Bio Club

continued from last page....

The Biology Club, due to some popular belief, is not a club of people looking into the microscopes and discussing major theories in biological areas. We have many fun events with a few serious events to equilibrate the load.

PARTY - For those already involved, the party on Friday, Jan. 8 turned out to be a good time and the people there enjoyed the nectar of their hard work. Who is next for the barber's chair????? Ha Ha..

The next event will be bowling Saturday the 23rd and all those interested should also give their name to the executive or put their name on the board in the Biology Club.

The annual honours Biology Trip is being held this year at Saint Francis Xavier University and all those who would like to go on this trip should contact one of the executive. You do not have to be presenting a paper to go. It is being held from the 5th to the 7th of March and has been a good time for the four years I have been here.

A pub and a pace (C.D.P.) are being worked on and if you would like to help out it would be greatly appreciated. Look out for these in the future.

Jackets and T-shirts - The designs and styles will be determined soon; all those with artistic ability please submit your drawings so a final one can be chosen. All those wishing to have a jacket and/or a T-shirt please put your name on a list in the Biology Club.

Intramurals are again starting for the year and a volleyball team is needed. If you enjoy the sport or are one of those who played last semester get involved.

MED SCHOOL - All those interested, watch for notices for the Med School Speaker coming February 3rd. **NEW MEMBERS ALWAYS WELCOME** and honorary memberships for non-biology students available.

HAPPY BELATED BIRTHDAY ROB & RETURN OF THE P. DONUT
