

ADVICE TO MOTHERS.

The Health of Their Daughters Should Be Carefully Watched.

Young Girls Susceptible to Troubles That May result in Decline—Pale Faces, Headaches and Fickle Appetite the Symptoms of Early Decay.

From the Sun, Orangeville, Ont. Some months ago Maggie, the fifteen-year-old daughter of Mr. and Mrs. J. Sweeney, of John Street, of this town, began to fail both in health and spirits. Her face was almost as white as chalk, her appetite very fickle, and her limbs began to swell. Notwithstanding her growing weakness she persisted in attending school until one day her teacher advised her to go home, and not to return until she felt better. At the same time the teacher, who knew the value of Dr. Williams' Pink Pills in such cases, advised her to take them. The advice was followed and Mrs. Sweeney told our reporter that almost from the outset there was an improvement in her daughter's condition. Her appetite became better, the color returned to her face, and the severe headaches that had made her so miserable vanished, and she is now feeling better than she had done for many months.

It is quite evident that this young maiden was suffering from a lack of blood, as do so many young girls who are just at a critical point in life, and it is quite apparent that there is no other remedy the equal of Dr. Williams' Pink Pills in such cases. They enrich the blood, stimulate the nerves and build up the entire system, and mothers will act prudently if they insist upon their daughters taking an occasional box. We know from experience that Dr. Williams' Pink Pills have done great good in Orangeville and vicinity, and there is scarcely a day that our reporter does not come in contact with some one who has a good word to say for this wonderful medicine.

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapping bearing the full trade mark, "Dr. Williams' Pink Pills for Pale People."

Goodstains for wrappers and skirts. Comfortable home garments satisfactorily made. That's the whole story in a nut shell. It means that good and pretty material are chosen liberally cut, carefully made and tastefully finished. That's the whole secret of the liking women have for Goodstains goods—of course, remember the prices ranging from 99c up.

We also make a specialty of the well known King Diamond Skirt, ranging from 99c up, secure one at once, anyone will be pleased.—Goodstains, New York Cheap Store, Grafton St.

A MOTORMAN'S VICTORY

Over Diabetes, Gained by the Power of Dodd's Kidney Pills.

Toronto, May 23.—In a large city like Toronto, there is always much sickness, kidney diseases largely predominating. The street railway employes, exposed as they are to all the inclemencies of the weather, are particularly liable to kidney disease. But they all know how to conquer this enemy.

For instance: Mr. T. H. O'Reilly, 27 Niagara Street, motorman No. 624, was for three years a great sufferer from Diabetes. Every remedy failed to help him till he began to use Dodd's Kidney Pills. Three boxes cured him.

It is cases like this where the patient and the cure are equally well known, that are the test of a remedy, and Dodd's Kidney Pills have always stood successfully. They cure all kidney complaints.

Wants, Lost, Found, &c.

WANTED—Immediately, a capable housemaid. References required. Apply to Mrs. F. Parker Carvell. may 27-1w

SLEEP AND DREAMS.

How Agassiz Worked Out a Scientific Problem as Related by Himself.

The letters on sleep and dreams in The Spectator remind me of a case in the experience of Agassiz, and which he told me himself, though it is recorded in his work on the American fishes. He was studying a fossil fish in the Jardin des Plantes, but had never been able to determine the species to his satisfaction. After a time he dreamed that he caught the very fish and without difficulty determined the question, thinking, as he woke from the dream, that he would have no difficulty. But on returning to the fossil something in the dream had escaped him, and he could no more determine the species than before.

The next night he had the same dream and again forgot the essential point. He then determined to take a pencil and paper with him to bed and make his note as soon as he woke. The dream came the third time, but to his surprise on fully awakening he found the drawing made and lying on the table bed side, with three bones displayed in it which were not visible in the fossil, and which solved the problem. On returning to the Jardin des Plantes he obtained permission of his friend, the director, to chip away a scale of stone which lay on the spot where the bones were in the drawing, and found them there as his drawing had given them. It is 30 years since Agassiz told me the incident, but those who have access to his history of the North American fishes will be able to read it in his own words in the introduction and correct my version if my memory has in any detail failed me.—London Spectator.

The Same Old Story.

"Grandfather," said the young humorist, "can you spend the afternoon with me tomorrow?" "I think so," replied the old man. "But what's the object?" "You are no doubt aware," answered the young man, "that I occasionally write humorous articles for the newspapers." "Yes, I know," said the old man, with a sigh, "and I have always hoped that you would some day see the error of your ways and reform. But what has that got to do with my spending the afternoon with you?"

"I received a letter from a magazine publisher this morning," replied the alleged funny man, "requesting me to contribute to the humorous department of his publication matter similar to that to which his readers have been accustomed, and in order that I may meet the requirements I want you to tell me some of the jokes current during your boyhood days."—Chicago News.

The Vanilla Bean.

It is not generally known that the vanilla bean is the costliest bean on earth. It grows wild and is gathered by the natives in Papantla and Misantla, Mexico. When brought from the forests, these beans are sold at the rate of \$2 5s. per 1,000, but when dried and cured they cost about \$2 5s. per pound. They are mainly used by druggists.—London Globe.

THE HARVEY MEDICINE CO., 424 ST. PAUL, MONTREAL

A NEW MAN

Paine's Celery Compound Gave Him a Fresh Existence

He Had Endured Years of Misery and Agony.

Had Given Up All Hopes and Expected to Die.

It is the Medicine for You, Poor Sufferer.

You Cannot Be Disappointed if You Use Paine's Celery Compound.

WELLS & RICHARDS & Co.,

DEAR SIR:—I can conscientiously recommend Paine's Celery Compound to all who may be suffering from dyspepsia and liver trouble. For years, while living in Black Brook, I suffered from a complication of troubles, and was so bad with dyspepsia that I could not touch a morsel of food. I found it difficult to sleep, and what little I did get was often broken with horrid dreams. Intense sufferings from liver complaint added to my load of agony; I also had dizziness, pains in the back, and was pale, haggard and despondent.

I kept doctoring and dosing without deriving the slightest benefit, and finally gave up all hopes of getting well. One day my daughter, who had read of a wonderful cure by Paine's Celery Compound, begged me to try one bottle of the medicine. I told her it was no use to throw away money, but she pleaded so hard that to please her I bought a bottle, and before it was used up I felt better. Encouraged so much I continued with the medicine and improved every day.

I am now cured, thanks to Paine's Celery Compound. You cannot wonder that I consider Paine's Celery Compound the greatest medical discovery in the world. I urge all who are suffering to try this grand medicine and test its virtues.

Yours very truly,

CHARLES COMEAU Neguac, N. B.

Then They Cured Him.

Awful accident to Professor Wriggler upon introducing his celebrated conjuring trick, the disappearing globe of gold-fish.—Ally Sloper.

Cost of Getting Klondike Gold.

What does an exodus of 100,000 to the Klondike mean to the business of the country? I have figured it out on the basis of cost and proportion as ascertained, and it is this: That each man of them would average first and last an expenditure of \$600, making a grand total of \$60,000,000. The United States railroads would get \$5,000,000 of this; Seattle merchants and hotel keepers, for outfits and transient guests, \$25,000,000; the prospector's home town and towns en route to Seattle and other Pacific coast points, \$5,000,000; ship companies, for transportation to Alaska, \$10,000,000; for the transportation of freight over passes and in Alaska, \$15,000,000.

This would represent only the actual needs of this number of prospectors and would cause a large increase in other businesses directly connected with it. It means that in 1898 \$60,000,000 will be spent in search of gold in the yellow creeks, and in the same year not more than one-fourth of that amount will be produced. But the output is likely to come nearer the expense as each year goes by and in a few years to exceed it.—Review of Reviews.

Furness Line of Steamers

S. S Halifax City sails from Halifax 21st April, for Great Britain.

This steamer has been fitted up with Cold Storage. Shippers of perishable produce should apply early.

NEWSPAPER REPORTERS.

A Defense of Their Fair Mindedness, Reliability and Integrity.

A very common error is prevalent that the work of reporters, given in newspapers, as a rule is not entitled to respect or credence. It is generally assumed that the reporter writes chiefly or wholly to make a sensation or in some way interest readers without regard to facts, while just the reverse is the truth in all reputable newspaper establishments.

It is safe to assume that the statements of reporters given in the leading reputable journals of the country are quite as truthful as are the general statements from the pulpit when the minister gets outside of strictly religious teachings, and very much more truthful than are the public expressions of most if not all of the leading professions. With very few exceptions the management of our leading daily newspapers enforce truthfulness and fairness as the supreme attributes for a newspaper writer, and yet it is common for all who are displeased with any reportorial statement to say that "it's a mere newspaper story."

It is true that there are a few conspicuous exceptions to the rule that governs the reputable newspapers of the country.

Not only are the managers of our leading newspapers entitled to great credit for the scrupulous care they inforce on their reporters and correspondents to present the truth with as exact fairness as is possible, but the public little know the ceaseless care that is exercised in every reputable newspaper office to prevent the publication of even the truth when it would be more harmful to publish than to suppress it. There is not a week, indeed hardly a day, that the newspapers of this city do not suppress the facts proper for public information which would make a most interesting story solely because it would bring a flood of sorrow to the innocent and helpless and cast an imperishable shadow upon their lives. With all the errors necessarily committed in a newspaper office by reason of the haste with which the articles must often be prepared, the public little know with what thorough integrity the newspapers, as a rule, protect the innocent even at the cost of suppressing legitimate and interesting information. The skeletons of hundreds of households are carefully guarded in the newspaper offices of the country, and generally without even the knowledge of the people who are thus protected.—Philadelphia Times.

NOW!

If you had been taking Abbey's Effervescent Salt every day there would be no need of a Spring medicine. The daily use of

Abbey's Effervescent Salt

will keep you in good health. Its use purifies the blood and cleanses the system at all seasons. This is an ideal time to commence using it. Abbey's Effervescent Salt is not only a Spring medicine, but it is the best remedy you could take for the ills of Spring. All druggists sell this standard English preparation at 60 cents a large bottle, trial size, 25 cents. Abbey's Effervescent Salt is endorsed and prescribed by the leading physicians of Great Britain, Europe and Canada. It is delicious to the taste and wonderful in its effects.

The Canada Lancet says: "This preparation deserves every good word which is being said of it."
