THE GOVERNMENT'S ECONOMY.

WHILE increasing the public expenditures on the whole, particularly where they will "do good" in elections, the Government have, it must be admitted, retrenched in some respects. Here, for instance, is a statement showing how they have economized in the purchase of meat for the poor:

PRICES PAID BY CONSERVATIVES.

1889, beef at \$6.00 per hundred.
1890, " " 6.00 " "
1891, " " 5.50 " "

PRICES PAID BY GOVERNMENT.

1892, beef at \$3.38 per hundred.
1893, " " 3.88 " "
1894, " " 3.94 " "
1895, " " 3.50 " "
1898, " " 2.63 " "
1899, " " 2.60 " "

We leave the electors to judge of the kind of beef that is served the unfortunate in the poorhouse compared to our Government's care at \$2.60 per hundred pounds!

TO THE ELECTORS OF PRINCE EDWARD ISLAND.

As the Government have issued their mandate for a general election on the 12th of December and you will be called upon to choose representatives to manage your affairs in the next parliament of this Province, it is fit and proper that a retrospect be taken and a true estimate formed of our position and financial standing as a Province.

The term of the Legislative Assembly, just dissolved, had many months remaining, and much surprise is expressed that the electors should have been put to trouble and annoyance at this unseasonable time.

However, it is evident that the Government are acting on the assumption that the present time is auspicious, owing to the result of the recent Dominion election. They hope, by this sharp movement, to obtain a snap verdict from the electorate in order to hold on to power for a further term.

A stronger reason for this unconstitutional appeal to the electorate at this time seems to be a desire to secure the vote before the people have had time to examine the public accounts showing how rapidly the debt of the Province has been rolled up.

Previous to the election of 1897, attention had been directed to the reckless and wasteful extravagance which obtained in the public service, and it was hoped that better methods would be adopted. On the contrary, notwithstanding the promises of the Government to make revenue and expenditure meet, it is found that the debt has increased enormously, by leaps and bounds, the balance against the Province being many thousands of dollars greater than a year ago. It will be found, when the accounts are before the public, that the property holders will have good cause for serious alarm.

The electors looked for great improvements from the party in power. This party asserted that they would manage affairs better than any previous administration. They solemnly declared that "taxation was a long way off," and promised that they would reduce the public expenditure. They denounced the idea of a Provincial debt. The system of borrowing at the banks was severely condemned.

They promised the electors that the claims of the province against the Dominion government would be speedily settled,—failing which the matter in question would be submitted to arbitration.

It is not possible to enumerate all the promises given and pledges broken within the compass of this brief address. Suffice it to say, that the people have been deceived and disappointed.

The public service has been degraded; the system of expending the moneys granted for road service without competition, has become a public scandal, and the people have decided that the money shall be applied to the purpose for which it was voted, and not to government officials and their favorites. It may be asked—What is the policy of the Opposition?

The Opposition hold that the government should adopt measures to recover all moneys due this province from the Dominion.

That the financial position of the province shall be ascertained exactly, and means devised for making revenue and expenditure meet for the future.

They assert that the whole Road System is corrupt and inefficient and requires to be re-modelled.

They demand that the law which now permits absentee representation be so amended as to prevent a repetition of the recent abuses.

They condemn the mismanagement of the Stock Farm, and the failure of government to give proper encouragement to agriculture and fruit-growing.

They insist that no public money shall be expended in excess of the

needs of the legislature, unless in case of urgent necessity.

Provision will be made for a quarterly publication of revenue and expenditure.

A radical change will be made in the administration of the Public Works Department so that the money now misapplied, shall be used for the purpose intended, and not for the benefit of private individuals as is now the custom.

Every department will be carried out in every department.

Taxation will be arranged upon a more equitable basis and kept down to the lowest limit consistently with the needs of the public service.

The resources of the Province will be safeguarded and husbanded by every legitimate means that can be devised.

With these assurances and holding those views, the Liberal-Conservative party appeal to you, the electorate of the whole Province for your approval and support, firmly convinced that upon due consideration a right conclusion will be arrived at, and that the present Government will meet, as it deserves your condemnation at the polls on the 12th day of December.

I have the honor to be, Gentlemen, your obedient servant,
D. GORDON.

Itching, Bleeding Piles

Mr. W. G. Phyll, proprietor Bodega Hotel, 36 Wellington Street East, Toronto, says: "While living in Chicago I was in a terrible state with itching and bleeding piles. I tried several of the best physicians and was burnt and tortured in various ways by their treatments to no avail, besides spending a mint of money to no purpose. Since coming to Toronto I learned of Dr. Chase's Liniment, I used but one box and have not been troubled with piles in any shape or form since."

How One Gets Bilious
