—ARSENAULT-GALLANT NUPTIALS—A very pretty wedding was solemnized at St. Paul's Church, Summerside on the morning of April 29th, when Miss Rena Arsenault was united in marriage to Alfred Gallant. The ceremony was performed by the Rev. Father McLellan. The bride was attended by Miss Beatrice Arsenault as maid of honor, while Amand Gallant supported the groom. After the ceremony the bride and groom were entertained to a delicious breakfast at the home of Mrs. R. S. P. Jardine, who was assisted by Mrs. Wilfred Leckey. After motoring for some time the bridal party returned and were entertained at dinner by the sister of the groom, Mrs. Isaac Arsenault. After dinner the party motored to Egmont Bay where a bountiful supper was served. Step dancing by Beatrice and Sylver Arsenault were special features of the evening. Square dances to the music of the violin and guitar and organ quickened the dancing feet. Altogether a very happy evening was spent. The Guardian joins the many friends of Mr. and Mrs. Alfred Gallant, in wishing them a long and prosperous journey through life. Mr. and Mrs. Gallant will reside on the farm of Mr. Wilfred Leckey, where Mr. Gallant has been employed for the past two years.—S.

Tax Levies

(Continued from Page 1)

EXCISE TAXES

The present excise tax on automobiles is being replaced by a flat rate levy of five per cent applying to all automobiles regardless of Canadian or Empire content on value in excess of $650. The tax per automobile shall in no case exceed $250. Manufacturers producing annually less than 10,000 automobiles or chassis at least 50 per cent of the factory cost of which has been incurred in the British Empire may purchase for use as original equipment on cars manufactured tires and tubes free of poundage tax; however, if output exceeds 10,000 automobiles or chassis, there must be at least 60 per cent Empire content in ordr to qualify for exemption from the tax on tires and tubes.

A reduction is made in the tax on cigarette tubes from three cent to two cents per 100.

The only changes under the three per cent special excise tax on imports are the following additions to the schedule of exemptions: Materials used in the manufacture of binder twine and fishing rope, paintings under tariff item quota, educational films and hand-made drawings and designs for use in number of manufacturing industries.

EXCISE DUTIES

Excise duty on Canadian brandy is reduced from $4 to $3 per gallon to equalize with the customs duty on brandy from Australia and South Africa.

Spirits used in medicines, extracts and pharmaceutical preparations are in future to be given the same rate as that applying to perfumes. This means a reduction from $2.50 per gallon to $1.50 per gallon.

Finally, the excise duties on imports of leaf tobacco are to be transferred from the Excise Act to the customs tariff.

Amendments to the act provide for a clearer definition of the phrase "of a class or kind made in Canada," as applied to imported goods, and indicate conditions under which such goods may be exempted from the payment of special or dumping duties. Changes in the various schedules are summarized as follows:

Non-British Preferential

Exclusive to British preferential tariff: Certain changes are restricted to imports under the British preferential tariff. These include: The free listing of all iron and steel machinery of a class or kind not made in Canada, of chemical stoneware and earthenware, forgings for surgical instruments, powdered kelp, tea waste, seasame seed oil and fire engines. Removal of existing specific duties on all yarns or fabrics wholly of cotton and on all yarns and fabrics of artificial silk, reductions in duty on iron or steel machinery of a class or kind made in Canada, on all unenumerated manufactured articles of iron or steel, dessicated cocoanut, leaf tobacco, porter and stout, prune wine, malt extracts and powders and Irish poplin.

British Schedules

Under British preferential and intermediate tariffs: Reductions in rate will apply on the following goods when imported under either British preferential or intermediate tariffs: Heat-resisting glassware; nickel-plated ware and gilt or electroplated ware, glassware for mounting or decorating; moulded glass products for lighting fixtures; polished seamless steel tubing; veneer-making machinery; oil extractors; cotton lace, embroideries, etc.; cotton clothing and articles manufactured from cotton fabrics; clothing, wearing apparel and manufactured articles of artificial silk; hops; and certain porcelain forms.

Reductions under all tariffs: Commodities which are free-listed or reduced in rate under all tariffs include certain materials for use in the production of periodical publications. Biological products for the diagnosis or treatment of disease, safety equipment for use in mining or other hazardous employment, printing machinery and equipment, highway scrappers, various requirements of public hospitals, certain soya bean products, chilled steel and forged steel rolls, feeds for fur-bearing animals, photographic supplies, educational silent or sound films, and all articles imported for use of the blind.

Motor vehicles and parts: All automobiles are made dutiable, on importation from the United States or other intermediate tariff countries, at 17½ per cent compared with existing rates of 17½, 22½, and 30 per cent, according to value. Access to low rates on "parts" is predicted upon the attainment of a high degree of Canadian content in the completed vehicle. Machinery used in the automotive industry is entitled to a drawback of 99 per cent of the duty if of a class or kind not made in Canada.

Gasoline is reduced under the intermediate tariff to a rate of one cent per gallon. The rate effective immediately before the budget on imports from the United States was 2¼ cents per gallon.

The effective rate (intermediate) on agricultural implements is reduced to 7½ per cent. The duty on farm implements up to Jan. 1, 1936, was 25 per cent. Under the Canada-United States agreement this fell to 12½ per cent. The further reduction of 7½ per cent is effective May 2.

Canadians returning from abroad may now import free of customs duties goods to a value of $100 provided the same are for their personal use. The requirements are, briefly, 48 hours' absence from Canadian soil and the privilege may be enjoyed not more than once in each four-month period.

Countervailing Duti

Other items of interest include: preferential treatment for Empire tobaccos, unmanufactured, of the so-called Turkish type; the preference in favor of Australian raisins and currants is restored to four cents per pound; countervailing duties are imposed on eggs, cut flowers and potatoes; under the intermediate tariff minimum ad valorem rates are imposed on printed advertising matter and containers of paperboard; used mattresses and used periodicals are prohibited entry, except under specified conditions; the intermediate tariff is raised on certain glove-leathers and both intermediate and general on day-old or "baby-chicks."

Needy Fishermen To Benefit By Vote

(C.P. By Guardian's Special Wire)

HALIFAX, May 1—The legislature today voted a capital expenditure of $100,000 "to carry out any agreement that may be made by the governor-in-council with the Dominion goverment for the re-establishment of needy fishermen." A similar amount will be voted by the federal government.

Col. Gordon S. Harrington, Opposition leader, urged the fund be placed in the hands of a reliable and non-partisan body and was given assurance by Hon. A. S. MacMillan that the grants would be handled fairly.

Recommendations based on very careful study would be made to the federal government regarding expenditure of the $200,000, Mr. MacMillan said.

Replying to a question from Joseph Macdonald the minister said the purpose of the fund was to re-establish fishermen in their own occupation, not other occupations.

DOWN THE BACK STRETCH

(Continued from page 7)

in this was is estimated to have made many thousands from Dan Patch shoes distributed over the length and breadth of the land.

To give an idea of the astonishing things Dan Patch did I will quote from the records kept by Mr. Savage:

"I mile in 1.55; 1 mile in 1.55 1-4; 2 miles in 1.56; 14 miles averaging 1.56 1-2; 30 miles averaging 1.57 1-2; 45 miles averaging 1.58; 73 miles averaging 1.59 1-2; 120 miles averaging 2.02 1-2."

Dan Patch was goodness personified and wisdom. Those constantly with him worshiped him—would have died for him had it been necessary. M. W. Savage the absorbed money-getter also worshiped him. Dan Patch was part of his religion. In July, 1916, Dan died, aged twenty, and at the same time Savage was also on his death bed fighting vainly for his life and none dare tell him that his horse was dying for fear the shock would kill him. The two passed out into the Great Beyond within hours of each other and so faded into history a remarkable man whom few of our present day horsemen know anything about, but Dan Patch, that heroic figure of the horse world, will live as long as records are kept because nothing equalling his has appeared since and not likely will.

Frank Coburn, one of the most popular horsemen in Maine, died at his home in Farmington on Wednesday, April 8th. Last season he campaigned with considerable success Viking 2.09, Roslindale 2.12 1-4. Betty Curtis 2.11 1-2 and Northern Prince 2.15. At Topsham Fair last fall he took his last ride on a sulky during a race. The third heat there was a bad spill, Coburn being wedged in a five horse jam. His injuries were very severe.

Word has just come through from Cornish, Maine, of the sulden death of "Speedway" Joe McDonald. He died at the race track there while training Hollyrood Speed 2.05 3-4.

The fastest mile by a two-year-old during the training season just closed in Florida was negotiated by the filly Twilight Song, owned by W. H. Strang, New York City, and driven by Ben White, when she trotted a mile in 2.11 1-2, last half in 1.04, final quarter in 30 1-2 seconds. The fastest mile by a two-year-old pacer was by Avondale, who stepped in 2.17 with the last quarter in 31 1-2 seconds.

Vitamine by Volomite, Juanita by McGregor the Great and Mandriola by Hazleton, were winners in recent race meets held at different points in Italy.

At Budapest, Hungary, February 16th, Una Signal 1.59 3-4, exported in 1935, raced from handicap placing third, but showed the fastest clip ever trotted over the Budapest track.

Race results published in American horse magazines show ex-American trotters starring at Vincennes, France, Copenhagen, Denmark, Milan, Italy, Vienna, Austria and Budapest, Hungary.

One of the best liked two-year-olds at the Truro race track is a handsome filly sired by Abbe Worthy 2.05 and out of Mr. McCurdy's favorite race mare, Dora Mac 2.14 1-4.

Billy Cummings has in addition to Star G. 2.09 1-4, taken on the H. T. Fulton horse—Baronette 2.15, High Toby, 2.13 1-4 and a full sister to Peter Pokey 2.06 1-2 called Easter Dawn.

The date of Harry O'Brien's annual races, published to take place on July 15th, are taking place on July 8th.

Says the St. John Telegraph Journal—"The Saint John Firemen's Mutual Relief Association has purchased the bay gelding pacer Great Buy, and it will be the major prize of a drawing which the association is conducting. The drawing will take place the latter part of May.

"When preliminary arrangements for the lottery were made it was decided to purchase the pacer Red Silk, seven-year-old chestnut gelding owned by H. C. Buzzell of Belfast, Maine, but upon examination of the horse recently it was found it was defective and not as good as reported.

Red Silk with a mark of 2.07 1-2 was examined by Mr. Alexander and his trainer John Conroy. The two experts travelled to Belfast with a truck for the purpose of bringing the pacer to Saint John, but after making a careful check they found the animal had a lame foreleg, and rather than allow the association to lottery an unsound horse called the purchase off. Upon learning of the situation the Firemen's Mutual Relief Association considered purchasing another horse to replace it, but an investigation showed that good racers were scarce in the Maritimes as well as Upper Canada and the United States. Negotiations to obtain Heatherdale from the stables of Col. McKinnon of Prince Edward Island failed as the Island sportsman refused to sell his favorite steed. It is his intention to race the horse in Saint John and other meets this season.

"C. M. Alexander, one of the leading race horse owners of the Maritimes, after considerable persuasion, consented to part with The Great Guy. It is considered by many as one of the outstanding horses of the Maritime and Eastern Maine, and one of the best of the Alexander stables.

"The Great Guy had a mark of 2.02 1-4, by Arion Guy who has a mark of 1.59, and the dam is Marjorie the Great by Peter the Great. The Great Guy holds the State of Michigan half mile track record of 2.04 1-2 made in September, 1934, and that year beat such good horses as Little Nell, Lee Storms, and others. He was imported to Saint John about a year ago by Mr. Alexander from Dr. A. B. Coyer, of Lafayette, Indiana.

"It has been reported that interest in harness racing is at a high pitch and indications are that the coming season will be most popular. At the present time there are about 27 good race horses owned locally and with local men having a lease of the old Moosepath Park an extensive and enthusiastic program has been arranged for the coming season. May 25 will usher in the season and at that time a matinee program will be run off. A committee in charge of the track is supervising work on the circular track at the present time and reports are that the grounds are to be fenced in."

Advises Actors To Rehearse Shakespeare

(C.P. By Guardian's Special Wire)

MONTREAL, May 1 — Amateur actors take a tip from Alan Wade, noted English actor and critic,—study Shakespeare.

"It is the finest training possible for speech and movement," said Wade, who adjudicated at regional performances of the Dominion Drama Festival.

"I advise would-be actors to rehearse Shakespeare even if they never present it in the festical." He thought amateurs avoided Shakespeare because it was believed to be difficult.

Eastern Canada, especially Quebec and Ontario, have a higher standard for dramatic art than other sections of the Dominion, Wade said. There was a higher standard because of plays which Easterners saw. "In many places out West the amateur actor does not get a chance to see real professional plays."

Canadian talent on the whole was pleased to note "the desire to learn" among young actors." "They want actual knowledge of plays and their presentation," he said. "In some places they still need a little strengthening."

Wade sailed today on the Montclare for London.

Disappearance Of Elmsdale Man Reported

News that her brother, Thomas Melvin Cannon, of Elmsdale, Prince Edward Island, has mysteriously disappeared and that the night before his disappearance the home in which he lived with his brother, "Sandy" Cannon, had been badly wrecked by unknowns, was received by Mrs. W. N. McIsaac, 45 Brunswick street, Halifax, by letter yesterday.

Royal Canadian Mounted Police of the Island, it is reported, have the strange case under investigation.

The letter, written by her other brother, "Sandy," told how he had returned to the small home after being absent overnight and found it badly wrecked, and his brother missing. This was on Monday, April 19, and the brother hasn't been located yet.

The mother of the missing young man, said to be about 25, 5 1-2 feet tall, auburn hair, blue eyes, and wearing a brown suit, is said to be in a frantic state of mind worrying over her missing son.

Both farmers, "Sandy" Cannon stated in the letter than on returning to the house he had found dishes, furniture and other household effects broken, and an axe lying nearby. He knows of no reason that may have been responsible for the act.

The above dispatch appeared in a mainland newspaper recently. R.C.M.P. authorities in Charlottetown questioned regarding the matter stated that they knew nothing about it.

Kensington And Vicinity

On Monday, April 27th at the home of her daughter, Mrs. Maxwell Robertson, Summerside, Mrs. Robert T. Moase passed to her eternal reward at the age of 74 years. Practically all her married life until her husband pre-deceased her some twelve years ago, was lived in Kensington, where her ten children were born; since, her time has been spent among them. Several months ago she suffered a paralytic stroke, from which she never fully recovered and though she endured much from pain and weakness, she was neither troubled nor afraid, for her Comforter was her Saviour, and grace and peace was given her "according to the riches of this glory." There are left to mourn their great loss, five daughters and five sons. Mrs. Robert Stavert Wilmot; Mrs. John A. Hogg, Kelvin Grove; Mrs. Brecken Simmons, Wilmot; Mrs. Reuben Large, Bedeque; Mrs. Maxwell Robertson, Summerside; Darrach, Freetown, Edgar, Revelstoke, B.C., Davis, Traveller's Rest; Major, St. Eleanors and Harold, New Annan. Also two sisters Mrs. John Moase, New Annan and Mrs. H. S. B. Birch, Port Hill and one brother, Mr. John Burrows of Wilmot. The funeral was Wednesday the 29th, a service was held first at the home of Mr. and Mrs. Maxwell Robertson, in Summerside conducted by Rev. Walter McCleary of the Presbyterian Church there, then the remains were brought to Kensington, to the Presbyterian Church, where a great many old friends gathered to show their respect for the departed, and sympathy for the family. The service here was conducted by the pastor of the church, the Rev. William O. Rhoad, assisted by Rev. Mr. McCleary. The choir led in the singing of the hymns. "Abide with Me," and "Nearer My God to Thee." A solo, "No Night There" by H. P. Danks, was sung by Mr. T. W. Bentley. Rev. Mr. Rhoad gave the address and pointed out the great goal to be reached, the fulfillment of the life lived by the Christian here is to be like Christ, to "see Him as He is." "Beloved now are we the sons of God and it doth not yet appear what we shall be; but we know that when he shall appear, we shall be like him; for we shall see Him as He is." I John 3: 2.

"The writer of this verse shows that at the present time the Christian has a blessed relationship to God. The Christian does not undervalue this present life, because he knows he has spiritual blessing here. But the writer of those verse realizes that in this present time we do not reach the consummation. Not only have we not reached it but also we cannot at this present time fully comprehend what that consummation will be. The apostle John however, does give us a little idea of some of the things which enter into that consummation. In the first place he says that we shall be like Jesus. What a great hope this is for every Christian. For every Christian is conscious of the imperfections of this present life. It is then a great comfort to be able to look forward with assurance to a time of perfection.

In the second place John says that we shall see Jesus. Possibly all of us have known someone whose life ambition was to visit the holy land. What great joy came at the fulfillment of that ambition of visiting the places made sacred by the earthly life of our Lord. Every Christian has a similar ambition. It is that some day we shall see Jesus.

When then a believer dies we may say "a great life ambition is being fulfilled; one who has loved the ord and longed to see Him is at last seeing Him'. We believe that we can truly say this concerning the one whose passing we mourn today, we believe that for her it is a triumphant consummation of her faith."

The pall bearers were, Messrs William Caseley, Erskine MacMurdo, Alden Moase, Stewart Moase, John Burrows and Wyman Birch.

Interment was in the People's Cemetery, Kensington.—B

Margaret A. McLeod, Duncan Cameron United In Marriage

Margaret Alexandra McLeod of 217-24 109th Avenue, Queens Village, daughter of the late John Campbell and Mrs. Margaret Oliver of Charlottetown, Prince Edward Island, and Duncan Murray Cameron, son of Mrs. Elizabeth Cameron of 160-15, 84th Road, Jamaica, Long Island, were married last night in the rectory of the Jamaica Dutch Reformed Church. Rev. Robert Watson officiated.

The bride was attired in a beige crepe ensemble with a London tan felt hat and accessories of the same shade.

Kathryn Mallinson of Queens Village, maid of honor, wore a London tan crepe frock and champagne colored accessories.

John Campbell, brother of the bride, was best man.

When the couple return from a motor trip they will make their home at the Jamaica address.—(Long Island Press, April 25, 1936).

Miss McLeod was a valued stenographer in the office of the Prince Edward Island Potato Growers' Association for the past ten years.

HAS LENGTHY RECORD

BRIDGEWATER, England — J. T. Kemp, star halfback of Blackheath Rugby Club made his 250th appearance for the famous "Heathens" here recently. The Londoners won their second victory on their tour of the west country defeating Bridgewater Albion 11-3.
