Onsurance Imposters. The Baltimore underwriter is responsible for the following:— A son of Erin entered the office of a Fire and Life Insurance Agency...

Pat insisted that "no attention was wanted," but demanded the money, as the stable was "clean gone intirely."

When he found his case hopeless, he indignantly turned his back upon the officers, bitterly cursing all "Onsurance imposters."

A day or two later Pat made a third visit to the same Agency, and contemptuously throwing upon the counter a thousand dollar policy on the life of his wife...

"ONE TOUCH OF NATURE."—No wonder that velocipedes should become the rage—they can travel at a marvelous pace—downhill.

"This is capital ale!" said an old toper; "see how long it keeps its head."

You can judge of a man's religion very well by hearing him talk, but you can't judge of the piety by what he says...

An Irish juror having applied to the judge to be excused from serving on an account of deafness, the judge said, "Could you hear my charge to the jury, sir?"

A reporter, in an article on the destitute poor, spoke of the great number of persons reduced to poverty by the "mysterious decrees of Providence."

THE FOLLIES OF FASHION.—An elderly matron seeing two ladies walking the street the other day, asked a neighbor if she knew what it was they had hanging down their backs.

A NEW VERSION OF THE MARRIAGE SERVICE.—A somewhat obtuse Sheffielder has the honor of having struck out a new reading of the marriage service.

Can a good cooper be said to be a staver at his business. Are spider-legged men peculiarly subject to cobwebs on the brain?

A HISTORICAL QUERY.—Which would one naturally suppose to be the best of all Cæsars? A gripper, to be sure!

SAD BUT TRUE.—Those who sow wild oats sometimes reap hemp.

Established 1845. NEW YORK LIFE INSURANCE COMPANY. Assets, January 1st, 1868, Over Ten Million Dollars! PRESIDENT: MORRIS FRANKLIN, ESQ., Vice President and Actuary: WILLIAM H. BEERS, JR. HEAD OFFICE 112 & 114 Broadway, N.Y. General Agent for the Dominion of Canada: WALTER BURKE, ESQ., Herald Buildings, Montreal. The New York Life Insurance Company IS ONE OF THE OLDEST INSTITUTIONS Of the kind in America, having been chartered in the year 1811, and continued business in 1845. During the twenty-three years of its existence, it has issued policies upon the lives of more than Fifty Thousand Persons, and has paid in losses \$5,000,000 to the families and representatives of those who have deceased while members of the Company. Annual Income EXCEEDS Four Million Dollars. A SAFE INVESTMENT. The instances are many within the experience of every Life Insurance Company, in which the proceeds of a Policy has saved from poverty the survivors of those who have thus made provision for their wants in times of prosperity and health. A wife may insure the life of her husband for her own benefit, and should she survive him, the amount of the insurance will be payable to her free from any claims against his estate; and in case of the death of the wife before that of the husband, the amount of the insurance may be made payable to her children. THE COMPANY DECLARES ANNUAL CASH DIVIDENDS which are available in payment of each Annual Premium. All the insured in this Company receive dividends which can be used in part of the second and each subsequent Annual Premium thereafter; or the dividend may be allowed to accumulate, and subsequently used in whole or in part in the payment of Premiums. The business of the Company being PURELY UTUAL, each member pays only the average cost of insurance, all surplus being annually returned to the Policy holders. (Companies having a Stock Capital usually retain a large portion for the Stockholders.) The Dividends paid to Policy holders exceed \$3,000,000. Endowment Assurance Policies. These Policies are coming into general request As a sure and profitable investment for one's declining years, they deserve the attention of all. The sum secured by an ordinary life policy becomes available upon the death of the assured; on the Endowment plan the amount is received by the assured himself upon his attaining a specified age, while full provision is made for death occurring prior thereto. THE NON-FORFEITURE PLAN. This company originated and introduced the valuable feature known as the Non-Forfeiture Plan which is rapidly superseding the old system of life long payments, and has revolutionized the system of Life Insurance in the United States, and which has been adopted (generally in a less favorable form) by all Life Companies. A party, by this table, after the second year, cannot forfeit any part of what has been paid in. Tables of Rates, Circulars, Examples of Dividends, Forms, &c., can be had by applying to the Agent, at Charlottetown. MEDICAL EXAMINERS: DR. MACKIESON, DR. R. JOHNSON. Agent for P. E. Island: HENRY A. HARVIE. Charlottetown Nov 19, 1868. Grand Diet of Worms, DISSOLVED BY WATSON'S SCHEDELION, WHICH is offered to the public as a perfectly safe, pleasant and efficacious expeller of Worms from the human system. As this preparation contains no mineral ingredient, the administration of it to young children is not followed by the dangerous and, in many cases, fatal consequences resulting from the use of many of the Vermifuges at present before the public. A compliance with the directions accompanying it will prove it deserves the character claimed for it above, while the promptness and painless character of its action render it the cheapest and safest remedy for worms hitherto discovered.
