BUTLER IS FOREIGN MINISTER

Britain's New Prime Minister Announces Lineup Of Cabinet

LONDON (AP)—Prime Minister Lord Home Sunday night formed a Conservative cabinet resigned to bury party factionalism and create a new image for the elections which must come within a year.

The Scottish aristocrat, installed Saturday as Britain's prime minister, succeeded in the first step of a political tightrope act by persuading all major rivals for the job to serve under him in the government. Chief of these was Richard A. Butler who agreed to succeed Home as foreign secretary.

He also threw down a challenge to the Labor party opposition by creating a new post as virtual economic overlord and giving the job to Edward Heath, a vigorous young political craftsman. The labor party had already announced it will set up a similar post if it ousts the Conservatives in national elections.

Heath, a 47-year-old bachelor, was Home's deputy at the Foreign Office. He proved himself a skilful, if unsuccessful, negotiator when he handled Britain's attempts to enter the European Common Market.

His new job—described by Home as "part of the modernization of Britain"—is secretary of state for industry, trade and regional development and president of the board of trade. It combines responsibility for Britain's vital overseas trade and its ailing domestic economy.

RIVALS GET JOBS

Home put his three rivals in top jobs, thus avoiding offending their supporters and a new party split.

Butler will be the No. 2 man in the government as he was under Harold Macmillan.

Reginald Maudling, favorite of the young Tories in the House of Commons, remained as chancellor of the exchequer and a political force to be reckoned with in the next contest for the party leadership.

Lord Hailsham, whose political evangelism for the old Tory creed won him the backing of the party faithful in the hustings stayed on as science minister. He is also expected to play a large part in the government's

Teachers Name New Committee

HALIFAX (CP) — The four Atlantic Provinces school teachers' organization Saturday set up a joint committee to help solve their mutual problems in raising the professional level of teaching in the Atlantic region.

The committee, named by the two-day Atlantic conference in Halifax, will also study the feasibility of hiring a research director to serve all four organizations, and of setting up an annual training course for their own administrative staffs.

Diana Churchill Dies Suddenly

LONDON (AP)—The death of Diana Churchill, eldest daughter of Sir Winston and Lady Churchill, was announced Sunday night. She was the former wife of Commonwealth Secretary Duncan Sandys.

She was 54.

In divorcing Sandys in 1960, she announced she would be known in future as Mrs. Diana Churchill.

She died Saturday at her home in London's West End, friends announced. The cause was not immediately known.

Mrs. Churchill was first married in December, 1932, to John Milner Bailey, son of South African diamond millionaire Sir Abe Bailey. She was granted a divorce in February, 1935, and married Sandys the next fall.

She had three children.

A spokesman at Sir Winston's home said:

"It was very sudden. The cause is unknown.

"She was alone in the flat at the time. I have no idea who found her."

Lady Churchill, 78, has been in a hospital for the last week for a rest and medical check.

The Churchills' other children are a son, Randolph, 52, and two daughters, Sarah, 49, and Mary, 44. Mary is the wife of Agriculture Minister Christopher Soames.

MRS. DIANA CHURCHILL

Balmy Weather Breaks Records

HALIFAX (CP)— The Maritimes' balmy fall weather continued during the weekend with maximum temperature records set in several areas.

The temperature reached 76 at Fredericton— beating by five degrees a record that had stood since 1884. Halifax's 75- degree reading was the highest on record for Oct. 19, five degrees above the previous high for the date set in 1947.

Hopes Raised For Settlement Of Border War

MARRAKECH, Morocco (AP) —A surprise trip to Morocco by Algeria's foreign minister raised hopes Sunday night that new negotiations to settle the undeclared border war between Algeria and Morocco are contemplated.

While Foreign Minister Abdelaziz Bouteflika flew to Rabat to meet with Ethiopian Emperor Haile Selassie, Moroccan troops prepared defences at a half-dozen border points.

Officials in Marrakech, where King Hassan II was staying in his summer palace, said the King showed a readiness to start new negotiations. Haile Selassie announced he would remain in Rabat Sunday night instead of leaving for Paris as he earlier intended.

Moroccan information Minister Abdel Hadi Boutaleb emphasized, however, that the first step in the talks had to come from the Algerians.

WANTS WITHDRAWAL

Bouteflika had said there could be no further peace talks until all Moroccan troops had withdrawn from territory Algeria claims as her own. Since then, crack units of the 35,000-man Moroccan army, bolstered by 20,000 turbaned auxiliaries known as "Moghaznis," have massed at several points along the disputed frontier. Anti-aircraft blackouts were ordered in a score of frontier towns.

Child Drowns In Excavation

HALIFAX (CP) — Two-year-old Elizabeth Joan Hodgson drowned Saturday when she fell into an excavation near her home in suburban Armdale.

Naval Officers Visiting Canada

MONTREAL (CP) — Senior naval officers from 15 countries arrived here Saturday from Washington for a week-long Canadian visit sponsored by the Canadian navy.

They are to visit Ottawa and Halifax before returning to Washington.

In the group are officers from France, Spain, Italy, Belgium, Norway, Denmark, West Germany, Greece, Dominican Republic, Brazil, Chile, Nationalist China, Indonesia, Thailand and South Viet Nam.

Reds Maul Gov't Troops In Viet Nam

SAIGON (AP) — Communist guerrillas, solidly fortified in positions facing hip-deep fields of mud, stopped a helicopter-borne assault in its tracks Saturday, and gave South Vietnamese troops the bloodiest mauling they have received in nine months.

The South Vietnamese government toll from the encounter was listed as 40 dead and 80 wounded. Thirteen U.S. servicemen, mostly helicopter crew members, were wounded—two seriously.

Th action was considered by U.S. advisers "the bloodiest nose" since a battle at Ap Bac in the Mekong River delta Jan. 2 this year.

Que. Liberals Avoid Split

QUEBEC (CP)—The Quebec Liberal Party has voted down a suggestion that would pave the way for its members to support another party in federal politics.

The vote was 332 to 155 at the Quebec Liberal Federation's annual meeting Sunday.

Proposers of the change said it wasn't an attempt at an open break with the Federal Liberal Party.

"There is no question of a schism," said Jean Meunier, legislature member for Montreal-Bourget, whose county association suggested the change. "It is a question of giving more freedom to our members."

He personally supported the party both federally and provincially.

Government Orders SIU To Drop Plans For March

3 Farm Homes Lost In Fires

Fire took a heavy toll of farm homes in the province over the weekend, with at least three being destroyed.

One fire is said to have resulted from the use of "white gas" for kerosene in starting an early morning fire in a kitchen stove.

Fire trucks had difficulty reaching another fire, in Prince County, due to parked vehicles blocking the highway leading to the blaze. In fact one fire truck turned back.

The losses to all three families involved in the fires were heavy as little or nothing was saved from the three buildings, and there was only a small amount of insurance on two of the homes.

AT MISCOUCHE

MISCOUCHE — The home of Wilson MacPhee, Southwest Lot 16, was completely destroyed by fire Saturday night. The Miscouche fire department received the call at approximately 10.30 and by the time the fire equipment arrived on the scene some 15 minutes later the flames were out of control.

A Miscouche department spokesman said last night "we could see the glare of the fire from the village before we left and it's approximately seven miles from here."

All furniture was lost in the blaze and it is believed that no insurance was carried on the home.

A second truck from the Miscouche department left for the scene along with a truck from the Summerside department a short time later. The Miscouche truck made a late arrival but the Summerside vehicle was unable to get through.

The spokesman said "we could not get through with the second truck at first because cars were double-parked, blocking our way. We had to push some of the cars into the ditch before we were able to drive on."

He added "The Summerside truck couldn't get through so it returned to town."

MT. STEWART

MOUNT STEWART — Using "white gas" by mistake for kerosene to start the fire in the kitchen stove resulted in the loss of a large, modern farmhouse at Blooming Point Saturday morning.

The home owned by John MacDonald had just recently been remodelled. Nothing was

19 Canadians Share In Sweepstakes Win

By THE CANADIAN PRESS

Nineteen Canadians from Dartmouth, N.S., to Victoria, B.C., won more than $1,400,000 Saturday when their tickets in the last Irish Sweepstakes of the year paid off on the first three horses in the Cambridgeshire Stakes at Newmarket, England.

Six Canadians won top prizes of about $150,000 each on Commander-in-Chief, winner of the English racing classic. Two of them were from Vancouver.

Five Canadian tickets were drawn on Principal, the horse which placed second to provide prizes of about $60,000 each, but one ticket was in the name of two Victoria residents under the joint nom-de-plume of Winter. They are Harry Lou Poy, president of a fruit and vegetable firm, and Mrs. Vivienne Thompson.

Seven Canadians collected about $30,000 each with tickets on Hasty Cloud, the Cambridgeshire favorite who finished third.

In all, 364 Canadian tickets were drawn on the 86 horses eligible for the race. Only 23 started, and holders of tickets on the 20 who ran out will collect prizes of $1,083 each. Holders of tickets on the non-starters will get smaller consolation awards, bringing the total Canadian earnings to more than $1,500,000.

Milkman Ubald Bellefeuille of St. Francois de Sales, Que., who had two tickets drawn in an unprecedented freak of luck, ended up as one of the consolation winners. One of his horses, Cocky Boy, was not among the acceptors, and the other, Early to Rise, suffered a coughing fit and was scratched on Wednesday.

James A. MacDonald, RR2, Hunter River, P.E.I., who had a ticket on Emerald Cross, one of the scheduled starters, will collect the consolation money. His horse was not listed with the winners. Earlier another horse, by Proxy, drawn by Mrs. James L. Murray of 42 Elm Ave., Charlottetown, had been scratched.)

Most of the top winners who were available for comment during the day stressed the security angle of their windfalls. A number ran for cover, including a 32-year-old Ottawa bachelor, army Sergeant W. J. McCormick, a $150,000 winner. His neighbors commented that they hoped he would be able now to buy a new battery for his red sports car, which they have been helping to push in recent days.

$150,000 winner Frank G. Leck of Dartmouth, N.S., said he plans to quit his job and take life easy.

"I never thought much about winning it," said Mr. Leck, an aircraft fitter at Fairey Avia-

Two N.S. Hunters Die In Accidents

HALIFAX (CP) — Two persons died on hunting trips in Nova Scotia during the weekend. Both victims were from the Truro area.

Searchers found the body of 15-year-old Robert Rutherford on the south shore of Cobequid Bay about seven miles from Truro shortly before noon Sunday. Rutherford was swept from a mud flat by a Bay of Fundy tidal bore while hunting ducks Saturday.

Seventeen-year- old Robert Clive Wilson of Bible Hill was shot to death by the accidental discharge of a companion's rifle in woods in Cape Breton's Inverness County Saturday.

Hurricane Reported Off U.S.

WASHINGTON (AP) — The Weather Bureau said Sunday night a storm off the U.S. Atlantic coast had become a hurricane. Hurricane warnings were hoisted off Cape Hatteras, N.C.

The hurricane, given the name Ginny, was expected to remain stationed for about 12 hours off the coast and then begin moving slowly to the northeast.

The centre of the hurricane, with highest winds estimated at about 85 miles an hour, was about 90 miles south-southwest of Cape Hatteras at 10 p.m.

"All shipping in the path of this hurricane should exercise caution," said the bureau.

Ginny follows close on the heels of Flora, which earlier this month set a record for death and destruction.

Flora prowled through the Caribbean area, claiming an estimated 4,000 lives in Haiti and at least 200 in Cuba.

As it drifted off the North Carolina coast the new storm was accompanied by high winds and rough seas that lashed away at the Carolina shore line.

In early reports from Cape Hatteras there were no indications of significant damage.

Two Killed In Crash

UPTON, Quebec (CP)—Two men were killed Saturday when a small plane crashed and exploded near Upton, Quebec, 40 miles east of Montreal.

Dead are Jean-Guy Adam, age 20, a Royal Canadian Mounted Police constable stationed at St. Johns, Quebec, and the pilot 38-year-old Robert Croteau.

Police said Mr. Croteau, owner of the plane, had just received his pilot's licence.

Minister Calls Actions Illegal

By ROBERT RICE

OTTAWA (CP)—In a sudden get-tough mood, the federal government Sunday night ordered Hal C. Banks of the Maverick Seafarers' International Union of Canada to call off "illegal" strike action and direct sailors to return to their ships immediately.

Labor Minister MacEachen warned the SIU leader that federal labor laws are being broken by the shipping walkout ordered by the SIU to free sailors for a mass march today on Ottawa.

"The government of Canada demands that you and the other members of the executive board obey the law of Canada and direct all members of your union to return immediately to their ships and to resume work," said Mr. MacEachen in a telegram to Mr. Banks in Montreal.

There were indications the government is prepared to enforce the law, which allows prosecutions against unions, union officers and union members who violate no-strike provisions of their collective agreements.

CAN BE FINED

Under the Industrial Relations and Disputes Investigation Act, convictions for illegal strike action are punishable by daily fines ranging up to $500 for a union, $300 for union officers and $100 for workers.

Officials here were uncertain whether the government's back-to-work order was sent in time to halt the SIU's protest march on Parliament Hill.

Mr. MacEachen told reporters he would have "to wait and see" what action will be taken if Mr. Banks defies the government order.

In a statement, the minister in effect accused the SIU of scuttling last-ditch talks for a union - sponsored trusteeship over the SIU by tying up shipping for the Ottawa march.

Mr. MacEachen met reporters after the Canadian Labor Congress slammed the door shut on government hopes for a voluntary labor union settlement for the situation.

SAY NO HOPE

Rejecting "any thought" of a private solution the CLC accused the SIU of wrecking private negotiations by its "irresponsible, illegal and dictatorial" order to sailors to leave their ships for a protest demonstration in Ottawa.

In his telegram, Mr. MacEachen referred to instructions issued Friday by the so-called Seamen's Rights Committee of the SIU for the walkout and the march.

The telegram, addressed to Mr. Banks at SIU headquarters in Montreal as well as his suburban home there, said:

"You and the officers of your union must be aware of the fact that the directives issued in instruction bulletin No. 1, by the Seamen's Rights Committee contravene the Industrial Relations and Disputes Investigation Act through taking illegal strike action during the term of agreement. The government of Canada demands that you and the other members of the executive board obey the law of Canada and direct all members of your union to return immediately to their ships and to resume work."

Mr. MacEachen told reporters that there are sanctions against the SIU under the law and indicated that both ship owners and the government could take action against the union under them.

He added there has been no indication that shipping companies intend to act on their own account at the moment. Asked when the government might proclaim its special trusteeship legislation to take over the SIU and four other marine unions the minister said the cabinet had not yet decided when the law should be put into effect.

He indicated the cabinet may meet today on the problem.

The CLC had stated earlier it was "utterly impossible" to continue negotiations either with the AFL-CIO in the United States or the Canadian government under the pressure of the SIU walkout and the scheduled protest demonstration.

By Saturday, more than one-third of the Canadian inland fleet was idle. More ships were expected to be abandoned by their crews as they reached ports Sunday. Ships were carefully berthed so as not to interrupt normal traffic in the St. Lawrence Seaway and Welland Canal.

In Vancouver, SIU members decided to send delegations to Ottawa but ignored the walkout order and continued working ships.

In Toronto, Montreal, Kingston, Ont., Hamilton and other inland ports, walkouts were the rule. In Halifax, one ship's SIU crew sailed and another ship's crew walked off.

Shipowners hoped the walkout would end after the SIU had made its protest march, but the union gave no indication. If it ended after the Monday march, comparatively little damage would have been done.

HURT GRAIN TRADE

Any longer walkout would hurt the particularly - heavy grain trade this autumn, a trade

Home's Seat Is Selected

GLASGOW, (Reuters)—Prime Minister Lord Home will run in the forthcoming byelection at Kinross and West Perthshire after giving up his title, it was confirmed Sunday.

If elected he will be able to enter the House of Commons.

Political sources said Lord Home will relinquish his title this week.

George Younger, adopted as prospective Conservative candidate for the constituency last week, agreed to let Home take his place.

At the last election, W. G. Leburn, the Conservative candidate, received 16,256 votes in a three-way fight with Labor and the Scottish Nationalists, winning by a margin of 12,248 votes.

The Labor candidate got 4,008 votes and the Scottish Nationalist 3,568 votes. This time there will be a fourway fight because a Liberal has come into the field.

Nominations for the seat have to be in by Oct. 28 and voting is Nov. 7.

UN CLUB AT PWC HEARS GUEST SPEAKER

The guest speaker at a meeting of the Prince of Wales College United Nations Club Saturday was Michael Claque, Toronto. Mr. Claque is secretary of the United Nations Association in Canada. He is shown above on the left with Michael Finley, president; Frances Cullen, vice-president, and Sally Martin, secretary-treasurer. The executive of the club, which is made up of Prince of Wales College students, was elected recently. The meeting was held in Montgomery Hall.

JFK Has Aerial Look At Quoddy Power Site

BOSTON (AP) — President Kennedy made a brief flight into Canada Saturday inspecting from the air the site of the proposed multi - million dollar Passamaquoddy tidal power project.

Kennedy also had an aerial look at the easternmost tip of the United States — Quoddy Head, Me.—and the bay in New Brunswick where the late president Franklin D. Roosevelt took the fateful swim that triggered his polio attack.

The jet-speed sightseeing tour came during a long-way-around flight from Dow Air Force Base near Bangor, Me., to Boston. Kennedy had gone to Bangor to make a quick helicopter flight to nearby Orono to make a major foreign policy address at the University of Maine.

Kennedy flew from Bangor to West Quoddy Head shortly after noon EDT, then winged over the Atlantic just east of New Brunswick's Campobello Island made a north-to-south turn off the coast of the province and proceeded south over Deer Island, Me., to the Eastport Peninsula separating Passamaquoddy and Cobscook Bays.

The president, who favors the tidal power project, made the tour at the behest of U.S. Senator Edmund S. Muskie (Dem. Me.). But it turned out to be a bi-partisan project because Maine's Republican Senator Margaret Chase Smith made the flight with Kennedy and Muskie.

Both Muskie and Mrs. Smith, as does the president, want the federal government to put up $1,000,000,000 over 15 years to utilize the extreme tides of the Passamaquoddy to generate power.

Canada would share in the power.
