- Unloading car of cedar shingles; also asphalt shingles and siding, all grades. Also to arrive next week, car of cement. Compare our prices before buying. P. J. Noye & Co.
- Come to the Ice Cream Festival and Dance at Mermaid, Thursday evening, July 15th. Good music. Dancing from 9 to 12. Proceeds in aid of new school. If not fine, will be held Friday.
- The Members of True Brothers Lodge No. 8 A. F. and A. M. Crapaud and his wives are invited to meet in the Lodge Room Monday evening, July 19th. Brother Heath McQuarrie will address the Brethren. Members please bring cake. By Order of the W. M. Manford Beer, Secretary.

### Five To Eight Persons Killed In Demonstration

TEHRAN, July 15—(CP)—Rioting broke out in Tehran's streets tonight when pro-Communists staged a demonstration protesting the arrival of President Truman's troubleshooter, Averell Harriman. Eyewitnesses said five to eight persons were killed. The crowd of about 10,000, shouting "Harriman war-monger," and "United States imperialists interfering in Iran," marched in an orderly parade heavily escorted by police until they encountered National Frontists who supported Premier Mohammed Mossadegh's government. Then fighting broke out. Police and soldiers moved into the crowd from sidewalks. The police fired tear gas. Army tanks and truckloads of soldiers rolled up and the crowds started running from the riot area. Sharp explosions, which seemed to be too light for rifle fire, occurred two blocks away. It was confirmed here today that five persons were killed by pistol shots exchanged by the rioters. A Tudeh (Communist) demonstrator said he saw eight dead. Harriman, President Truman's special advisor on foreign affairs, arrived in Tehran this morning expressing confidence that friendly talks might settle Iran's billion-dollar oil fight with Britain. Shortly after Harriman got here about 200 fanatics of the Fadayean Islam movement took over the justice ministry building for more than an hour before dispersing. It was their group which in March assassinated Premier Ali Razmara, who was opposed to oil nationalization. The Communist demonstration was forecast as the largest of the year since the start of the nationalization dispute. Harriman expects to meet Premier Mohammed Mossadegh Monday in an opening round of talks.

### Russian Marshal Has Disappeared

FRANKFURT, Germany, July 15—(AP)—Western diplomats in Warsaw are mystified by the apparent disappearance of Marshal Konstantin Rokossovsky, beleaguered hero of the Soviet Union and Polish defence minister. It was confirmed here today that rumors of an attempt on Rokossovsky's life are circulating in Poland, and that western envoys, without passing judgment on the rumors, have reported them to their governments. No concrete evidence has yet been uncovered by diplomatic missions in Warsaw. The one established fact is that the tall, former Czarist officer has not been seen by westerners in the Polish capital for several weeks.

### U. S. A. Rejects Russian Complaint

WASHINGTON, July 15—(AP)—The United States, in a note to Moscow published Saturday, rejected a Russian complaint that the Japanese peace treaty is a step toward aggression against Russia and Red China. "The terms embody not merely the formality of peace but the spirit of peace," the Russians were told. At the same time, the note made clear that most of the Second World War forces of Japan are going ahead with the signing of the treaty no matter what Russia has to say about it. The U. S. renewed its invitation to Moscow to join in signing the treaty at a 50-country conference set for early September at San Francisco.

### British Warships Enter Red Sea After Rebuke

LONDON, July 15—(AP)—Britain is sending four destroyers from the Mediterranean into the Red Sea where Egyptians dared to try to humiliate the Union Jack a fortnight ago. The warships will pass through British-guarded Egyptian territory via the Suez Canal. The Admiralty order follows an indignantly British protest over the stopping and search of the small freighter Empire Roach in the Red Sea by an Egyptian Corvette July 1. Here after protesting to the Egyptian Ambassador, Foreign Minister Morrison told the House of Commons last week he was asking the Admiralty to send warships to protect British shipping at sea. The Empire Roach was bound for the Jordan port of Aqaba with supplies for the British-occupied Jordan Arab Legion. Her captain said the armed Corvette crew looted the ship's stores, smashed the radio, and kept the freighter's crew below decks for 13 hours. The Empire Roach now is at Adabia, near Port Suez, Egypt, reloading for another voyage to Jordan. Egypt otherwise has stopped only ships entering the Suez Canal from the Red Sea on the ground that they must be carrying war supplies to Israel ports on the Eastern Mediterranean. The Suez stoppage has led to reduced output of the oil refinery at Haifa, Israel, and to a complaint from Israel asking the United Nations Security Council in New York to take action toward breaking the Egyptian canal blockade. The council is expected to meet in mid-week.

### ALBERTON EXHIBITION BLDG. LEVELLED AND OTHER STORM DAMAGE REPORTED

A severe electrical storm accompanied by heavy hail and high winds late yesterday afternoon caused heavy property damage in western Prince County. Early reports told of the destruction of the main building of the Prince County Exhibition Association at Alberton and the loss of two barns, one at Knutsford and another at O'Leary. Some stock was lost. Two O'Leary homes also suffered minor damage when struck by bolts of lightning. An earlier fire, Saturday morning, destroyed a house, barn, granary and garage at Alma. The fire apparently broke out in the house between 3 and 4 a. m. and had gained considerable headway before it was noticed. Mrs. Hardy called the children and they were able to make their way to safety, but were unable to save anything. Mr. Hardy is at present in Labrador. The Alberton Fire Department was called to the scene of the conflagration but on arrival the house was struck by lightning and completely destroyed. Seven calves, a number of pigs and some farm machinery were lost in the blaze. Another barn belonging to Ralph O'Leary, was struck about the same time and totally burned. No stock was reported in the building at the time of the fire. A bolt of lightning struck the chimney of the home of Mr. Ernest Phillips, O'Leary. Minor damage resulted, but no one was injured. At the home of Herman Harris, O'Leary, the front of the kitchen range was struck and blown out. Although members of the family were present none were injured by the bolt. An early Saturday morning fire destroyed the house, barn, granary and garage at Alma. The fire apparently broke out in the house between 3 and 4 a. m. and had gained considerable headway before it was noticed. Mrs. Hardy called the children and they were able to make their way to safety, but were unable to save anything. Mr. Hardy is at present in Labrador. The Alberton Fire Department was called to the scene of the conflagration but on arrival the house was struck by lightning and completely destroyed. Seven calves, a number of pigs and some farm machinery were lost in the blaze. Another barn belonging to Ralph O'Leary, was struck about the same time and totally burned. No stock was reported in the building at the time of the fire.

### Duck's Unlimited Grant For Fullerton's Marsh

Spanning Canada in a gesture of aid to waterfowl, Ducks Unlimited announced that it has made financial grants toward construction of duck-producing areas in Prince Edward Island and in British Columbia. First moves of their kind in the history of the international conservation organization, they are expected to bring appreciable dividends in the form of extra waterfowl broods in these coastal provinces. Fullerton's Marsh, a 134-acre area located four miles east of Charlottetown, P. E. I., is a planned project of the Provincial Government. Recently surveyed and adjudged suitable for development, the marsh is expected to become increasingly productive through biological management. Creation of Fullerton's Marsh as a duck-producer on a permanent basis will be particularly interesting to the thousands of sportsmen and hunters who annually hunt waterfowl along the Atlantic coast. The fact that the area will produce principally Black Duck, favorite of many coastal hunters, is another pleasing feature. Simultaneously, financial aid has been given the Kelowna (B. C.) Rod and Gun Club in its efforts to establish a duck project in that area. The Kelowna slough, about 120 acres in extent, is being assured a controlled water supply by installation of an underground pipe system connected to an irrigation ditch. Ducks Unlimited, whose activities naturally have been concentrated in the great breeding grounds of the three prairie provinces, thus reasserts the truly international and trans-continental nature of its work. From P. E. I. to B. C., from the Arctic Circle to Mexico, waterfowl territory, where DU and companion organizations always will find conservation work to do.

### May Fill Senate Vacancies Shortly

OTTAWA, July 15—(CP)—Parliament Hill politically is in the doldrums. With Prime Minister St. Laurent and many of his cabinet ministers on holidays, there has been a minimum of activity on the political front. Works Minister Fourrier has been serving as acting Prime Minister. A fairly heavy backlog of business will face the Prime Minister and his colleagues when they return later this month or early in August. Among items on the agenda are preparations for the visit of Prince Elizabeth and Prince Philip in October, plans for the opening of a new session of Parliament in the same month, and arrangements for representation at various international meetings. There has been speculation in unofficial circles that Mr. St. Laurent will fill some of the 14 existing vacancies in the Senate before the fall session. There are six vacancies in Quebec, three in New Brunswick, two in Ontario and one each in British Columbia, Prince Edward Island and Manitoba.

### 36 Injured In Train Crash

SWANTON, Vt., July 15—(AP)—A slowly-moving Central Vermont Railway passenger train crashed into the rear of an idling freight train today injuring 36 persons—none critically. The collision crushed the freight train's caboose and knocked three freight cars off the track, tying up traffic for several hours. Thirty persons were treated at Kirk Memorial Hospital, St. Albans, and six at St. Albans Hospital, St. Albans. Hospital attaches said most of them suffered cuts and bruises. Many were able to re-board the Canadian National Railway-owned train after treatment and continue to Boston and New York. The train splits at White River Junction, Vt.—one section going to Boston and the other to New York. Two detained at Kirk Memorial for further treatment were identified as Mrs. Bertha Burnoulin of St. Lambert, Que., and Arnold Gordon of Boston.

### Reds Quickly Yield To U. N. Demands For Neutralizing Centre

MUNSAN, Korea, July 16—(Monday)—(AP)—United Nations Communist negotiators, closer to harmony than ever before, plugged away today at the slow, tedious job of framing an agenda for the negotiator. An armistice talks. The top negotiators agreed to meet for their fourth session at 10 a. m., today (8 p. m., Sunday, EDT) in Kaesong. Their mediate job was to decide exactly what to talk about when they got down to the serious give and take which will lead either to peace or more bloodshed in Korea. Some observers were hopeful that if the harmony of the last two days can be maintained, the task of drawing up the agenda may be completed in a relatively-short time. In a two-hour meeting Sunday, negotiators patched up the most serious problem since the talks started on July 10. Communist representatives quickly yielded to U. N. demands for neutralizing Kaesong and providing free movement to that main cease-fire site. After Sunday's talks an official Allied communique issued at this "peace" camp said: "Significant of the desires of both delegations to get on with the main work of the conference was the complete absence of any controversy over the arrangement for neutralizing of the site." There was only one short hitch during the day. Over-zealous Red sentries delayed two leading Jeop, hearing Vice-Admiral Charles Turner Joy, chief Allied negotiator, and air force Maj.-Gen. L. C. Craigie, until 16 other vehicles in the Allied convoy caught up with them. Joy told the delegates that he expected "no repetition of such an event on the part of the Communist forces," the communique said. The Allied announcement said the proposals accepted Sunday by the Communists were: "1. The road leading to the conference site shall be open to unrestricted use of vehicles of the United Nations Command Delegation. No notice will be required for such movement. "2. The neutral area, five miles in radius, with a traffic circle in Kaesong, as its centre, would contain no armed personnel except the (Continued on page 5 col. 1)

### Island Nurse Swims Straits

Miss Evelyn Henry of Keppoch, a graduate nurse of the Prince Edward Island Hospital, successfully swam the Northumberland Straits between Cape Tormentine, N. B., and Borden, P. E. I., yesterday in the time of eight hours and 53 minutes. As far as could be learned here last night, it is the first time that anyone has ever attempted the swimming of Northumberland Straits. Accompanied by her father and brother in a row boat and George Ceretti of Borden in a motor launch, Miss Henry started the long, difficult swim from Cape Tormentine at 8:25 yesterday morning and reached Borden Pier at 5:18 p. m.

### Britain Shows Off Some New Armor

SALISBURY, England, July 16—(AP)—Britain showed off some of her new armor, including a secret weapon which sends a path across a minefield, to military attaches from 27 countries here Saturday. More than 2,000 troops took part in the demonstration. Among the attaches were those of Iran, Yugoslavia and Egypt. No representatives from eastern Europe were invited. Here to direct the battle against the waters, Maj.-Gen. Lewis A. Pick, chief of army engineers. He estimated the total damage at more than \$500,000, higher than any other domestic flood disaster. (Mayor Garnet Colter of Winnipeg, which was ravaged by a flood last year, telegraphed Kansas authorities an offer to help record-breaking flood. Just beginning to feel the effects were cities and towns along the Missouri River, which bisects the state of Missouri. Both the Kansas and Missouri rivers were receding slowly here. Virtually all the area was on an emergency basis. A battle was on to save remaining essential services. Most dramatic of these was a touch-and-go fight to save the municipal light and water plant, serving 140,000 residents of Kansas City, Kas. This plant, in the Fairfax industrial district, faced inundation when a dike broke, flooding some 3,000 acres containing oil refineries and heavy manufacturing plants. It was the fourth major industrial district to go under the waters of the Kansas River, which is battling an oil fire in flood waters near the state line. At noon, firemen believed they had the fire under control, but two hours later it broke out again, threatening more gasoline and chemical tanks. President Truman has designated the flood areas of both states as disaster areas. Congressional leaders said most of them suffered cuts and bruises. Many were able to re-board the Canadian National Railway-owned train after treatment and continue to Boston and New York. The train splits at White River Junction, Vt.—one section going to Boston and the other to New York. Two detained at Kirk Memorial for further treatment were identified as Mrs. Bertha Burnoulin of St. Lambert, Que., and Arnold Gordon of Boston.

### Americans Rush Aid For Kansas Flood Victims

KANSAS CITY, July 15—(AP)—The United States rushed aid today for victims of the country's costliest flood disaster. As forces were mobilized to help the stricken area, the eastern half of Kansas and the Kansas City metropolitan area of 900,000 were paralyzed from the effects of the record-breaking flood. Just beginning to feel the effects were cities and towns along the Missouri River, which bisects the state of Missouri. Both the Kansas and Missouri rivers were receding slowly here. Virtually all the area was on an emergency basis. A battle was on to save remaining essential services. Most dramatic of these was a touch-and-go fight to save the municipal light and water plant, serving 140,000 residents of Kansas City, Kas. This plant, in the Fairfax industrial district, faced inundation when a dike broke, flooding some 3,000 acres containing oil refineries and heavy manufacturing plants. It was the fourth major industrial district to go under the waters of the Kansas River, which is battling an oil fire in flood waters near the state line. At noon, firemen believed they had the fire under control, but two hours later it broke out again, threatening more gasoline and chemical tanks. President Truman has designated the flood areas of both states as disaster areas. Congressional leaders said most of them suffered cuts and bruises. Many were able to re-board the Canadian National Railway-owned train after treatment and continue to Boston and New York. The train splits at White River Junction, Vt.—one section going to Boston and the other to New York. Two detained at Kirk Memorial for further treatment were identified as Mrs. Bertha Burnoulin of St. Lambert, Que., and Arnold Gordon of Boston.

### Does Not Want Showdown To Come In Korea

WASHINGTON, July 15—(AP)—State Secretary Dean Acheson said in a statement made public tonight that the administration is urgently trying to keep the showdown with Communism from coming now in Korea. He advised also that "if we allow ourselves to be lulled" by Korean truce developments "we will be hit within the next six months to a year with a much tougher blow somewhere else." His views were given in the transcript of an off-record speech he made here June 29 to a group of magazine and book publishers. The state department said it was made public at the request of several who were present.

### Britain Shows Off Some New Armor

SALISBURY, England, July 16—(AP)—Britain showed off some of her new armor, including a secret weapon which sends a path across a minefield, to military attaches from 27 countries here Saturday. More than 2,000 troops took part in the demonstration. Among the attaches were those of Iran, Yugoslavia and Egypt. No representatives from eastern Europe were invited.

### New Belgian King Tuesday

BRUSSELS, Belgium, July 15—(AP)—The Royal Palace gates recently got a fresh coat of gold paint. That is about all that will be new when 30-year-old Prince Baudouin, Tukey becomes the fifth king of the Belgians. The stolid Prince then will be Baudouin I. Baudouin has been reigning on behalf of his father, Leopold III, for 11 quiet months. The close-mouthed Prince Regent Charles had reigned before that for about six years in post-war Belgium. Charles played referee in the bitter battle fought by political parties over his brother, King Leopold, who kept away from his country in a self-imposed exile until his return last year.

### Canada Loses Ground As Food Supplier Of U. K.

OTTAWA, July 15—(CP)—Canada lost ground as a supplier of food for the United Kingdom in 1950. Canadian exports to Britain of wheat, flour, eggs and canned salmon went down substantially last year, although this country did sell more bacon, cheese and apples. Official statistics showed today that Canadian sales of wheat declined to 49,138,000 hundredweight from 73,179,000 in 1949 while British imports of wheat from the United States, financed by American aid, went up to 8,956,000 from 5,348,000 hundredweight. Australian wheat shipments to Britain also were lower. Canadian flour exports were 7,057,000 hundredweight against 7,952,000. British flour imports from Australia and the U. S. also went down, but by a wider margin. Canada went out of the British egg market, except for a shipment of 17,000 hundredweight, compared with 36,000 the previous year. Canada shipped no shell or preserved eggs, though she had sold those varieties in previous years. Canadian canned salmon shipments slipped to 83,000 hundredweight from 123,000 the year previous. Two other canned salmon suppliers—the U. S. and Russia—shipped not a single can in 1950. On the other hand, Canadian bacon exports climbed to 727,000 hundredweight from 497,000 in 1949, though the total still was far below the 1,871,000 shipped in 1948. Denmark, now Britain's principal bacon source, increased its shipments to 2,874,000 hundredweight from 1,805,000 and Polish exports went up to 745,000 from 390,000. Shipments of Canadian cheese rose to 517,000 hundredweight from 439,000 while those from New Zealand eased to 1,506,000 from 1,881,000. Cheese imports from other countries also declined. Canadian apples sales to Britain increased to 380,000 hundredweight from 513,000 in 1949. None was shipped in 1948. Increases also occurred in apple shipments from Australia and New Zealand.

MINIMUM temperatures as observed between 8:30 p. m. and 8:30 A. M. EDT; maximum temperatures between 8:30 a. m. and 8:30 p. m. Victoria 53 69; Edmonton 51 67; Calgary 49 71; Regina 53 62; Winnipeg 42 66; Toronto 61 86; Ottawa 60 86; Montreal 66 84; Quebec 60 76; Saint John—75; Monday 54 85; Halifax 60 83; Charlottetown 59 82; Sydney 58 85; Yarmouth 55 70; St. John's 59 73. HALIFAX, July 15—(CP)—Official forecasts issued by the Dominion Public Weather Office in Halifax and valid until midnight Monday. Synopsis—Last night's showers are not expected to move much further southward. On Monday the southern regions are expected to have warm sunny weather again, while further north the weather will be unsettled. Regional forecasts: Prince Edward Island—Mostly clear but occasionally cloudy with widely scattered showers and thunderstorms. Continuing warm. Light winds. Low early Monday morning and high in the afternoon at Charlottetown 58 and 80. High tide today at 6:54 A. M. and 9:16 P. M. Sun rises at 4:40 A. M. and sets at 7:38 P. M. Summerside tide eighteen minutes later than Charlottetown.
