DOMESTIC ECONOMY

Said Brown unto his wife one day,
 "We've nothing left to eat;
 If things go on in this queer way,
 We can't make both ends meet."
 His wife replied in words discreet,
 "Oh, we won't be badly fed;
 If you can make but one end meat,
 I'll make the other bread."
 Chicago News.

BUT GOOD WIFE!

You can't make good Bread, if you don't use good Flour. It's a mistake many people make in buying Flour as well as other things, in thinking they are using economy by buying a cheap grade but it generally proves the dearest in the end. When in want of Flour give us a call; we keep most of the standard brands and can quote as low prices as anyone in the trade.

ONLY FOUR BOXES

Of Dodd's Kidney Pills Were Needed to Cure Mr. Willis.

Woodstock, Ont., Sept. 24.—There are many Woodstock people who owe their good health, and others who are indebted for their lives, to Dodd's Kidney Pills. Among the former is Mr. Masa Willis, 295 Dundas Street, who has recently made his story public.

"For several years," says Mr. Willis, "I have suffered from Kidney Troubles, pain in the small of my back, etc. I got slight relief from some of the various medicines I used. My son, who was cured by Dodd's Kidney Pills, urged me to try them. I did so. I have used four boxes and can safely say I am cured."

MANIFEST DESTINY.

It appears that there are two imperialist parties in the United States. One believes in retaining all the possessions taken from Spain and extending the influence of the United States as a world power. The other holds that the republic is distinctly 'an American power enjoying the hegemony of this continent, and not merely hoping but resolved, that some day the whole continent shall be in and of the union.' Advocates of this latter idea say that if the nation scatters its forces over the earth the dream of continental expansion will have to be abandoned. This they regard too great a sacrifice to make for the sake of holding the Philippines, and contend that, like Russia, the United States should seek to dominate its own continent. To that end, they argue, their statesmen should bend their energies. They point out that one after the other, France, Spain, Mexico, Russia and again Spain, have dropped their holdings on this continent and that they have only to wait patiently and in the proper mood, when Britain would follow the example, and the Canadian provinces would become sovereign states in the great Continental Union. Those who urge this policy contend that it is the true Mounroe doctrine, the 'manifest destiny' of Seward, approved by the national American instinct and in accordance with the history and traditions of the republic. It is because the Philippine affair is the first departure from this policy that the people revolt against it, and the way to deal with it is to patch up some sort of government for the Filipinos, cut them loose, and let them shift for themselves.

There is little reason to doubt that such is the latent, perhaps in most cases unconscious, reason for the feeling very general throughout the United States of settled repugnance to the Philippine seizure, as it is similarly the underlying reason why that expansion is very generally approved in Canada and throughout the British empire. It is, on the whole, fortunate for all parties that the United States cannot get out of the Philippines. The manifest destiny theory, though it has been much less blatantly urged in our day than in Seward's time, and before, has probably still a considerable hold on the feelings of the American people. If so, however, it is with the greatest wisdom that they keep it to themselves. They have only to proclaim it as the policy of the

United States to concentrate on that country the united and settled enmity of all its neighbors from the north pole to the Horn. We do not know whether the promoters of continentalism purpose to acquire Canada by purchase, as the United States did from France and Russia or by conquest, as they did from Mexico and Spain. The policy of waiting is the better one, but it will involve long patience we fear, unless our neighbors can include the British Empire whole in the union. The people of the United States and their public men may have the instinct of continental domination, and it is conceivable that Britain might be willing to allow this Dominion to join the republic if it wished to do so, but so long as the people of Canada prefer to remain British the instinct of Continental dominion will have to go ungratified.—Montreal Witness.

THE GOLD BULLET.

A weird story is told of a man by the name of Van Bobsoom, who is distinguished in the Transval as the best shot in the Republic. He is now fifty-five years old, and never, it is claimed, has he missed an object at which he fired. A few months ago he had a productive gold mine and a flourishing family, but he lost his mine recently and soon after his two sons slain as they were fighting against the English. The loss of his mine troubled him little, but when he learned his stalwart sons were no more, a great change came over him. He took his old flintlock rifle, which he calls Loben-

A WRONG IDEA OF... DYSPEPSIA

Throws all the Blame on the Stomach—The Real Seat of Trouble is the Intestines—The Permanent Cure is Dr. Chase's Kidney-Liver Pills.

It is an old idea long since exploded that digestion is confined to the stomach. No modern scientist denies that by far the greater part of digestion and the more difficult part takes place in the intestines. This explains why dyspepsia is never really cured by preparations which merely aid stomach digestion and act only on the stomach.

This fact also explains why Dr. Chase's Kidney-Liver Pills have been so remarkably successful as a cure for the worst forms of dyspepsia and indigestion. Dr. Chase's Kidney-Liver Pills act directly on the kidneys, liver and bowels, and give new tone and vigor to the intestines, and make them able to perform their work of digesting the substances on which the stomach has no effect.

Stomach treatment may do well enough for slight indigestion, but if you have chronic indigestion or dyspepsia of a serious nature you can profit by the experience of scores of thousands who have been permanently cured by using Dr. Chase's Kidney-Liver Pills. One pill a dose, 2c. a box, at all dealers, or Edmondson, Bates & Co., Toronto.

gula, and with a bag of golden bullets he went to the front to fight the foes of his country. And it is said that during the recent battles when the ambulances removed each day those who had fallen battle, the physicians could readily pick out the officers who had been killed by Van Bobsoom, for instead of two ounces of lead or steel they had two ounces of gold, either in the heart or the forehead. Whether this be truth or fiction I know not, but I do know that there are multitudes of men and women who are shot to death in these days, not only in South Africa, but in Europe and America as well, by the bullets of Gold.—Homiletic Review.

The American Bible Society is in receipt of a letter from its agent, the Rev. John Hykes, D.D., under date of Shanghai, Aug. 20. Mention is made of outrages in Shansi province. One young woman was killed outright on the journey, and another was forced to travel with her brain exposed, the flesh having been cut from her head.

Three unmarried women who were shipwrecked had to wade ashore in water to their necks. They were then stripped of their clothing and forced to march in that condition sixty miles. They walked two days and nights without stopping.

A missionary in a city in Kweichow province was beaten thirteen times and robbed of all he had. His injuries may end fatally. At best he is a cripple for life.

If poor old Shakespeare knows in the other world what goes on in this he must be gratified to find one of his plays running for two weeks, even if certain plays from popular novels are in their second season. The classical is looking up.—New York Sun.
