

PRESIDENT WATCHES SON DROP BALLOT

GETTYSBURG, Pa.—President Eisenhower points to the ballot with his glasses as he watches his son, John, drop the ballot into the box after voting Tuesday in the election at the nearby Barlow Fire Hall. In center is Johns wife Barbara, who also voted. The President preceded his son John with his ballot. (AP Wirephoto)

Hamilton Steel Plant's 86-Day Shutdown Is Over

HAMILTON (CP) — An 86-day production shutdown at the Steel Company of Canada ended Wednesday when striking workers voted to accept a three-year contract providing a package deal of 27.8 cents an hour.

Many of the 8,077 members of the United Steelworkers of America (CLC) were expected to report for night shift duties but company officials said it would take one week to get blast furnaces operating again.

About 6,000 unionists packed a hall here Wednesday and voted 31 per cent in favor of the agreement, ending the walkout that started Aug. 12. There was stiff opposition by some members who booed and heckled union leaders recommending acceptance.

WEEKS OF NEGOTIATION

The contract was worked out after weeks of negotiations by teams headed by Harold Clawson, director of industrial relations for the company, and Larry Sefton, district director of the Steelworkers.

It gives Stelco employees a 26-drive our wood on Canadian rivers a good part of the time. . . The competitive factors in the U.S. were accessibility of wood and markets, lower wood costs and cheaper power.

"We need very much the kind of clear objective thinking which APEC is bringing to the economic programming of the Atlantic p incies," Mr. Johnson said.

cent hourly wage increase spread over three years, four weeks' paid vacations after 25 years' service and improvements in the group insurance program.

The employees will receive a five-cent base rate increase from the date of signing, an additional seven cents Aug. 1, 1959, and a further 10 cents Aug. 1, 1960. Job classification increments during the term of the agreement total four cents an hour.

The contract ends July 31, 1961. When the previous contract expired last March Stelco's minimum rate was \$1.73½ an hour and first-class machinists earned \$2.56. Increments exist on each of 26 job classes.

MAIN COMPLAINT

Main complaint by some union members was that the new agreement has a small initial wage increase—five cents—equivalent to a one-year pre-strike offer by the company and unanimously rejected by the union.

Original demands by the Steelworkers were for a package deal of 33 cents with an unspecified general wage increase similar to a settlement it received in a two-year contract in 1956.

The new contract gives those with 25 years service a four-week vacation estimated to cost the company about six-tenths cents an hour. Improvements in a group insurance plan, effective Jan. 1, will cost about 1 2-1; cents an hour.

Cold-Stuffed Nose Keep You Awake?

Only Vicks Va-tro-nol type medications work so long—spread so deep—to

LET YOU REST ALL NIGHT

1. Opens stuffy nose fast... shrinks swollen membranes.
2. Stays in nose all night as you rest.
3. Exclusive Vicks vapor medications spread to hard-to-reach sinus congestion.
4. Soothes away soreness... doesn't dry out nose.

Pulp Industry Is Competitive

HALIFAX (CP)—The president of Canadian International Paper Company said Tuesday the nation's pulp and paper industry faces serious competition, particularly from the southern United States.

Vernon E. Johnson addressed delegates to the annual meeting of the Atlantic Provinces Economic Council.

"I do not want to create an impression that we can't compete successfully in the newsprint markets of the world," he said. "But I also do not want to leave anyone with the impression that we have no serious competitive problems. On the contrary we have very serious problems."

IMPORT CHEAPER

Mr. Johnson, also president of the New Brunswick International Paper Company, said a ton of pulpwood from an International Paper Company mill at Mobile, Ala., is \$7.50 cheaper than at New Brunswick's mill in Dalhousie.

"All of the advantages are not on the side of the southern mills of course," he said. "We have the advantage of being able to
