IN THE HOUSE OF COMMONS

Mr. Gagnon Attacks the Government

AND EXPOSES THEIR TRICKS REGARDING PROHIBITION.

And Shows up the Treatment of the Fishermen.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 8.—Gagnon the member for Charlotte, after referring to the duplicity of the Government on the tariff question and on the independence of Parliament, condemned their deception in regard to Prohibition.

It was plain now, in fact it was notorious, that the Government never meant to give effect to the prohibition if it were expressed in favor of Prohibition. If the majority had been six hundred thousand the Government would have dealt with it as it is now doing.

Gagnon spoke of the three or four leagues of Laurier who took the stump against Prohibition in Quebec.

He read numbers of letters and resolutions of ministers of the gospel, temperance bodies expressing condemnation of the Government for breaking its pledges, and showed that the course of the Government was in flat violation of the promises made by the Premier and Mr. Fisher.

Mr. Gagnon dwelt upon the treatment of the fishermen by the Government, showing that nothing had been done in their interest while new burdens had been laid upon them.

Powell followed, criticising the speech of Laurier on the address and disputed, in order, every claim made by the Premier in regard to the achievements of the Ministry.

GENERAL MAXIMO GOMEZ

Reinstated as Commander-in-Chief of Cubans.

[SPECIAL TO THE EXAMINER.]

HAVANA, April 8.—The Cuban generals met at Marianas and officially decided to reinstate General Maximó Gomez as commander-in-chief; they also decided to appoint an executive board of three generals to assist him in distributing \$3,000,000 in deals of disarming, and in the organization of rural police for the provinces. He will be officially notified of their action and a proclamation will probably be issued to the Cubans.

Customs Appointments at Souris.

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 8.—Sylvanus P. Campbell, of Souris, has been appointed preventive officer of Customs.

Islanders at Queen's University

[SPECIAL TO THE EXAMINER.]

KINGSTON, Ont., April 8.—The following are on the graduating list of Queen's University Medical school; J. Y. Baker, Summerside; V. L. Goodwill, Charlottetown.

Hotel Davies: Conductor McKenna, and wife, Tignish; Jas O'Neill, Montreal; C. Masters, St. John; W. Applegath, Toronto; W. A. Schaffer, Halifax; L. H. Jacob, Montreal; J. G. Settle, Fredericton.

The Queen has sent a message of sorrow and sympathy to the relatives of the passengers and crew who lost their lives by the sinking of the Channel steamboat Stella.

ALL HEADACHES from whatever cause cured in half an hour by HOFFMAN'S HEADACHE POWDERS 10 cents and 25 cents of all druggists

THE S. S. LABRADOR

Captain Erskine's Certificate Suspended for Three Months.

[SPECIAL TO THE EXAMINER.]

LONDON, April 8.—The board of enquiry engaged in investigating the loss of the steamer Labrador, Captain Erskine, which ran ashore and became a total wreck four miles from Ekerryvore on March 1st, had found the Captain of the steamer in default and has suspended his certificate for three months.

New Oyster Regulation

[SPECIAL TO THE EXAMINER.]

OTTAWA, April 8.—The regulations respecting the oyster fishing, established by order in council 1893, are amended by adding thereto the following clause, namely:

"The use of drags or dredges for the purpose of taking oysters on any public bed in Prince County in the Province of Prince Edward Island is prohibited during the year 1899."

KAISER'S ENGLISH VISIT.

With the Empress He Will Stay Two Weeks.

LONDON, April 7.—Truth says Emperor William of Germany will be accompanied to Cowes, Isle of Wight, for the yachting weather, by the Empress and Princess Wilhem and Eitel Frederick. His Majesty, it is added, will live on board his yacht, but the Empress and her sons will be the guests of Queen Victoria at Osborne. The visit will probably last twelve days, when the Imperial yacht Hohenzollern will proceed to Aberdeen, and the Empress will land there and spend a few weeks at Abergeldie castle, which the Queen has offered to place at her disposal. In the event of the programme being carried out, the younger children of the Emperor and Empress of Germany will join the latter at Abergeldie castle.

THEY RIDICULE IT.

Many People Ridicule the Idea of an Absolute Cure for Dyspepsia and Stomach Troubles.

Ridicule, however, is not Argument, and Facts are Suborn Things.

Stomach troubles are so common and in most cases, so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially in medicines.

This fear of being humbugged can be carried too far, so far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made for their ingredients, but analysis show them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists everywhere at 50 cents per package. Address F. A. Stuart Co., Marshall, Mich., for little booklet of stomach diseases, sent free.

Japanese Emigrants for Peru.

LIMA, Peru, April 6.—The Yurura Maru, the first steamer of the new Japanese line, 34 days out from Yokohama, has arrived here, bringing 732 Japanese emigrants, chiefly domestic servants and agricultural labourers.

SULTAN TURNS TO ENGLAND.

Invites Prince of Wales - Asks Him to Visit Constantinople and Sends a Present to Lord Salisbury.

PARIS, April 6.—A good deal of interest is manifested in connection with the invitation which has been addressed by the Sultan to the Prince and Princess of Wales to visit Constantinople on the occasion of their approaching trip to Athens, on board the Ostrope. This invitation has coincided with the gift by the Sultan of a superb porcelain vase to Lord Salisbury, as a token of his particular regard.

The Sultan, and, in fact, all the leading statesmen at Constantinople, are said to have been deeply impressed by the recent success of English diplomacy in connection with the Fashoda question, and the Chinese controversy with Russia, and in the Maccat affair, and are turning their eyes in the direction of what they believe to be the rising sun. In fact, French influence at the present moment is at a discount on the Bosphorus, and a very important railroad concession in Asia Minor, which has been promised through the French Embassy to a Parisian syndicate, has just been granted to a group of English financiers in-lead.

It is considered here that a visit on the part of the Prince and Princess of Wales to Constantinople at the present juncture would tend to still further strengthen British prestige at the expense of that of France with the Turks, all the more as neither the Prince and Princess have seen the Sultan since he ascended the throne, although they knew him well during the life time of his uncle and predecessor.

Turkish sentiment itself is stated to be distinctly in favor of an understanding with England, owing to the special care which the English authorities have taken to safeguard Mohammedan interests during the recent difficulties in Crete.

The Pope's Letter.

LONDON, April 6.—The Rome correspondent of the Morning Post says: "Archbishop Ireland is said to regard the submission of the American prelates to the Pope's letter on 'Americanism' as one of the most splendid examples of obedience ever shown by the Catholic clergy. He is surprised that the letters of Cardinal Gibbons and Archbishop Corrigan cause criticism, which in his judgment has arisen from the disappointment felt by the extreme party at seeing the American prelates escape the snares laid for them."

A QUESTION.

DEAR SIR,—I am a temperance man and a constant reader of the Guardian. I have been disappointed at not being able to find the annual report of the P. E. Island branch of the Dominion Alliance in that paper. We suppose the Guardian to be the organ of the temperance people; how is it that it does not contain this report?

TOTAL ABSTAINER.

[This enquiry should be addressed to the editor of the Guardian. Perhaps there was something in the report that he didn't like.]

Labor Troubles in Russia.

LONDON, April 6.—The St. Petersburg correspondent of the Times telegraphs an alarmist statement regarding the spread of serious labor troubles in the manufacturing districts of Russia. Ominous rumors, he says, are in circulation in St. Petersburg; reports of troops sent to suppress outbreaks, of the wholesale destruction of property, of numerous arrests and of the gagging of the press—yet not half of what is happening ever reaches the ears of the capital. Towns, mills and factories are literally inundated with secret, socialist and revolutionary proclamations by agitators, who are undoubtedly assisted from abroad. All this, together with the agitation fostered by the students, creates a serious political outlook.

Newfoundland.

St. Johns, Nfld., April 6.—News reached here to-day of the burning of a French lobster factory at St. John's Island, off the west coast, the largest French fishing centre along the treaty shore of Newfoundland.

Besides the factory eleven large boats and a lot of valuable fishing appliances were destroyed.

It is believed that the fire was the work of an incendiary, and the circumstance may serve to bring about a crisis regarding the French shore question.

At the South Pole.

BRUSSELS, April 6.—The Belgian geographical society has received a despatch stating that the extreme latitude reached by the Antarctic expeditionary steamer Belgica, was 75 35 south, lon. 92. Much bad weather was encountered by the expedition, but no intense cold except during the month of September. Good maps were prepared of Hughes Bay and Palumer's Land, south of the South Shetland Islands.

Carters' for Wall Paper

Wireless Telegraphy.

PARIS, April 6.—In view of the success of the experiments with the Marconi system of wireless telegraphy across the Strait of Dover, the authorities propose to attempt to transmit messages to England from Paris. The terminal here will probably be the Eiffel Tower, the distance to South Foreland, being 230 miles.
