AT IT AGAIN.—Prof. E. Stone Wiggins of Ottawa, predicts a great storm this month. For the unlawful manner of the arrest the man was set at liberty, and will in all probability have a chance to explain matters at the police court.

POLICE COURT.—John Cummings was arraigned to-day at the Police Court, on a charge of burglary. Several witnesses were examined and the prisoner was remanded for eight days. A glass jar with stand, supposed to be stolen from the store of Thomas Campbell, Richmond street, was sold by Cummings on the night of the robbery for a flask of liquor.

The trial of two lads for stealing fruit from the garden of Mr. E. H. Beer was further adjourned until Thursday next.

Susan Coffin, charged with a Scott Act first offence, was dismissed,

BALOON ASCENSIONS.—The contract between the Provincial Exhibition Association and Professor Williams, of Michigan, the famous Arenaut, for a baloon ascension and parachute drop on Wednesday and Thursday, 25th and 26th Sept., the second and third days of the Exhibition, has been signed. The Professor will go up from the Driving Park grounds and when at a height of a mile from the ground well drop, with his parachute, to the earth. It is one of the most daring and thrilling performances known even in the profession of the baloonist. The management have gone to considerable expense to procure Professor Williams, and we have no doubt but that their pluck and energy will be rewarded by a large gathering of people to see this unexampled feat.

KILLED AT LEAP FROG.—William, the twelve-year old son of Mary Fitzgerald, widow of James Fitzgerald of the post office department, at Halifax died Friday afternoon under very sad circumstances. He received a kick in the playground of St. Patrick's boys' school during recess, on Thursday, which a day later proved fatal. Boys were playing leapfrog and Fitzgerald was an onlooker. One boy stooped for another to jump over him; Fitzgerald was standing so close in front that, as the jumper came over the head and shoulders of his mate, his foot accidently struck Fitzgerald in the stomach The sufferer was taken to his mothers home and it was not thought he was very seriously hurt, but he became worse. Dr. McKay was called and the surgeon found the little fellow dying from rupture of the bowls, Nothing could be done, and an hour later he was dead.

THE WORLD OF SPORT.

Athletic.

Owing to the fact that the train left at 4 o'clock, standard, those who witnessed the Moncton sports and had to get home Saturday night saw but a portion of the games. About six or seven hundred spectators witnessed the sports, which began on the Moncton grounds at 2.15 p. m. In the first heat of the 100 yards Glendenning, Moncton, and Forbes, Halifax, qualified for the final. In the second trial Humphrey, of Moncton, and Brady, of Halifax got places in the final. Enthusiasm was at a high pitch in the final, and the Moncton people went when their pet, Humphrey, beat Forbes, the Halifax crack. Time of final heat 10 2-5 seconds. Croker, of Amherst, won the pole vault at 9 ft. 6½ in., beating Fred Coombs, of St. John, and Ruggles, of Halifax. In the 220 yards trial heats Forbes, Humphrey, Brady and Glendenning qualified. In the final Forbes had revenge and ran the other three off their feet. Time 23 2-5 seconds. E. H. Clark, of Boston, won the 16 lb. hammer with 98 ft. 8½ in. The record is 104 ft. by Murphy, of Halifax. The 16 lb. shot was also won by Clark, of Boston, with 37 ft. ½ in. The record is 39 ft. 5½ in. also by Murphy.

Wheeling

A Charlottetonian who witnessed the electric light sports at St. John, Wednesday night, thinks that our wheelmen would compare very favorably with those of St. John. Cameron, of Halifax, is a flyer, though, and carried off the finest gold medal ever given in St. John. Cameron made a bad pick-up of Harley Davidson in the latter's exhibition mile, which accounted for the slow time made, but the way Cameron sailed for Davidson and paced him later, stamps him as one of the best. He also won the three miles, having a soft thing, running away from the field after two miles. Ned Salmon is one of the best in St. John, He is only a new one, but won two firsts and a second, and the all-around prize.

A movement is on foot to have Johnson, the champion bicyclist, and Azote, the great trotter, compete in a race. Azote has a record of 2.04¼, and Johnson's record is 1.47 3-5. The horse will be allowed a running mate, and Johnson a pacing quad up to the last quarter, when they must finish alone. The stake is $5,000.

Racing will boom here next year. Some of the district championships for this division will be decided on our track, and will certainly be the means of inducing the cream of New Brunswick to come over to our track. So our boys may expect great racing next summer.

Consul Barnes was seen in regard to a sanction for the exhibition races here. Boys may go on training as usual, as it is probable a sanction will be received ere long.

While it is not yet decided, it is probable that Harley Davidson, the Canadian rider, will race Pilot Jr. on Moosepath track sometime during the St. John Exhibition.

Harley Davidson will compete in the races at Springfield, Mass., on Sept. 11, 12 and 13, for prizes in diamonds amounting to $1,250.

Cricket.

The Halifax Garrison cricket team leave for Boston on the 21st inst., to play matches with the Boston Athletic Association and the Lowells.

At Halifax, on Friday, in the match, Officers vs. Garrison Athletic Club, Lieut. Cayley made 108 runs, the highest made there this season. There was one 6 and twenty-five 3s.

The Oxford and Cambridge cricketers arrived at Toronto on Friday from New York, and after luncheon went out to Rosedale and put in a couple of hours' practice. On Saturday morning they began a two days' match with the same Canadian team which defeated the Americans this week.

The Turf.

There was great interest in the 2 19 trotting race at Lewiston, Me., on Friday, when Pilot Jr. won in straight heats. The starters were Haley, Hallie and Pilot Jr. The first mile was a sensational one between Haley and Pilot Jr. The first quarter was made in 32¾, a 2.11 clip, and the half in 1.06¼, a 2.12½ gait. The pace was too hot for Haley and he gave up at the three-quarters pole, and Pilot Jr. won the heat in 2.19¼. In the third heat, Ira Woodbury with Hallie made a sensational drive for the finish, and was only beaten by Pilot Jr by half a neck, who made a new mark of 2.18¼.

The Ring.

Dick O'Brien and Joe Walcott were on Friday held at Boston for the grand jury in $1,000 each for prize fighting.

Gentlemen, don't buy the oldfashioned English hat, when you can get the latest American hat from us.—James Paton & Co.

THE W. W. Dayton Company will appear in the Market Hall on Friday and Saturday in a variety entertainment.

Cholera is spreading in Corea. The Japanese consul at Vladivostok states that cholera of a mild type has broken out there.

GENERAL TELEGRAPHIC NEWS.

TORONTO, Sept. 7.—Dr. George R. Parkin, the new principal of Upper Canada College, was dined by the National Club last night. The attendance of distinguished citizens was very large, and it was the occasion of many brilliant speeches. The health of the guest of the evening was proposed by Frank Arnoldi, president of the Club, who alluded in eulogistic terms to Dr. Parkin's career as an educationalist and an Imperialist, and also of the change of our relations with the Motherland which men of his stamp had effected since the day, twenty-one days ago, when the London Times advised England to let the colonies shift for themselves.

LONDON, September 7.—The relations of Canada and the other colonies to the Mother Country particularly in reference to the questions of defence, are engaging the earnest attention of Hon. Joseph Chamberlain, Lord Lansdowne, the Duke of Devonshire and several other ministers, during the parliamentary recess. It is recognized that the present undefined position of affairs cannot last. The British taxpayers are paying the cost of the navy for the whole Empire. In case of war the services of the navy would be inevitably claimed first by those who pay for it, thus leaving, it is pointed out, the colonies in the lurch. The suggestion before the Ministers is that the colonies be invited to contribute to the navy. The colonies would also share in the control. It is quite possible that this may become the basis of a future and effective federation, whereby Mr. Chamberlain's idea of assisting to develop the colonies with Imperial money, as Imperial estates, will be carried out. This point draws attention to Sir Julius Vogel's suggestion (given elsewhere in the Star). The ex-Premier of Newfoundland in the Times to-day urges the Salisbury Government to reverse the decision of Lord Rosebery's Government and refudd to Canada some part of the cost entailed in the bringing of Newfoundland within the Canadian Confederation.

LONDON, September 6.—Most Rev. Edward White Benson, archbishop of Canterbury, has issued a pastoral letter dealing with the pope's recent letter to the people of England. The archbishop says the Roman communion in which western Christians once found unity, has not proved itself capable of retaining its hold upon the nations which were once its own. The letter continues, "For the kindliness which invites our communion we are thankful, but this happy change of tone, and the transparent sincerity of the appeal, make the inadquecy of its conception of unity more potent." The archbishop concludes: "The Anglican communion seems marked by God to bring the churches of Christ to a better understanding."

NEW YORK, Sept. 6.—R. C. Dun & Co's review says: There is no real reaction in business. Gains which were recognized as temporary are vanished, but there remains a decided increase over last year, although prices average 8.8 per cent lower than a year ago. It needs no keen observer to see that the reaction against rapid advance of prices is strong.

NEW YORK, Sept. 7.—Bradstreets says The fall trade at Toronto has opened quite satisfactorily, the volume of orders placed, particularly on millinery, being ahead of last year. The crops in the province of Quebec are fairly good. Country merchants have asked for renewals rather more frequently than expected. Montreal reports general trade somewhat behind expectations. Nova Scotia country merchants are buying very conservatively. In New Brunswick the crop prospects are fair.

OTTAWA, September 7.—It is reported, although no definite information on the point can be ascertained, that the Ontario Government has stopped the grant to the Separate School Board, as a result of the trouble over the Christian Brothers.

DETROIT, Mich., Sept. 7.—In the closing hours of the Mississippi Valley Doctors' Convention deliberations, the section in general medicine discussed the mooted question of effect of bicycling. The exercise was endorsed as a health promoter for both sexes, and even recommended for certain ailments, but the wearer of bloomers by feminine bicyclists was put down as something outrageous. After some further discussion of subjects of technical interest, both sections adjourned sine die.
