THE TURBINE CAR

from CHRYSLER CORPORATION arrives in (NAME OF CITY and DATE)

This is the revolutionary car that runs on one spark plug. No pistons. And it performs equally well on diesel fuel, kerosene, unleaded gasoline, jet aircraft fuel—or any mixture of them. It is the first car specifically designed for the Turbine engine. The body is by Ghia of Italy. Its lines elegantly reflect a turbine motif. The interior is lush, leather-appointed. The instruments are unique. Come and see it. Listen to the exciting sound of its engine. The Turbine Car is the newest and most exciting example of the engineering superiority and imagination that is built into every Chrysler product.
