THE DAILY EXAMINER

APRIL 13, 1899.

MEETING OF THE LEGISLATURE.

The Legislature of this Province will meet for the despatch of business on Monday next—long after the legislature of every other province in Canada (except New Brunswick) has closed. But nature, striving to conform to the dilatory habits of our Liberal legislators, has brought the spring in late this year. A fortnight may be left in which to consider the public affairs of the Province before our representatives have to go home "to put in the crop;" and a great deal, for good or ill, may be accomplished within that period, short as it is. No doubt the Premier, Attorney General and Commissioner of Public Works will have every thing ready to submit, in order that there may be no further loss of time.

So little has been done for the country in the past year that the reports will necessarily be short. We presume, however, that the usual concomitant of Liberal Government—viz, a considerable deficit—will be produced, even though the taxes have been fully maintained and an addition has been made to the debenture debt of the Province. It will be interesting to know where Premier Farquharson obtained the money after his break with our provincial monetary institution, the Merchants' Bank of P. E. Island, and it is but right that the public should know who the public creditors are. Rumor stated that he went to the Credit Foncier,—but rumor is not always right. One thing is certain, the financial position of the Province has, as usual with Liberal administrations, gone from bad to worse. The Government will, consequently, find great difficulty in providing for the public service and those improvements which the progress of the age demands without drawing heavily upon our capital at Ottawa, still further adding to the public debt, and increasing the taxes. There is a need throughout the country for information and assistance in respect to the introduction of new methods of agriculture and horticulture necessitated by the hot competition of advanced farmers in the States and the Western Provinces, where there is a demand for a Provincial Exhibition, and above all, there is wanted the promised Hillsborough Bridge. How these important matters, together with the ordinary business of the Government, will be dealt with in the short time given the Legislature by the Farquharson Administration and straitened circumstances resulting from Liberal misgovernment, remains to be seen.

We note that Premier Farquharson has called to his assistance Mr. Frederick Peters—all the way from Victoria, in British Columbia;—rather, we should perhaps say, the opening of the Fort Augustus district would be dangerous at this juncture and, to prevent that, Mr. Peters must come. The subterfuge will, without doubt, serve Premier Farquharson's purpose. But it cannot be justified. Mr. Peters has changed entirely the conditions which existed when he was elected. He could not have gained the right to sit in our Legislature if he had, at the time of the election, resided four thousand miles away; and he ought not to exercise the right, now that he lives in Victoria. On the other hand it is not unpleasing to think that we have a representative living all but four thousand miles away—yet still in our own country; and that he can, thanks to the Liberal

Conservatives who provided the C. P. R., come here in a week, take a seat in the Legislature of this eastern Province, and give us the benefit of his observations made on the western coast of Canada. Perhaps Mr. Peters will bring with him some new ideas which, applied here, will prove to be valuable. No doubt he has learned much in the Wild and Woolly West; and he may, besides helping Premier Farquharson to tide over the next year, be able to make some suggestions worthy of adoption as remedies for the Liberal blunders of the past.

WHAT ABOUT LIBERAL PROHIBITIONISTS?

The Guardian's refusal to publish the report of the Provincial Branch of the Dominion Alliance was not, it appears, due to any particular objection to the report. Perhaps the Guardian will even endorse the sentiment of the Rev. Wm. Kettlewell, of Galt, Ontario, who recently said,—

"I am so disgusted with the action of the Government in submitting a plebiscite and then feeling the victors that, given the opportunity, I would put it out of power—though I helped to place it there."

That seems to be the proper and natural attitude of all prohibitionists who are in earnest about the matter. We should like to hear more such outspoken language on the part of Liberal exponents of Prohibition. Rev. A. D. Morton, of Shelburne, N. S., has written thus to the Christian Guardian:

"I am now satisfied that the authorities have played a game of bluff, and that the advocates of prohibition have allowed themselves to be duped. To me it would have been a thousand times more satisfactory if Sir Wilfrid, following the example of his predecessor, had manfully said, 'I do not believe in prohibition, and will give no assurance in the matter.'"

This is, without doubt, the feeling of nine-tenths of the Prohibitionists of this country. Will The Guardian make a note of the fact, and advocate, not the "eating of the leek," but the voting down of the perpetrators of the plebiscite trick?

Souris Notes.

The members of the Garrison Amateur Dramatic Society and several of their friends assembled at the American House on Monday evening to hold a farewell party in honor of Miss Annie Walsh, who was about to depart for the United States. After tripping the light fantastic for a few hours, the company partook of a repast supplied by the amiable hostess in her usual good style. After supper several toasts were proposed and responded to by members of the club. The company then dispersed after singing Auld Lang Syne and the National Anthem.

Mr. Ambrose Hughes has been awarded the contract of erecting the new school house. His tender was \$1,987.00.

Capt. Joe Tierney and crew of schooner Nutwood left here Tuesday morning for Halifax to take charge of his vessel.

Mr. Edison Stewart started for Halifax on Monday morning for a few weeks visit.

Miss Velma McKenzie and Miss Annie Walsh were passengers by Monday morning's train en route for Boston, Mass.

Work on the Sour's breakwater is rapidly progressing under the management of Mr. Ramsay.

Capt. Wm. McDonald and crew, who were shipwrecked some time ago, arrived in Souris on Tuesday evening.

Arrah! Company G., has no stragglers. If o'm found in the rare it will be for a reason. Barney is not a coward. Oh! No. Come and see if he is on Wednesday evening at the Lyceum Hall. Admission only 25 and 35 cents. Plan of reserved seats at Reddin's Drug Store.

"HASZARDS" OR "HARTLEYS."

To the Editor of THE DAILY EXAMINER.

Sir,—We have much pleasure in endorsing the remarks of Messrs Geo. Carter & Co., in yesterday's issue of the Patriot with reference to the identity of Haszards' Improved turnip's and, as a little further information on the subject may be useful to the farmers and others we give the history of the genuine Haszard's Improved turnip as follows:—

This turnip so justly celebrated on the Island was first imported from England some years ago by Mr. Henry T. LePage, where it is known by an entirely different name and is very largely cultivated. It certainly does not resemble "Hartleys Bronze Top," and is known as a tankard shaped swede of good keeping quality. Since LePage's time this turnip seed has been imported every season by his successors in "the old stand" and from the same dealer, so that the true strain of our Haszards' Improved has never been lost sight of.

As our predecessors have done before us so shall we continue to import the true seed, and with all the papers and invoices in our possession we can guarantee to the farmers of P. E. Island the genuineness of our Haszards' Improved turnip seed.

Yours truly,
W. GRANT & Co

Chit chat on what to wear and where to buy it.

The prettiest veilings will be found on the veiling counter at "My Store."

Ladies—Is style an object to you? Is price an object to you? Does quality count with you? If so you'll find the hat you want at Sentner, McLeod & Co's.

From now until the end of Spring you can expect about two umbrella days in every week, pouring days, and drizzling days, and days when you'll hardly know whether to carry an umbrella or not; be on the safe side and take it.

Sentner, McLeod & Co. bought about 180 ladies' and gents sample umbrellas at about one half; and you can get one there very cheap, if you need one. Their \$3.00 Gossamer is a wonder for the money.

We've had a big sale of lace curtains this Spring, and are sold out of our \$1.20 and \$1.80 curtains, so we've cut down our \$2.80 line to \$1.80; this curtain cost more at the factory in Nottingham.

Dress goods in plain colors is the correct thing. We are proud of our dress goods, and our stock is large, it is well bought, it is cheap, and the crowds that gather around our dress goods counter is ample proof of the values we are giving.

Sentner, McLeod & Co. The hats at "My Store" are perfect beauties, and so cheap.

When you buy your dry goods here, you'll be pleased and come again; that's the kind of trade we're after.

Sentner, McLeod & Co.

Dodd & Rogers

At The Zenith!

Our stocks of Millinery—Millinery Novelties—Trimmings—Fancy Dry Goods—and Novelties are at Pictou. We will hold a grand opening, and it will give impetus to trade that will quicken daily—we know that the success which will come to us will be but proof of a successful season to the trade generally throughout the Island—quick changes in styles keep us on the alert to have everything up-to-date, and experience has taught you that we're never caught "napping" in having just the right things at the right time—our European buyer has bought the latest novelties—our special American buyer has made a three weeks visit to the American markets, and has picked up some of the latest American goods. While we put particular stress on the advantages of visiting the market, we have a most perfect organization for filling promptly and carefully, orders by mail, phone or wire.
