THE DAILY EXAMINER

AUGUST 30, 1897.

A DASTARDLY ACT.

Some Particulars of the Killing of President Borda.

New York, Aug. 26.—A despatch to the Herald from Montevideo, via Buenos Ayres, gives the details of the assassination of President Idiarte Borda.

Montevideo was in gala attire in celebration of the independence of Uruguay, which was proclaimed on August 25th, 1825.

The day, according to the programme which had been mapped out, was one replete with festivities and feasts.

EASTERN NEWS NUGGETS.

What is the object of a certain young man's visit to Martinvale?

We are pleased to learn that Miss C. E. Gay has recently arrived from California after an absence of several years.

We notice that A. Gay, Esq., is preparing to burn a kiln containing about 60,000 bricks and hope to have them in the market by the last of September.

On Aug. 23rd a fatal accident occurred at A. S. Morson's mill-pond, D. W. McKay, aged 16, eldest son of Neil McKay, Esq., was drowned while swimming.

On Friday, August 20th, Albion Lodge, No. 63, I. O. G. T., received a fraternal visit from Martinvale Lodge, No. 1.

They regretted they were not prepared to entertain them in a more gracious manner, as they were not expected so soon.

A few evenings ago Mr. Birt, of Martinvale, had a very narrow escape from a serious accident. He had driven Miss B. L. Beer, teacher of Mount Hope district, home from the I. O. G. T., and while returning his horse became unmanageable.

Nervous Weak Tired

Thousands are in this condition. They are despondent and gloomy, cannot sleep, have no appetite, no energy, no ambition.

Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists. \$1. Hood's Pills cure Liver Ills. 25 cents.

THE DEFONSAK CLAIM.

Only Wants the Land Valued at One Million of Dollars.

In regard to the grant given to Nicolas Denis, Vicomte de Fronsac, royal governor of Acadia, etc., mentioned throughout the first part of Murdoch's History of Nova Scotia and elsewhere, and whose papers are on file in Paris, and what his heirs claim are two different things.

The remaining land grants of the De Fronsac on the Miramichi and in Prince Edward Island, are on the same basis as their claims in Cape Breton.

These grants are protected by the 32nd article of the Treaty of Paris of 1763, which ceded Canada to England, and as there is no barrier such as a statute of limitation to effect them, the validity of the claim rests on what proofs the heirs can gather together.

Now-a-days nearly every woman rides a bicycle. The majority of these who do not, have failed to compass this difficult feat because of nervousness.

Dr. Pierce's Favorite Prescription is a sure, speedy and permanent cure for all troubles of this description. It acts directly on the sensitive organs concerned, making them strong, healthy, vigorous and elastic.

GOWN GOSSIP.

Plaids are used as garnitures, waists, vests and sometimes as deep points at the hems of skirts.

The silk shirt waist is one of the fads of the moment, and to own from one to a half dozen of these is the pleasure of all well dressed women.

It is one of the pet economies of the economical woman to own a black satin skirt and waist and to wear them pretty nearly everywhere she goes.

Fancy waists of thin material are plaited lengthwise and tucked crosswise, a combination of trimming which seems to be rather excessive.

Some of the new skirts have the flounces placed flat, so that they require very little gathering, indeed some of them none at all.

Shoulder capes are the daintiest and prettiest creations imaginable. They are made of frills of thin material, either with embroidered edges, or, if of plain goods, trimmed with lace before being plaited.

There is little that is radically new in shirt waists. The yokes are quite square across the shoulders of some of the newest designs, and there seems to be more fullness gathered into the belt than in many of those heretofore mentioned.

Pretty dresses of gingham are made with plain skirts trimmed with a flounce of the material and edged with some of the neat ready made trimmings that are so much liked.

A United States historian says that "the first coins struck by the United States mint were some half dimes in 1792. The first dimes were struck in France from old silver family plates furnished by Washington, the coins being known as 'Martha Washington dimes.'"

An Old and Well Tried Remedy.—Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething with perfect success.

BRITISH MILITARY STRENGTH

Significance of the Suppression of the Indian Revolt.

LONDON Aug. 25.—Though acute crisis in affairs on the frontier of British India seems to have passed, there is no doubt that there has been genuine cause for the scare which has prevailed.

The speedy nipping in the bud of this dangerous insurrection has demonstrated the splendid state of preparation to which the British army in India has been brought.

TREES AND LUMBER.

A cubic foot of logwood weighs 57.07 pounds.

The strength of wood increases with its density.

White poplar weighs 33.06 pounds to the cubic foot.

Satinwood weighs 55.31 pounds to the cubic foot.

Pitch pine, on account of the character of its sap, requires an apparently abnormal time for seasoning.

Live oak, when green, weighs 78.75 pounds to the cubic foot; when well seasoned, 66.75 pounds to the cubic foot.

Virginia yellow pine when freshly cut weighs 47.8 pounds per cubic foot. After two years' drying this weight is reduced to 34.3 pounds.

Immature wood—that is, the wood of a tree which has not attained its full growth—is said not to be so durable as the wood of a fully grown tree.

The highest trees in the world belong to a species of eucalypti found in Australia. Single specimens have grown to a height exceeding 400 feet.

The hardest varieties of trees, such as mahogany, ebony and lignum vitae, grow in tropical climates, but their wood does not season as well as that of trees in the temperate zones.—St. Louis Globe-Democrat.

PITH AND POINT.

Ice water knocks out more people than pugilists.

No man gets as much mail as he seems to expect.

It is a great luxury to feel good natured when those around you are cross.

Our idea of a thoroughbred is a man who has two pairs of good pantaloons, with suspenders for each pair.

A girl is apt to regard a father's protests as old fogyism, but a sensible brother is very useful to a silly girl.

After a bride has appeared in public in all her new clothes life ahead looks as stale and uninteresting as life on a farm.—Atchison Globe.

MESSAGE TO MEN

Proving that True Honesty and True Philosophy Exist.

If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly, excesses or overwork, will take heart and write to me, I will send him confidentially and free of charge the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, loss of Vigor and Organic Weakness.

I have nothing to sell, and therefore want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist any fellow-beings to a cure.

I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all.

Send 5c silver to cover postage and address Mr. G. Strong, North Rockwood, Mich. 135 p&w.

Dr. Clift treats Chronic Diseases by the Salisbury method of persistent self-help in overcoming past errors and removing causes from the blood.

TROTTERS AND PACERS.

Halda, 2:08 1/2, has been bred to Cupid, 2:18.

Silkwood, 2:07, is to be raced again in the fall.

Onoqua, 2:03 1/4, is working quarters in 31 seconds.

Major Ewing, 2:16 1/4, is hard to beat on a half mile track.

Trainer Payne expects to campaign a very large stable this year.

Parker S, 2:20 3/4, by Temple Bar, has been bought by W. N. Kivett, Terre Haute, Ind.

Mr. Abe Johnson of Brockton, Mass., has purchased the 2-year-old bay filly The Nun, by Young Jim.

Mr. N. W. Hubinger's fast pacer Forrest Herr, 2:14 1/2, is entered in \$31,000 worth of slow pacing stakes.

The Village farm mare Valence, by Manbrino King, won a good race in the 2:17 class at Detroit recently.

Colonel Kuser, 2:11 1/4, was shipped to Europe recently in charge of Gil Curry and in company with McVera, 2:10 1/4.

The fast Oregon pacer Chehalis, 2:07 1/2, recently injured one hock slightly in a runaway caused by the bursting of his sulky tire.

The pacer Baby Strathmore, 2:17 1/4, who is winning good races in New England, does not belie her name, as she weighs but 740 pounds.

The handsome little chestnut pacing stallion Sir Edwin Arnold shaved a quarter of a second from his record recently. It is now 2:10 1/4.

J. Malcolm Forbes has apparently a fast one by Arion, 2:07 3/4, Nico by name, who has stepped a half in 1:09 and a quarter at a 2:13 gait.

George Garth, the Tennessee reinsman, now campaigning in New England, has given three green pacers records of 2:20 or better this year.

SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Heartly Eating.

Small Pill. Small Dose. Small Price.

Substitution the fraud of the day.

See you get Carter's, Ask for Carter's, Insist and demand Carter's Little Liver Pills.

DR CLIFT

treats Chronic Diseases by the Salisbury method of persistent self-help in overcoming past errors and removing causes from the blood.

Shortness of Breath, Pleurisy, Tuberculosis Consumption of Lungs or Bowels, Indigestion, Dyspepsia, Gastritis, Ulcer, Cancer, Dropsy, Diarrhoea, Dysentery, Constipation, Piles, Fissures, Fistula.

Diseases of Heart—Valvular, Fatty Enlargement, Palpitation, Of Liver—Jaundice, Diabetes Cirrhosis, etc. Of Kidneys—Allaminuria Bright's Disease, etc.

Of Spleen and Bladder—Cystitis, Of the Blood—Anæmia, Chlorosis, Scrofula, Malaria, Rheumatism, Gout, Sciatic, Scurvy, Purpura, Of the male Organs—Inflammations and Displacements of Womb, Ovaries, Bladder or Bowels. Menstrual irregularities of Sexual Organs. Of Nerves and Spine.—Nervous Prostration, Sleeplessness, Decline, Hysteria, Tremors, St. Vitus' Dance, Chorea, Epilepsy, Convulsions, Paralysis, Locomotor Ataxia, Paralysis, Agitation, Softening of Brain. Some forms of Insanity—Dementia, Mania, Hypochondria, Melancholia. Failure of Vision and Voice, etc.

Of Skin—Eczema, Salt Rheum, Erysipelas, Syphilis, Tumors, Glandular, Fatty Fibroid, Uterine, Ovarian and Cancer, Gout, Cretinism, Oesophy, Copulation. Drug and Liquor Habits, Opium, Morphine, Chloral, Cocaine, Tobacco, Stimulants, Of Bones and Joints—Deformities, Curvatures, and Pott's Disease of Spine, Paralysis, Hip Disease, Knock-knee, Bow Legs, Club and Flat Foot, Wry Neck, Rickets, Scrofula, Sore Legs, Varicose Ulcers, etc.

Continuous intelligent treatment insures Minimum of suffering and Maximum of Cure, possible in each case. Avoid attempts unaided or under blind leaders.

KLONDYKE!

The Land of Golden Nuggets

JOSEPH LADUE, the new Bonanza King of the Klondike, dike Gold Regions, gives the facts. His book reads like "The Arabian Nights" BUT Joseph Ladue KNOWS whereof he writes.

Established Dawson City,

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue.

He has just returned from that country to his old home in Schuyler Falls, N. Y., where he passed a large portion of his boyhood and early manhood.

Mr. Ladue left his home nearly twenty years ago to seek his fortune in the West, going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific Coast, and finally located in Alaska and the North West, where he has covered almost the entire country since 1882.

Mr. Ladue is a typical pioneer; strong, hardy and resolute—a man of iron as one must needs to be to go through the hardships he has and come out with a constitution unbroken and unimpaired at the age of about forty-three.

Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods far beyond the dreams of men, but he has evidently all his time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centres upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most unfavorable conditions was held to be incredible.

But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space), people began to wonder, and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man alive to day who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical.

It has not been gained from hearsay nor from desolatory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

"KLONDYKE NUGGETS"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

NOMINAL OFFER.

which places the facts in the possession of our customers. REMEMBER, that our office is the sole distributing point for this locality, having closed exclusive arrangements with Mr. Ladue's publishers.

The cover of the work is beautifully printed in red and gold, the gold showing one of the author's nuggets as nearly as it is possible to reproduce it on paper.

It is easy to secure a copy of "KLONDYKE NUGGETS."
