Notes From the Capital.

Parliamentary and Other News

OTTAWA, March 11.

A report presented to the House of Commons shows that 2,637 Chinese immigrants entered Canada from the 1st of January, 1890, to the 1st of July, 1891, paying \$132,000 head-money; that 2,107 return certificates were granted, and that 6,000 Chinese now reside in the Dominion.

The United States Government correspondence shows that Canada was requested to police the boundary line so as to prevent Chinese from entering the United States, which cool request Canada refused to comply with.

Dalton McCarthy made his first appearance yesterday in conjunction with Sir Horace Davy.

Mercier's resignation is looked upon here as very theatrical and made for effect.

The defeat of Mr. Trow is generally regretted by members here, so far as personal sentiment is concerned, as he was a very pleasant companion and favorite of all parties.

Delegations of all kinds are daily interviewing the Ministers. One of these is to protest against any rebate to the Americans on grain carried through the Canadian canals.

Among other topics the Newfoundland duties on Canadian flour were discussed. The deputation subsequently declared itself satisfied with the action and position of the Government, saying that while it was to their interests to export flour to Newfoundland, they did not wish their business promoted at the expense of other classes, and felt that the Government was acting wisely.

They said they could this spring undersell the United States flour of the same grade by twenty-five cents per barrel in Newfoundland if it were not discriminated against, which proves that the colony is a great loser by extra duty imposed.

Mr. White, Shelburne will on Monday ask several pertinent questions relative to the Newfoundland embargo and considerable additional light is expected to be thrown on the situation by the replies.

Mercier's Movements.

QUEBEC, March 11.

After issuing his address announcing his retirement from the Leadership of the Grit party in this Province, Mercier left for Montreal. He said: "I am at present out of public life, and have no desire to re-enter it. I am busy settling my private affairs here, and will soon return to Montreal, where I will resume the practice of my profession."

Facts! Facts!

YOU CANNOT procure better Seeds than those we sell. You may buy from larger firms in big cities, who publish gorgeous Catalogues with highly-colored representations, and you may pay (as you would likely have to) two or three prices for the Seed, and after all our Seed will produce as good or better crops grown side by side. This has been proven over and over again. Some of our customers know it. We want everybody to know it. This talk of wonderful novelties every year is mostly humbug. Experimental Stations and the leading agricultural papers say so, and the test of planting proves it.

Our Seed Catalogue for 1892 contains a list of TESTED, PROVED and RELIABLE Flower, Vegetable and Farm Seeds as good in quality as money can buy; the descriptions are not overdrawn and prices are moderate. This is all we can say here—our Catalogue will tell the rest.
