Reds Demand Recess In Armistice Talks

Progressive Conservative Election Manifesto Issued

GUELPH, Ont. (CP)—Text of Progressive Conservative party election manifesto, read Friday night by Hon. George Drew:

1. We will reduce federal taxes by at least \$500,000,000 a year. This can be done without reducing any pensions, family allowances, other social security payments, or in any way impairing the efficiency of our armed forces.
2. We will introduce legislation exempting municipal councils and school boards from sales tax and excise tax on all purchases of machinery, equipment, instruments and other goods and which will further provide for taxation of all federal government proper-

Truce Talks Not Broken Off However

By George A. McArthur
MUNSAN, (AP)—The Communists, angered by South Korean president Syngman Rhee's release of 26,000 anti-Red prisoners of war, Saturday demanded an indefinite recess in the Korean armistice negotiations.

The full plenary session, called by the Reds, was recessed after 25 minutes at Panmunjon, subject to call by either side.

That meant the Reds did not break off the truce talks, placed in new jeopardy, when an armistice was all but sealed, by Rhee's abrupt release of thousands of war captives in South Korea.

The subject matter of Saturday's critical session was not made public.

But the official Chinese Red radio at Peiping made it clear that the Red delegates stalked into the Panmunjon conference but with a demand that the Allies recapture all of the freed prisoners.

Angry Blasts From Peiping On Release Of Prisoners

By WILLIAM C. BARNARD
SEOUL, (AP)—Peiping radio filled the air Saturday with angry blasts at the mass release of anti-Red North Korean prisoners ordered by President Syngman Rhee.

Nearly 26,000 North Korean prisoners were loose in South Korea. They were promised money, food and medical aid by South Korean officials' meeting in secret session at Pusan, temporary capital.

U.S. patrols searched half-heartedly for the prisoners, unwilling to shed the blood of these foes of Communism but mindful that Rhee's drastic move might spell ruin for an armistice just as it was in sight.

After denouncing the mass release and charging the U.S. army "connived with the Syngman Rhee gargoyle," Peiping reported that the Communists had "demanded" Friday full dress meeting of the truce delegates at Panmunjon.

The South Korean president received in silence a cable from Eisenhower declaring Rhee had violated United Nations' command authority in ordering the release of the North Korean prisoners.

The facts were these: Only about 9,000 anti-Red North Koreans remain in Allied custody whereas the Allies had agreed to turn over more than three times that number to a neutral repatriation commission under terms of the proposed armistice.

Deaths End Day of Frenzied Legal Moves

By Reiman Morin
OSSINING, N. Y. (AP)—Julius and Ethel Rosenberg, silent and without emotion, died in the electric chair Friday night for betraying atomic bomb secrets to Russia.

Julius, treading firmly and unsupported by guards, entered the Sing Sing death chamber first, at 8:04 p.m. EDT, as a chaplain intoned the 23rd psalm by his side. Two minutes later he was pronounced dead.

His wife was then led in, at 8:11, and she was dead at 8:16, just 15 minutes before the last rays of the setting sun betokened the start of the Hebrew Sabbath.

Their deaths ended a frenzied day of dramatic legal moves after the Supreme Court had voided a stay of execution previously granted by Associate Justice William O. Douglas.

There was no demonstration outside the walls of the grim fortress prison on the banks of the Hudson river, but 30 miles away in New York City, at the Rosenbergs' home, police stopped a mass meeting of 5,000 persons as a hysterical wave of screaming and shouting arose as the hour of execution arrived.

Fined \$20 In Margarine Cases

HULL, Que. (CP)—Eighteen Hull grocers pleaded guilty to charges of possessing margarine and were fined \$20 each Friday.

The charges followed a drive by the Quebec government to enforce a ban against the production, sale and distribution of margarine in the province.

These were the first margarine convictions in Hull's history. Originally the grocers were charged with selling, but Crown Attorney Avila Labelle agreed to a reduction in the original charge to that of possessing.

Drew Hopes For Campaign Free From Bitterness

GUELPH, Ont. (CP) George Drew, Progressive Conservative leader, said Friday night, he hopes the present election campaign will be free from bitterness and fought in "a spirit of friendly disagreement."

His remarks were made in a speech prepared for delivery at the opening of his campaign here.

"I trust it is not too much to hope," he said, "that we will be able, during the course of this election, to conduct our political discussions in a spirit of friendly disagreement . . ."

"Where I disagree with the prime minister of Canada it is my duty to express that disagreement, but may I say with deep sincerity that he is worthy of respect as a man who has sought to serve his country according to his own political opinions."

"I have not agreed and I do not now agree with many of his opinions . . . but there have been many occasions when I have warmly commended and supported what he has done. That I think is the way that democracy should work."

Fatally Injured Returning Home From P.E.I. Visit

SAINT JOHN, N. B. (CP)—John DeBlois, 23, of Haverhill, Mass., died in hospital here Friday from injuries suffered in an auto-train collision near Musquash Wednesday.

DeBlois' mother, Mrs. Aldona DeBlois, and his 17-year-old sister are still hospital patients. The fourth occupant of the car, Mrs. Melina Regan, was not badly hurt. The party was returning to Haverhill from Muscouche, P. E. I.

Mr. DeBlois was a native of Haverhill.

Mrs. Aldona DeBlois, the former Aldona Gallant, and her two children, John 23 and Dorothy 17, were returning to Haverhill after visiting Mrs. DeBlois' mother, Mrs. John J. Gallant, age 91 years, of Muscouche. The father, John Gallant, died some years ago. Mrs. DeBlois and her two children arrived home in Muscouche last Saturday and had returned on Wednesday morning.

Charge Convivance

Communists radio stations in China and North Korea have accused the U.S. army of "convivance" in the mass breakouts.

The UN command, however, has placed the blame squarely on the South Korean government.

With the 26,000 prisoners gone, the POW compounds now contain only about 21,000 of the 47,000 captives which the United Nations had said would forcibly resist return to Communism. Of those remaining, more than 14,000 are Chinese.

Crusader And Haida En Route From Korea

OTTAWA (CP)—Good news for North Korean train crews: You can breathe easier, the Crusader and Haida are on the way home to Canada.

The Canadian destroyers have both been relieved after a year of United Nations service during which the Crusader became the UN's champion naval train-buster with 4 1-2 "stops" to its credit.

The Crusader sailed today from Japan and is due in Esquimaux July 1 by way of the Aleutians. The Haida is due at Halifax July 22 by way of Hong Kong, Singapore and the Mediterranean.

Their places have been taken by the destroyers Iroquois and Huron.

Makes Statement On Polio Treatment

WINNIPEG, (CP)—A United States expert in prevention of poliomyelitis told the Canadian Medical Association Friday that the use of a serum believed likely to provide complete immunization to polio is being held up by the dangers involved.

Dr. William McDowell Hammon of Pittsburgh spoke on the final day of the convention, then amplified his views in a press conference. He said it may be years before U.S. research workers consider the material safe.

He said the research is under the direction of Dr. Jonas Salk of Pittsburgh and is carried out on monkey tissues.

"If it weren't for considerations of caution, we might start using it almost immediately but we just can't take the risk," he said.

Referring to another polio vaccine for which much hope was held, Dr. Hammon said, "Gamma globulin is my baby and I have to say it wasn't much good." Early experiments on the use of the substance were carried out by the doctor and a research team during a 1951-52 epidemic in the U.S. about 58,000 children were inoculated.

"Gamma globulin was found to be too wasteful and uncertain," said Dr. Hammon. "We were unable to select the right people who needed it at the right time. It would take an inexhaustible supply to prevent polio and we just haven't got it."

Big Liquor Profits At Uranium City

SASKATOON, (CP)—The Saskatchewan government is making \$100,000 a month profit on operations of its liquor store at Uranium City in northwestern Saskatchewan. Municipal Affairs Minister McIntosh says: "This perhaps gives you an idea of the population."

Coronation Contingent Due At Quebec Today

OTTAWA (CP)—Three ships carrying the bulk of Canada's active and reserve army contingent home from the Coronation—about 325 officers and men—are expected to dock at Quebec city Friday, the army has announced.

The first ship sailed from the SS Canberra, which expected from Southampton June 17 with about 175 men, mostly from the reserve army.

The Canberra will be followed into port by the RMS Samaria, with 75 officers and men, nursing sisters and members of the Canadian Women's Army Corps. The SS Atlantic will arrive next with a 75-man group headed by Lt.-Col. J. R. Stone, commanding officer of the army's Coronation contingent.

A fourth and final draft will reach Halifax July 11 on the SS Neptunia. It will consist almost entirely of the band of the Royal 22nd Regiment which attended the Coronation celebration following a tour of duty with the 27th brigade in Germany.

Coal Mine In Glace Bay To Close July 31

GLACE BAY, N. S. (CP)—Dominion Coal Company's No. 24 mine here will be closed July 31. The colliery employs more than 400 men.

Harold C. M. Gordon, company vice-president and general manager, said Friday night the colliery had lost money every year since 1935 and there was little hope of improvement.

Some men will be employed after closing to remove material and equipment. Mr. Gordon said the remainder will be given work at other colliers "so far as possible."

The closing was the second announced by the company this month. No. 1-B colliery shut down June 13. For three months while underground operations are mechanized, leaving 1,200 men idle. A reduced working force will be employed when the pit reopens.

Comet Resumes Training Flight

GANDER, Nfld. (CP)—The RCA's touring Comet jet transport had a short, uneventful visit here Friday en route from St. John's, Nfld., to Montreal.

The plane, one of two recently purchased by the air force from Britain, is on a cross-country training flight. On its last wing flap was slightly damaged Thursday when it undershot the runway at Torbay airport, near St. John's.

Forest-Spraying Project Nears End

CAMPBELLTON, N. B. (CP)—The monster forest-spraying campaign launched against the spruce budworm in northern New Brunswick counties this last month is almost three-quarters completed.

Officials said Friday at least one of the six wilderness airstrips used for the largest operation of its kind anywhere will have sent aloft its quota of DDT by the end of this week.

So far 77 small planes have sprayed about 750,000 tons of insecticide on a softwood stands which otherwise would fall prey to the budworm pest.

After last year's smaller operation, the first in New Brunswick, the mortality rate of budworm larvae over 200,000 acres was estimated at close to 100 per cent. This year's objective is 1,000,000 acres.

Egyptians Celebrate As Republic Is Proclaimed

CAIRO, (Reuters)—Festive Cairo Friday celebrated Egypt's first day as a republic with prayers, merrymaking and day-long crowds cheering in the streets.

It was the Moslem Sabbath and Gen. Mohamed Naguib, who ousted King Farouk nearly a year ago drove with his revolution council to prayers in a mosque in the Cairo bazaar area.

Crowds shouted their praise as they drove by in open cars. Thousands waited outside the mosque to greet them.

When prayers began, there were more worshippers outside than inside. Thousands knelt on mats, wooden boards and pieces of paper on the roadways.

Naguib's proclamation last night stressed that the Egyptian people would have "the final word" on the type of republican system they wanted, and could choose their own president under the

Fredrickton Man Heads Library Ass'n

SYDNEY, (CP)—Maurice Boone of Fredrickton was elected president of the Maritime Library Association here Friday succeeding Dorothy Cullen of Charlottetown. Ruby Wallace of Sydney was named vice-president and Evelyn Campbell of Halifax secretary-treasurer.

Man, 3 Children Drowned In N. B.

FREDERICTON, (CP)—A man and three children drowned Friday when a canoe capsized in a lake at Central Blissville, 30 miles south of here.

The victims are Leonard Slipp, 53, of Central Blissville; William McLaughlin, 13, and Harry McLaughlin, 9, sons of Mr. and Mrs. Byron McLaughlin of Hoyt, and Clare Crombie, 6, son of Mr. and Mrs. Donald Crombie, also of Hoyt.

The accident occurred about 4:30 p.m. A.D.T. Search for the bodies began immediately but none had been recovered two hours later.

Travel Suspended

HEIDELBERG, (AP)—All United States non-duty military and civilian travel to Berlin was suspended by U.S. army headquarters here Friday until further notice.

More Lung, Less Stomach Cancer, Doctor Says

WINNIPEG, (CP)—Lung cancer is steadily increasing and will soon equal the record of stomach cancer as a killer, Dr. M. B. Perrin said Friday.

Addressing the annual convention of the Canadian Medical Association, the doctor said the incidence of lung cancer is rising and the incidence of stomach cancer is dropping.

The doctor quoted figures to show 14 per cent of male cancer deaths in Manitoba during 1952 were due to lung cancer. These figures indicate a similar trend across Canada.

Lung cancer is predominantly a male disease but a figure from Britain show that a trace of it is starting to appear among women.

Dr. Perrin said a common difficulty is the failure of doctors to follow through on their examinations after a disease such as pneumonia is discovered.

B.C. Paratrooper Given Special Commendation

OTTAWA, (CP)—The army's chief has given Pte. James Bodner something to show his grand children some day to prove that he not only hung dangling from an airplane in a zero weather for half an hour but prevented tragedy by his courage under the ordeal.

Lt.-Gen. G. G. Simmonds has given the Mission City, B. C. soldier a special commendation award that Pte. Bodner "showed the mark of a real man and a soldier of the highest standard" after he got tangled up in making a jump and dangled helplessly until cut loose.

The citation harked back to the February day when paratroopers of the 2nd battalion, Princess Patricia's Canadian Light Infantry, took part in an exer-
