar."

"Send me five boxes of your Pills."

"Let me have three boxes of your Salve and Pills by the return mail."

FOR DISEASES OF THE

Kidneys, Retention of the Urine, &c., Maggell's Pills are a perfect cure. One dose will satisfy any one.

FOR FEMALE DISEASES,

Nervous Prostration, Weakness, General Lassitude, Want of Appetite, Maggell's Pills will be found an effectual remedy.

MAGGELL'S PILLS and SALVE are almost universal in their effects, and a cure can be almost always guaranteed.

Each box contains twelve Pills, one Pill in a dose.

Sold by all respectable dealers in medicine throughout the United States and Canada, at 25 cents a Box or Pot.

All orders for the United States must be addressed to J. Haydock, No. 11 Pine street, New York.

Patients can write freely about their complaints, and a reply will be returned by the following mail.

Write for Maggell's Treatment of Diseases. COUNTERFEITS! COUNTERFEITS!—All readers of this paper are warned not to purchase Maggell's Pills or Salve, unless the name of J. Haydock, Proprietor, in addition to the name of Dr. Maggell is on the engraved slip surrounding each box or pot.

FARMERS EVERYWHERE ATTENTION!

THE time of Crotch-harrows, wooden Flails and wooden Ploughs have passed away forever! These things are replaced by newer and better inventions.

A THRESHING MACHINE will enable you to get your grain ready for market early in the season and at one quarter the cost of the old method!

With a good and cheap FANNERS you can raise the wind at any time!

THE subscriber in view of these facts, which must have become patent to everybody, feels that he is no longer justified in "hiding his light under a bushel," but let the farmers of this Island know that they need not be without labor-saving machinery on their farms when he is around.

Last year he sold twenty Threshing Machines, and is prepared to manufacture any number of them to order.

In that period he also sold twelve sets of Fanners, and has now on hand twenty sets of the same, of different styles and prices.

Horse-rakes, Ploughs, Harrows, and in fact every kind of implement used on a farm—short of a mowing machine—is made by him.

His work is too well known to need puffing at his hands.

If you need anything in his line, just come along or send to him at his manufactory on Union Street, Summerside, and you will have your wants attended to.

Iron-turning of all descriptions neatly done to order.
