something more than a mere name. We expect much benefit will be derived from their exertions, and feel sure that if they go on in an honest fearless course, they will deserve and *obtain* the thanks of every order loving member of society.—*Peterboro' Review.*

Holloway's Ointment and Pills, are a certain cure for Scurvy.—Edward Hope, of Harbour Grace, Newfoundland, suffered more than most people from the scurvy, and the whole of his body was covered with this unsightly eruption, he tried a great number of reputed remedies, but he was not benefited by the same, indeed, it became doubtful to his friends, whether he would ever overcome this disfigurement, At length he tried Holloway's Ointment and Pills, and these medicines quickly produced a beneficial change by continuing with them for eight weeks, he was radically cured.

HASZARD'S GAZETTE.

Saturday, June 2, 1855.

The weather seems to have become settled, and a correspondent improvement in the progress of vegetation has taken place; we should, however, say, that there is at least ten days' difference between this season and the last in favor of the later. It is true that plants sometimes grow with a rapidity that makes it immaterial whether the seeds are sown a fortnight earlier or later. We have, in fact, several times experienced, that seeds sown in the last week in May, or in the first week in June, have produced plants that have perfected themselves quite as early as those sown ten days or a fortnight earlier; but, as a general rule, we counsel sowing early; a fuller and more abundant crop is usually the consequence.

Our farmers are we doubt not, taking advantage of the fine weather; never had men greater inducements for exertion. Potatoes are now 4s 6d per bushel and flour and meal with every description of grain at corresponding prices. Meat, butter and eggs are higher than we ever knew them, and a cartload of cordwood from the north shore sold at prices which that highly respectable gentleman, the oldest inhabitant, never dreamed of. It was certainly amusing enough to see the eagerness of the crowd around the only fish cart in market this day ne'night, and to remark the serious demeanour, coolness and self possession of the chapman, fully aware that the whole of the anxious would-be-purchasers were at his mercy. "What's the price of this little one?" cries a precocious little urchin at the utmost stretch of his voice; with oracular solemnity did the despot of the fish cart respond—" the smallest of these here fish is nine-pence." Not a whit however, were the expectants dismayed, though that announcement was equivalent to an increase of eight hundred per cent. above the usual price; the sale went on at prices from the minimum nine pence, to three shillings; and, in our opinion, the highest priced were the cheapest articles, for finer cod could scarcely be exhibited. We philosophized, as is our wont when any rare occurrence comes within the scope of our observation, and came to the following conclusion, that the success of the lucky fishmonger was occasioned by three circumstances; first the high price of meat, secondly the rarity of the article, and lastly the improved circumstances of those who purchased, for the sale was by no means limited to those who in humble imitation of a distinguished authority we venture to call the "upper crust of society," on the contrary the majority of those who secured the prizes of the fish, were of that class that stand mid-way between the upper and under crust, that is the "substantial" part of the human pie. We responded to the truth of the observation made by a stout comely daughter of Erin. "Oh thin, if the praties will be as good as the fish, they'd be twice as chape." We are sadly in want however of a fish market. The population of the town has increased to that number that the regularly supplying the market with fish is a subject well worthy of attention to those who live near to where they are caught.

"WESTMINISTER REVIEW" for Quarter ending April.—This standard periodical is before us, from L. Scott & Co., 54 Gold st., New York, the American Publishers. Its contents are—1, Memoirs of the Court of Austria; 2, Dryden and his times; 3, Our Army—its condition and its Wants; 4, Lord Palmerston as Premier 5, Victor Hugo and his Writings; 6, Reorganization of the Civil Service; 7, Administrative Example of the United States, and Contemporary Literature.

Among the other well-written and instructive articles contained in this No., 1, 3, 4 and 7 stand conspicious; the perusal of either one of these articles, is of more value than the cost of the whole. The great enterprise of the American publishers, in reprinting the British Standard Periodicals, is a strong proof of the increasing popularity of these Works on this side of the Atlantic,—a popularity increasing with the progress of the age,—and which must increase more and more as their great merit becomes more generally known.—Haszard & Owen, Agents for P. E. Island.

The Steamer *Lady Le Marchant*, arrived Yesterday, at 5 p. m. bringing the Colonial and American Mails, she left again for Shediac, her arrival has furnished us with no further news of importance respecting affairs in the East.

BY TELEGRAPH FROM NEW YORK.

STILL LATER FROM SEBASTOPOL!

By the arrival of the Steamer *Lady Le Marchant*, from Shediac yesterday afternoon, (31st ult.) we have been put in possession of the following Telegram, dated

SHEDIAC, MAY 30, 1855

NEW YORK, MAY 30th.—*Pacific* arrived this morning with dates from Sebastopol to May 12th, where matters remain nearly unchanged. An expedition of 15,000 Allies had put to sea at Kamisch, in the direction of Azof, but had returned without landing. No details known. Omar Pacha's force had returned to Eupatoria. Large reinforcements expected by Allies within ten days. Canrobert had resigned, and is succeded by Pellessier. Consuls closed at 89¾ 89¾ Breadstuffs quiet at quotations per America. Provisions active, markets firm.

NOVA SCOTIA ELECTIONS

Those marked thus * were members of the last House. The complexion of the returns is decidedly Liberal. May we hope that by the concert of all parties, during the next four years, a new policy will be pursued, that of the regeneration of the country in the most essential interests, instead of the battling on either side for place or power.—*Church Times, May 26.*

RUMOUR OF NEW GOVERNOR.

It is currently rumoured in town that Dominick Daly, Esq. is shortly to assume the Government of the Island of Newfoundland; that Mr. Darling, now administering the Government of that Island, is to be removed to Halifax, Sir Gaspard LeMarchant being about to proceed with his Regiment to the Crimea. A Mr. Gray is named as the successor to Mr. Daly.—*Isl.*

We doubt the correctness of this. Sir Gaspard Le Marchant having been promoted to the local rank of Major General with the command of the Troops in Nova Scotia, in the room of General Gore, has given rise to the idea that he was to be superseded in his civil command as Lieut. Governor. At all events from all we can learn, there has been no intimation of such a change at head quarters in this Island.—*Ed. Has. Gaz.*

ART UNION OF GLASGOW.

We would call the attention of our readers to the advertisement of the Art Union of Glasgow, which appears in to-day's paper. It will be seen that subscribers of a guinea will receive a Copy of a Beautiful Line Engraving of "Coming of Age in the olden time," in addition to the chance of obtaining at the general meeting in July a *Painting' Statuette, or Group, in Bronze or Parian; Fac-simile Copy in Chromo-Lithography* of a Painting by J. Gilbert of "Spanish Peasants going to Market," or some other Work of Art, purchased for distribution among the Members of the Society.

We would mention the rapid and steadily increased prosperity of the Society. Last year in addition to 600 copies of a Fac-simile of Chattermole's "Columbus at the Convent of La Rabida," and 100 Groups and Statuettes in Bronze and Parian, there were distributed 119 Paintings, 1 being of the value of £350 making altogether 838 prizes costing £5,000.

It is confidently expected that this year, from the great beauty and value of the engraving, the number of the Members will be again largely increased, the increase last year alone was nearly 3,500. We would respectfully urge those who intend to avail themselves of the privileges held out by the institution to enroll their names as early as possible; or before the mail leaves for England on Tuesday the 17the inst.

Quarter Master Sergeant William O'Brien, Col. Sergeant Charles Slate and 26 rank and file of the Royal Newfoundland Companies, arrived here last evening in the Schooner Midway from St. John, they left that City on the 22d ult.

The Annual Church meeting of the congregation of St. Paul's, Charlottetown, was held on Tuesday last, and we are glad to learn, that notwithstanding a much increased expenditure consequent upon the introduction of Gas light, the purchase of Pews and other heavy charges, the financial affairs of the church were found to be in a highly satisfactory state.
