

leaf by hand, and who when, as boys, thus toiling at the "quar," felt as fatigued as well could be, the recollection of which has since recalled the miserable condition of the poor slaves of whom Homer writes, who ground under such a continual pressure of such weary toil? Are there not those who remember when flour could not be had separated from the bran, at any flour mill in this island? Are there not some women yet alive who remember how often their arms became wearied in handling a heavy sieve, when sitting the flour? Are there not women too who remember how from day to day, for weeks in every year, they had to card the wool, and the weariness and toil of which still lingers in their recollections? Are there not many who remember how the cloth was filled at one time, to the great annoyance of every tidy woman? Are there not those who remember the time when there were no threshing machines, and the slow process of the flail was the only mode of separating the grain from the straw? Are there not those who well remember when there were no shingle or lath mills, and when it was almost impossible even to get enough boards sawed to cover a house? To all these queries we answer in the affirmative. And what has relieved our people from these burdens? Was it not our friend at the bar? How is it that we can now hear in any section of the country the noise of the threshing machine? How is it that we can have flour ground that will compare with any imported? How is it that we can have boards, shingles, and laths of an excellent quality? How is it that we hear of such a factory as Stanfield's, where they clean, card, spin, full, press and dress cloth? The answer is, the introduction of machinery has done this.

In a word it is not to machinery that the civilized world is indebted for most of the numberless comforts which mark the great contrast between man in a civilized and in an uncivilized condition? Are we not indebted to machinery for lessening the cost in the production of almost every, if not all, of the articles in daily use by every person in our land? Does not machinery come in as an able, willing and indispensable friend, to lend his efficient aid in every department of labor? Can we look to the right, or to the left, behind or before, and fail to perceive what the civilized world owes to machinery? We might pursue the subject for weeks, but deem it unnecessary. Shall such an uncalled for duty continue to be forever placed upon our statutes, as a barrier to the introduction of a power from which arises so many of the indispensable aids to human comfort and industry?

"Forbid it Pen; for thou canst conquer error. Forbid it Press, 't' carries truth or error To the hard bosom of unthinking men— Pen, Press and Speech—creators of opinion— Combine, remove it, and thus fulfil thy mission; To remove't belongs unto thine kindred mission."

We hope and trust that the present Legislature now convened will wipe out this long borne burden on our country's enterprise, and allow all machinery to come in free of duty.

SEED WHEAT.

We would advise those farmers who wish to raise a good crop of wheat—and who does not?—to at once secure some of that excellent CANADA SEED WHEAT, advertised in our paper, for sale at the Stores of David Rogers and Lemuel Vickerson, Esqs., and at the Mills of Messrs. Jesse Wright & Son, in Bedouque. We have it from these gentlemen, and others who have tested its quality, that it is a superior seed, and is warranted to be a Spring Seed Wheat. We hear that it has been reported by some evil-disposed party in the country that the Wheat on sale by these gentlemen is not Spring Seed Wheat. We contradict this false accusation, on the word of Mr. Wright. The wheat crop in this Island has for the past few years been a great failure, while at the same time it has been on the increase in Canada. We do not pretend to say exactly what the cause may have been, but we doubt not that a good deal of the failure is owing to the bad seed sown. Change the seed this year, and see what results will follow.

FIRE!

A fire broke out yesterday morning, about 10 o'clock, in the house occupied by Mr. George Harvey, on St. Stephen Street. The Fire Company with the Fire Engine were soon on the spot. A good supply of water, principally from the river, was kept in the Engine, and by the exertions of the Company and the large number of people who had assembled, the fire was confined to the one house, and completely extinguished; not, however, until the house in which it broke out had been pretty well destroyed inside. The wind at the time was blowing very strong from the north, and the house on fire being in the centre of a cluster of buildings, almost adjoining Mr. Hibbet's Hotel, it was thought at first there would be a big fire; but thanks to a kind Providence and the noble exertions of the inhabitants, who worked well, we have been saved such a dire calamity. We must add that the Fire Engine was in good order. The origin of the fire is not exactly known, but it is said to have originated from a stove pipe. We understand the house was insured.

A Dredging Machine.

The Hon. Mr. Haythorne said in the Legislative Council last session that "Dredging Machines are no doubt desirable to improve our harbors, as well as for the purpose of raising manure to enrich our fields." We endorse this statement, and would be glad to see the House of Assembly voting a sum which would enable the Government to procure one for the use of the Colony.

It has come at last. What has come? Why a heavy thaw, and the snow has got a great fright. The wells and springs have been replenished, something very much needed

We had the pleasure of taking tea with the members of the Sewing Circle, on Tuesday evening last, in Messrs. Strong's Hall, where they meet once a week to prepare for the Bazaar promised next Summer. We were shown some very beautiful plain and fancy work, highly creditable to the Ladies who have performed it. We were also shown some very handsome presents given by W. E. Dawson, Esq., and his lady, W. Brown, Esq., and Mrs. John Higgins, of Charlottetown. We are glad the friends in the City have not forgotten the Bazaar. Let those who wish to spend a pleasant evening and enjoy a good tea, go next Tuesday to the Circle, and go "prepared."

We heard the other day of one farmer, not many miles from here, who has already this winter, covered 20 acres of land with Mussel Mud. This man will soon have a gold mine on his own farm. Very large quantities are taken up on this river every day.

On Monday evening last Mr. T. Kirwan gave readings from the Poets, before the Summerside Debating Club, to a very large audience. On Monday evening next, the 17th instant, Dr. Homer will deliver a lecture on the subject of the 'Special Senses.'

THE LECTURE.—What Lecture? The one on the Indian Mutiny, by the Rev. Mr. DesBrisay, in Strong's Hall, this (Thursday) evening. This is all the talk just now, and a rich treat is expected. Ain't you going?

On Friday last Charles Gregor, Esq., Brackley Point, brought into the City, and sold to Mr. Robert Bell, 15 fine hogs, whose total weight was 5,992 lbs. Mr. David Miller, of the same place, had 8 hogs in Market, which he also sold to Mr. Bell. The total weight of these was 2,129 lbs. Ben. Wright, Esq., Royalty, sold 6 fine pigs this week, which together weighed 1,797 lbs., and for which he had no difficulty in getting 50 per lb. During the last nine years Mr. Gregor gave Mr. Robert Bell 156 Pigs, which weighed in the aggregate 56,881 lbs., worth about £1,500.—Patrol.

ELDER D. CRAWFORD will preach (D.V.) on Lord's day next, in the Christian Meeting House, Summerside, at 11 o'clock in the morning and at 6 1/2 o'clock in the evening.

Dr. Wistar's Balsam of Wild Cherry.

In the whole history of medical discoveries no remedy has performed so many or such remarkable cures of the numerous affections of the throat, Lungs and Chest, as this long tried and justly celebrated balsam. So generally acknowledged is the superior excellence of this remedy, that but few of the many who have tested its virtues by experience fail to keep it handy as a speedy and certain cure for sudden attacks of cold—fully believing that its remedial powers are comprehensive enough to subvert every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

UNSOLICITED TESTIMONY. From Rev. FRANCIS LONDEL, Pastor of the South Congregational Church, Bridgeport, Connecticut.

"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of Dr. Wistar's Balsam of Wild Cherry. I have used it when I have had occasion for any remedy for coughs, colds, or sore throat—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturdays, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty. I commend it to my brethren in the ministry, and to public speakers generally, as a valuable remedy for the bronchial troubles to which we are peculiarly exposed."
