YOUR PROGRESSIVE CONSERVATIVE CANDIDATE FOR PRINCE COUNTY OVER

CJRW, TUESDAY MAY 15th, AT 2.35.

When other major manufacturers have so many sizes and models why does Rambler offer only 3?

The market has been flooded with cars of every shape and size. There are small cars, compact cars, medium-size cars and large cars. In spite of this, our competitors continue to add new models each year. We feel they know the public wants sensibly-sized cars but are reluctant to drop existing lines. We have no such problem.

We have stressed maximum usefulness to the user. Our guiding policy has been "no change for the sake of change". And this included costly styling changes. Rather than add to the variety of models and sizes, we have concentrated on major improvements.

We went into this field because we knew the kind of car you were looking for. And we continued to build only sensibly-sized cars because we believe in them. We offer only three Ramblers. The economical American, Canada's lowest priced compact, the all-purpose Classic with \$1,000 worth of extras and the luxurious Ambassador V-8 that gives you top performance. We believe that from these three you may choose the car you want and need.

This year we added self-adjusting Double-Safety brakes, found only on Cadillac among North American cars. And we have provided a factory installed battery and coolant, both guaranteed for two years. In addition, we have been able to substantially reduce our prices while giving you these extra values.

For an outstanding example of sanity in the showroom, visit your Rambler dealer soon. Take a test drive in Rambler, Canada's best all round car value.

From the introduction of our first Rambler,
