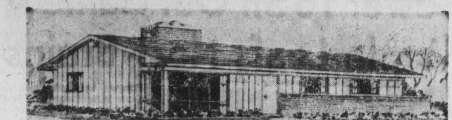
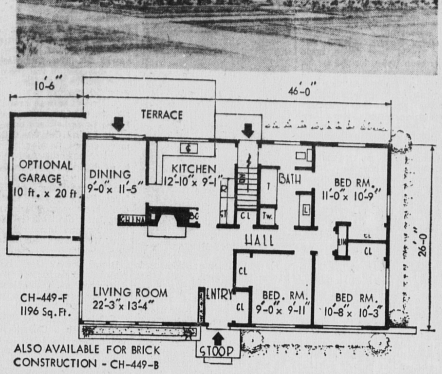
GUARDIAN-PATRIOT HOME OF THE WEEK





ALSO AVAILABLE FOR BRICK CONSTRUCTION - CH-449-B

One of the most practical aspects of this very popular three bedroom home is the economical grouping of the plumbing. Note how the lavatory is accessible from the rear entrance, basement and kitchen but still serves the bathroom. The large living-dining area has a front corner window, fireplace, built- in china cabinet and rear exit to the terrace. Kitchen is compact and functional with plenty of upboards. Bedrooms have large closets. Frame exterior is accented by low brick wall and planter. The same design is also available for Solid Brick or Brick Veneer construction. Ask for Design No. Ch-44 9B. A plan for optional attached garage is included with Blueprints.

HOW TO OBTAIN DESIGN BOOK

The latest design book entitled "Canadian Guide to Home Planning and Design" is now available at the offices of The Guardian and The Evening Patriot for $1, tax free. This new edition includes information on financing in Canada, building construction details, landscaping, color selection, etc., plus over 100 popular new designs to choose from. Also included are full details on how to order blueprints.

CARDIGAN

Mrs. Everett Moore, Union Road, has accepted the position of principal of Cardigan School, replacing Mrs. Elwood MacIntyre of Lorne Valley, who resigned at the end of the fall term.

William Faulkner, teacher at Montague Regional High School, has returned to Montague following holidays spent with his parents at Eastern Passage, N.S.

Judy Macdonald, nurse-in-training at the Charlottetown Hospital, spent a few days in Cardigan this week visiting relatives and friends.

Mrs. Margaret Donahoe, mother of Mrs. Alban Brothers, Cardigan, and a former resident of Roseneath, is a patient in Massachusetts General Hospital in Boston.

Charles MacLellan, Brooklyn, N.Y., arrived by air to attend the funeral of his father, Anthony MacLellan of Cardigan.

Joseph G. Campbell of Poplar Point is receiving treatment in the Kings County Memorial Hospital at Montague.

LORNE VALLEY SCHOOL

Grade VIII: 1. Winston MacLeod; 2. Douglas Ferguson; 3 John MacGrath.

Grade VI: 1. Eleanor MacDonald.

Grade V: 1. Judy MacLeod; 2 Blair MacLeod.

Grade III: 1. Eileen Shaw; 2. Barry MacLeod; 3. Corinne Shaw.

Grade II: 1. Heather Shaw; 2. Debra MacDonald.

Grade I: 1. Boyd Shaw; 2. Donna MacLeod; 3. Shane Shaw.

Geraldine Curran, teacher.

TRAINING ASIANS

Some 6,000 Asians are being trained under the Colombo Plan.

Scottish Group To Tour Canada

GLASGOW (CP)—A Scottish trade mission to Canada in the spring is being sponsored by the Council for Scottish Chambers of Commerce with the aim of increasing trade between the two countries. The trip is provisionally dated May 6-20.

The 75-member mission will fly from Prestwick to either Halifax or Montreal. Apart from these two cities, the itinerary will include an official visit to the British Columbia Trade Fair at Vancouver.

The idea was originally sponsored by the Edinburgh Chamber of Commerce, said the president of the Glasgow chamber, J. Crawford McKell, announcing the visit. But it had been widened greatly in scope and now was intended to be an all-Scotland party.

McKell said he hoped Scottish firms with Canadian interests would respond favorably to the mission and added, as a token of success, "Canadian hospitality is legendary."

Five Sentenced On Drug Charges

TORONTO (CP) — Four men and a woman have been sentenced to prison terms totalling 70 years following a trial in which police claimed they had scuttled Canada's largest narcotics ring.

Charles Cipolla, 50, of Guelph, Ont., was sentenced tp 20 years. Oliver C. Hardy, 49, Jack Meldrum, 43 and James McGrath, 50, all of Toronto were given 15 years each. Marion Burns, 33, also of Toronto was sentenced to five years. All were charged with conspiracy to traffic in narcotics.

SEES BIG CANCER TOLL

SALFORD, England (Reuters)—One million persons in England and Wales will die of lung cancer caused largely by smoking between now and the year 2,000, according to an annual report by Dr. J. L. Burn, chief medical officer for this industrial city in northwest England.

Will Of God Is Sermon Topic In Alberton Week Of Prayer

ALBERTON — At Alberton week of prayer service Wednesday, Rev. Keith Hobson directed the thoughts of his hearers to knowing and doing the will of God.

"It is important to be bible students," he said, "not just to know the bible but to know God's will for you. God gave us His holy word that we might know Jesus Christ.

"Clever people," he added, "are very dangerous unless they are controlled by the will of God. It is important to use our common sense to His glory —to look life straight in the eye and then meet it."

He stressed the importance of ministering to the moral and spiritual needs of children for, he said, "They will always be square pegs in round holes unless they know the will of God."

One can never divorce the gospel from a good life. It is important to attend church but men and women are tested on how well they live the good life. This needs a lot of prayer.

A Christian life is Christ's life lived in the world today, he concluded.

The final words of the message were, "the most important thing you can pray for is that you may know God's will and fit into it."

The worship was conducted by Brown Jardine. The soloist, Miss Marion McEwen, sang "The Stranger of Galilee."

Prayer Said Communication With Creator By Preacher

SUMMERSIDE BUREAU OF THE GUARDIAN

"Prayer is powerful; prayer need not be fruitless", Very Rev. C. Ritchie Bell, DD, said Thursday at the Summerside Presbyterian Church during the fourth sermon in the series, "A Christian's vital breath".

Dr. Bell said, "Prayer that becomes vital communication with God makes the wisdom, the power, the love and the grace of the Creator of the universe available. Of course", he said, "Prayer that is a mere recital of the things we would have God do, falls far short of this.

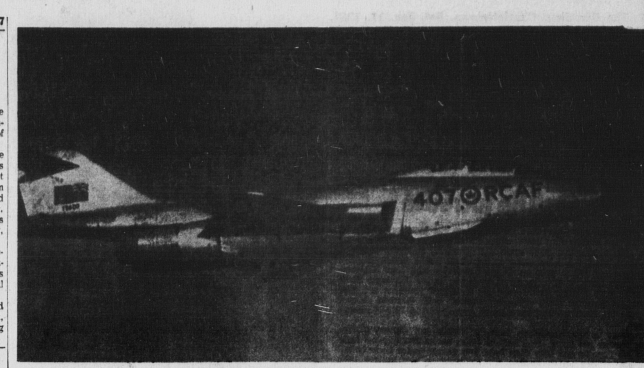
"Prayer is a vital spiritual relationship", he continued, "and far more than a means of acquiring things or of doing things. Answer to prayer is more than a mysterious divine intervention. Prayer is finding access to the operating power of the universe and the answer to prayer comes from a willingness to have the power, wisdom and love of God flow through us".

The service was led by the minister, Rev. J. Donald MacKay. A solo "Hast Thou Not Heard?" was sung by Mrs. Horace Estabrooks, Bedeque. The choir, under the direction of William F. Conkey, sang the anthem "Be Thou My Vision". Organist was Raymond Pleau.

The concluding service will be held this evening in Trinity United Church at 7.30 p.m.

MOOSE POPULATION

British Columbia's 1963 moose population has been estimated by government officials at between 300,000 and 500,000.



VOODOOS TO GET NUCLEAR WARHEADS

Nuclear warheads for RCAF squadrons at three Canadian bases flying the type of aircraft shown above — the CF-101 Voodoo — will likely be delivered late this year, Associate Defence Minister Cardin announced Friday. Nuclear weapons storage facilities for the Voodoos will be built at Chatham, N.B. Bagotville, Que., and Comox, B.C., as well as at a deployment base at Val d'Or, Que. The statement also said the RCAF is disbanding two Voodoo squadrons at Ottawa and North Bay.

Lightning-Safe Fuel Tanks Are Suggested For Aircraft

WASHINGTON (AP) — To help prevent lightning-induced explosions in commercial airplanes, the Civil Aeronautics Board has proposed major redesign of fuel tanks.

The proposals, made public here, were among half a dozen submitted to the Federal Aviation Agency Dec. 17 in connection with the C.A.B.'s continuing investigation of the Dec. 8 jet airliner explosion near Elkton, Md. All 81 persons aboard the Boeing-707 jet of Pan American World Airways were killed.

The FAA already had recommended that "wicks" to discharge static electricity be installed on all jet-powered aircraft. The ill-fated jet, the first put into service by Pan American, was not so equipped.

Although experts disagree as to whether the wicks are useful, the FAA said on Dec. 18, all the airlines had responded promptly, and promised that all 117 jets lacking the static discharges would be equipped with them.

The C.A.B. suggested that the FAA, as maker of safety rules, also consider requiring that only one jet fuel, to be designated as Jet-A, be used in commercial air operations.

The board said petroleum industry vapor flammability charts show that a plane using Jet-A fuel would operate a much shorter time, on each flight, with vapor in "flammability range," compared with a plane using some other jet fuel.

The FAA said it is studying the characteristics of the two basic jet fuels—JP-1 which is kerosene, and JP-4, a kerosene-gasoline mixture—to determine whether safety margins might be increased.

FIRST EXCHANGE

The first telephone exchange in Canada was installed at Hamilton.

FIX-UP YOUR HOME NOW

WHY WAIT FOR SPRING? DO IT NOW!

Home Improvement Loans can provide for these and many more:

- repairs and alterations to the exterior and interior of your home.
