Will be buying fowl every Monday from 1 to 7 p.m. and Tuesday I will pick up and pay at the farms. Paying highest market prices. A. P. Gallant, Rustico.

Warning Given At Vancouver Police Probe

VANCOUVER (CP)—A solemn warning on the sacred nature of his sworn testimony was given here Tuesday to Det.-Sgt. Len Cuthbert at the end of his fourth day of testimony before a royal commission.

The warning came from commissioner R.H. Tupper, conducting the inquiry into alleged corruption in the 750-man Vancouver police force.

Mr. Tupper's remarks followed more than two hours of relentless cross-examination climaxed by a suggestion that Cuthbert attempted to stir up trouble in the traffic detail in 1952 over a promotion.

"There is no justice or order in the world without... the sanctity of oath," Mr. Tupper told him. "Perjury is the end of law, order and good government."

He made the refusal under the (Continued on Page 2, Col. 5)

Asks Permission To Appeal Murder Case

QUEBEC (CP)—Lawyer Francois Gravel has asked the Supreme Court of Canada for permission to appeal the murder conviction of William Coffin, a Gaspé prospector, it was learned here Tuesday.

The 14-point application was based on the grounds there was not enough evidence to warrant a conviction and that the judge erred in admitting certain evidence and in instructing the jury.

Coffin is scheduled to be hanged Sept. 23 for the murder of Richard Lindsey, 17, of Holidaysburg, Pa., whose body was found in the Gaspé bush in July, 1953, near the bodies of his father, Eugene, 47, and Albert Clear, 19.

The Quebec appeals court rejected an appeal two weeks ago.

Canada's Population Now Past The 15,600,000 Mark; P.E.I. Figure Is 108,000

OTTAWA (CP)—Canada's population has passed 15,600,000. The bureau of statistics reported Tuesday its June 1 population estimate was 15,601,000, up 2.7 per cent from June 1, 1954.

The population rose by 1,592,000, or 11.4 per cent, since the June, 1951, census and by 3,529,000, or 29.2 per cent, since June, 1945. The bureau credited the post-war rise to a rising birth rate, falling death rate and heavy immigration.

Annual increase to June, 1955, at 406,000, compared with gains of 414,000, 351,000 and 421,000 in the three previous years.

Of the provinces, Ontario had the highest increase since last year, rising by 137,000 to 5,183,000. Population of other provinces, with 12-month increase in brackets: Quebec 4,520,000 (132,000); Newfoundland 412,000 (14,000); New Brunswick 558,000 (11,000); Nova Scotia 683,000 (10,000); Prince Edward Island 108,000 (3,000).

48-Hour Recess Taken In U.S.-Red China Talks

By LYNN HEINZLERLING GENEVA (AP)—The United States and Communist China talked for almost an hour Tuesday about the release of civilians to their respective countries, then decided on a 48-hour recess.

From the U.S. viewpoint, the next big item in the conversations here, aimed at easing tensions in the Far East, is the release of 40 American civilians. Eleven American fliers are already on their way to freedom.

Red China's ambassador Wang Ping-Nan announced Monday at his first meeting with U.S. ambassador U. Alexis Johnson the release of the fliers. That gave a promising outlook to the conference.

The break in the talks was not regarded as unusual, it was considered likely that both sides had found it necessary to consult their governments on proposals regarding the return of the American civilians detained in Red China and Chinese Nationals in the United States.

Dag Hammarskjold, secretary-general of the United Nations, arrived in Geneva late Tuesday from Sweden. He said he probably would see both of the ambassadors during a week's stay.

Figures Way To Beat The Heat

NEW YORK (AP)—Louis Ross, 7, an appliance dealer, rigged up a tank type vacuum cleaner in the open window of his Manhattan apartment. He claims it sucks enough cool night air into his bedroom to provide relief from the heat for three sleepers.

Russia Intends To Beat U.S. In Launching Of Satellite

By NATE POLOWETZKY COPENHAGEN (AP)—The Soviet Union intends to beat the United States in launching the first unmanned earth satellite.

That was the word brought from Moscow Tuesday by two leading Russian scientists who arrived here to attend the sixth International Astronautical Congress.

Prof. Leonid Sedov, a member of the Soviet Academy of Sciences, told reporters that the Soviet Union aims to get her satellite whirling in space within 18 months.

This would be about six months, according to best estimates, before the scheduled launching of the American satellite in the geophysical year of 1957-1958.

Sedov said the Russian satellite would be larger than the American—which will be about the size of a basketball—but its exact size and weight still has to be worked out.

He said the satellite probably would be launched in two or three stages and that it would "evaporate" rather than return to earth.

The Russians—laughingly shrugged off any questions dealing with future space travel by human beings and only smiled when asked if they could predict when man would reach the moon.

Sedov said he had not heard of the American satellite plan until his arrival in Copenhagen.

He said the Russian satellite project is completely free of military control and is being carried out by a newly established committee on interplanetary communication.

Other information given by the Russians: 1. "On such important projects we do not pay attention to the costs."

2. There are no German rocket experts working in Russia.

3. Russian scientists have experimented with rockets carrying living things—but not humans.

The congress today will hear reports from some of the 125 delegates from 18 countries.

Toured U.S. With College Choir

A member of the choir of Sacred Heart College in Bathurst, N. B., Douglas Pineau, has just returned from a two months tour of the United States to spend a few days with his parents, Mr. and Mrs. Pineau of Summerside, and his sister, Mrs. Alfred Burke, 30 Passmore Street, City.

Douglas, who will be entering his Freshman year at Sacred Heart College in September, will leave shortly for Moncton where he will play the trumpet with an Acadian band during the bi-centennial celebrations there.

The 27 man choir of which Douglas is a member, can sing in Russian, Italian, Spanish, as well as in French and English. It specializes, however, in Gregorian chanting. During their United States tour the choir received an offer to tour Europe, beginning next May.

Arrested For Plane Sabotage

NEW DELHI (Reuters)—Prime Minister Nehru told Parliament Tuesday several people have been arrested during inquiries into the sabotage of an Indian airliner which crashed last April killing several Chinese Communist officials.

The Chinese Communist government, he said, has collected some "definite information" about the conspiracy and had put its information at the disposal of British authorities in Hong Kong.

The airliner, flying to the Bandung Asian-African conference in Indonesia, crashed in Indonesian waters. An Indonesian inquiry commission reported that a time bomb had caused the disaster.

Clash Over Postage Stamp

BONN, Germany (AP)—East and West Germany clashed over a postage stamp Tuesday.

Refugee minister Theodor Overlaender said the Communist East regime has protested against a new stamp issued in Bonn showing five forlorn refugees trudging into West Germany from the east.

It was issued to commemorate the expulsion of millions of Germans from the eastern territories taken over by Russia and Poland after the Second World War II.

Overlaender said East Germany has demanded withdrawal of the stamp and declared that letters bearing it will not be delivered there.

West Germany's answer is "no". Overlaender said.

Bishop Recovering

EDMUNDSTON, (CP)—Most Rev. J. Romeo Gagnon, Bishop of Edmundston, stricken with a heart attack Friday, Tuesday was reported to be out of danger.

Units Based At S'side Airport To Take Part

OTTAWA (CP) Largest concentration of Canadian naval aircraft ever to participate in peacetime manoeuvres will team with army forces Aug. 8-11 during Exercise Rising Star at Camp Gagetown, N. B.

Fifty naval aircraft of several types will assist the 1st Canadian Infantry Division in the manoeuvres. At different times, the planes will assume roles of both friendly and enemy forces.

The exercise is being staged to train elements of the division in operational roles. It will involve two artillery regiments, one armoured regiment and eight infantry battalions, along with other divisional troops.

USE MANY PLANES Naval aircraft taking part will include Sea Fury fighters, T-33 jets, Expeditors and helicopters from six naval air squadrons on the east coast. They will operate from the Shearwater naval base at Dartmouth, N.S., the naval air facility at Summerside, P.E.I., and other air bases.

The Sea Furies and Avengers will provide tactical reconnaissance and support bombing. The jets will give fast air cover. The helicopters and expeditors will be used for liaison, reconnaissance, general communications and the transport of personnel, including evacuation of casualties.

The planes will fly about 70 sorties a day during the operation. Most will be airborne from dawn to dusk and some will fly throughout the night.

The exercise will be the biggest staged in peacetime in Canada. Some 10,000 troops of the 1st Division, with three weeks of summer training at Camp Gagetown behind them, now are resting up for the big exercise.

Big Increase Noted In Borden & Wood Islands Ferry Traffic This Year

Phenomenal increase in passenger and vehicular traffic is noted at both the Borden and Wood Island terminals during the year.

Figures released yesterday by the Northumberland Ferries Ltd. are shown in brackets shown in brackets: Passengers: Passengers, 20,921 (19,934); autos, 5,615 (5,368); trucks, 978 (969). The increase in each case is passengers, 87; autos 247 and trucks 9.

For the season from May 1 to July 31 ferry traffic was as follows: Passengers 37,411 (35,758); autos, 10,464 (10,019); trucks 2,655 (2,402). Individual increases for this period were: passengers, 1,653; autos, 445; trucks 253.

During the month of July the railway had an increase of 2,416 vehicles from Borden to Tormentine and an increase of 2,582 from Tormentine to Borden. At Wood Islands the picture is much the same with an overall increase for the month of 87 passengers, 247 automobiles and nine trucks.

While a marked increase in the number of tourists to visit the Province has been noted each season, there is little doubt that Centennial year in Charlottetown has contributed greatly to the increase of 1955. The publicity sent out by the Centennial Committee in co-operation with the Prince Edward Island Travel Bureau is showing results.

Former Associate Of Henry Ford Dies OAKLAND, Calif. (AP)—William J. Cameron, 76, for years a close associate and spokesman for the late Henry Ford, died Monday night.

For almost two decades Cameron was the interpreter of the Ford philosophy and spokesman for the Ford Motor Co.

Two Lads Marrying Sisters At Least Share Mother-in-Law Troubles

TORONTO (CP)—Minimum and maximum temperatures: Vancouver 50-58; Victoria 51-67; Edmonton 49-70; Calgary 58-74; Regina 60-83; Winnipeg 70-94; Toronto 74-92; Ottawa 66-87; Montreal 71-88; Quebec 63-80; Fredericton 65-87; Saint John 57-82; Moncton 60-80; Halifax 61-78; Charlottetown 64-78; Sydney 61-80; Yarmouth 57-77; St. John's 55-65.

Borden Ferry Traffic

The following is a summary of the traffic through the Borden and Tormentine terminals, 11,392 vehicles ferried: Borden to Tormentine, July, 1955: 8,966 vehicles ferried, Borden to Tormentine, July, 1955: 2,416 increase in July, 1955.

12,464 vehicles ferried Tormentine to Borden July, 1955: 9,882 vehicles ferried, Tormentine to Borden, July 1954: 2,582 increase in July, 1955.

4,998 increase in both directions July 1955 compared with 1954: From Jan. 1, 1955 to July 31, 1955—Borden to Tormentine—28,998 ferried; From Jan. 1, 1954 to July 31, 1954—Borden to Tormentine—23,375 ferried, 5,623 increase in 1955.

From Jan. 1, 1955 to July 31, 1955—Tormentine to Borden—30,358 ferried; From Jan. 1, 1954 to July 31, 1954—Tormentine to Borden—24,776 ferried, 5,582 increase in 1955.

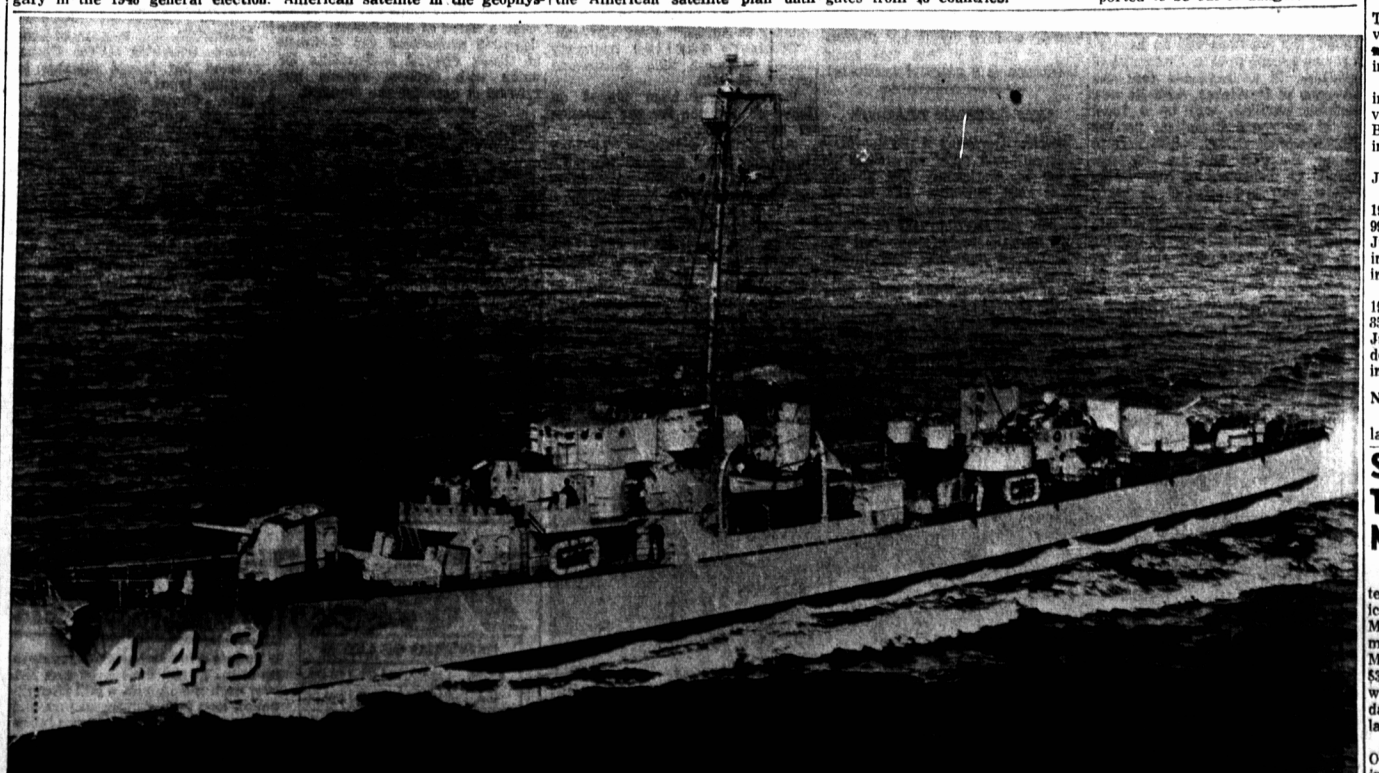

Stowaway's Tough Swim Made In Vain

SOUTHAMPTON, Eng. (Reuters)—A husky 27-year-old American stowaway, Richard David Martin, who swam nearly two miles ashore from the liner Queen Mary here Monday night with \$300 and a passport in his pocket, was returned to the liner Thursday and refused permission to land.

The six-footer from Cleveland, Ohio, was found lying exhausted in a park only 500 yards from police headquarters, dripping mud and oil after his swim through ship-filled docks and up the local river Itchen.

He was placed in a cabin under guard and will stay there until the liner sails back to New York Thursday.

To police who gave him a meal, Martin told a story of daring and luck that brought him to England in the Queen Mary hidden behind the ship's movie screen.

THREE NAVAL SHIPS WILL VISIT CHARLOTTETOWN THIS WEEK-END

Pictured above is the U.S.S. C. S. Johnny Hutchins and the H.M.C.S. Buckingham, along with a third ship. The ships are docked at the Railway wharf and will dock at 1:00 p.m. DST. They will be open to the public on Saturday and Sunday afternoons from 2:00 to 4:30.

During their stay in port softball games have been arranged between the crews of the naval vessels and teams from the City League. There will be a reception for the officers at H.M.C.S. Queen Charlotte on Friday at 5:30 and a dance will be held in their honour at Government House on the same evening. The men of the ships will be entertained at dances etc. while in port. A diving crew from the U.S.S. Johnny Hutchins will participate in the Centennial Aquatic sports on Saturday afternoon.
