TEA! TEA!

OUR TEA TRADE IS BOOMING.

DURING the months of November and December our Tea Trade increased so much that we had to send an order to London for another supply, in order to keep us going till we receive our Spring Stock.

We attribute this large increase to the fact that we offered the public the best value in Teas on the Island, and they gave them a fair trial, and were convinced that what we stated was true.

We Won't Sell You any Tea that we cannot warrant. Call early and try a sample lot.

The regular monthly meeting of the City Council meets to-night.

We very much regret to learn of the untimely death of Mr. James L. Smith of North Rustico, which occurred Saturday March 12.

The third quarterly official meeting of the Second Methodist church will be held this evening in Class Room, No. 5, at 7.30 o'clock. A full attendance is requested.

The meeting at the Baptist Mission Friday last was very largely attended and the interest is rapidly increasing. An additional lot of Hymn Books is supplied.

The basket social advertised to take place at Cornwall last week did not come off as the evening proved unfavorable. It will take place tonight and a big time is expected.

The Rev. J. A. Gordon, the popular pastor of the Charlottetown Baptist Church, has kindly consented to address a temperance meeting to be held in the W. C. T. U. Reading Room, Souris, on Wednesday next, March 16th.

Mr. GEORGE CONNORS, conductor on a train between Boston and Fitchburg, was recently killed by an accident to his train. He was a son of Mr. Peter Connors, Wilnot Bridge, and leaves a young wife, to whom he had been married scarcely a year.

The seal industry has collapsed. The ice has moved off shore, taking the seals with it. About 1500 in all were captured. We understand that the value of the seal has been over \$3 each, instead of being worth \$3 each, they will bring very little over \$1.50.

An increasing interest is being taken in the various classes in connection with the Young Men's Christian Association. The afternoon classes are well attended, also the book-keeping and penmanship classes. The game parlour is filled from night to night with young men. Secretary McFie is the right man in the right place, and we are glad to see his labors are being appreciated by our townfolk.

HARBOR LIGHT.—There was a large attendance at the Harbor Light on Saturday night, about 300 being present. Refreshments were kindly provided and a song by Mrs. T. L. Chapelle, Mrs. J. J. Coombs and Mrs. Dr. Macleod. Mr. McKeown delighted the audience with a number of songs. Dr. Harry Johnson gave a lesson in athletics. Revs James Simpson and W. W. Brewer were in charge. To-night a Concert will be given by the Glee Club.

The live seal at the Fish Market was the centre of attraction all day Saturday, and also in the evening as long as the store was open. Leading business men called with an eye to business, no doubt, as his sealship would be a valuable acquisition to any store window. Teachers and scholars flocked in eager to see the curiosity. Fathers and mothers came and brought their families. Young men and maidens in groups paid a visit to the seal. It is thought that there were not less than 1000 visitors in all admitted to see him. The poor fellow seemed tired at night from the excitement of his hard days work, for he had received many a poke of a walking stick and had his fingers pulled by a large number of inquisitive fingers. He had refused to eat during the day, but made a hearty supper of milk in the evening. It is to be hoped that he will not lose his appetite, but grow fat and strong until the fountain at Queen Square plays again, when Mr. Crockett proposes to hand him over to the city as an additional attraction to the Gardens.

FIRE.—About 1.30 o'clock Sunday morning the fire bell rang out its warning peal. The alarm was given by Mr. G. Offer of Sydney street, who had been roused by parties knocking at his door and informing him that his barn was on fire. The flames were first noticed by Miss Mary Macdonnell who lives in the next house, who sent the parties to wake Mr. Offer. The fire had made considerable progress and the flames were shooting through the gable end of the building. The alarm was immediately given at the station and the firemen turned out in a lively manner and were on the scene in a very short time. The wind was blowing high and the flames flying in every direction when they arrived and were looking as if the fire might sweep through the whole block, as the stables are closely connected in a line. The firemen went heroically to work and a deluge of water soon played upon the flames with good effect. The fire had made considerable headway inside. A quantity of furniture which was stored on the loft was burnt to cinders. It was not until the roof of the building was completely riddled that the flames were got under control. The barn which is quite a large one comprises a horse stable, in which was one horse, and a coach house and stove room. There was about a ton of hay and some straw on the loft, where it is supposed the fire originated. The stable was partly destroyed but the horse was saved. The barn is the property of Mrs. Thos. Burris, and was not insured. Mr. Offer has no doubt the fire was the work of incendiarism as all the doors of the building were locked and nobody was in after six o'clock in the evening. It is only a pity that the dastardly wretch, whoever he may be, should not be discovered and punished to the full extent of the law, for such occurrences have been too frequent in our city of late.

SUMMERSIDE NEWS.

A Day's Budget of Western Items.

Branch Office, Central St.

The Trustees of the Methodist Church met Tuesday evening, at 7.30, to consider improvements in connection with church property.

MR. JAMES BARCLAY, of O'Leary, has been engaged during the winter getting a ship's frame for Mr. J. W. Richards, of Bideford, Lot 12. Mr. Barclay has just completed his contract and informs us that the ship, when ready to leave the launch-ways, will register about 500 tons.

The lumber mills throughout the western end of Prince County have been doing a rushing business during the winter. All the farmers who have large groves of lumber on their land are having it converted into boards and shingles, and placing it on the market in a manufactured state.

We are informed that the openings in the ice, on Bideford Bay at the point where the mussel-mat was raised, have not been brushed and are in a dangerous condition for unacquainted travellers. This matter should be attended to at once, or it may be our painful duty to chronicle some serious accidents in the near future.

FRIDAY afternoon, as a gentleman and his daughter from Fifteen Point, were crossing the Bay and near the slip at the great end of Water Street, their horse broke through the ice and, owing to a sudden lurch of the sleigh, the young lady was precipitated under the sinking horse. It was with some difficulty that her father rescued her and help arriving, the horse was also got safely to land.

We are informed that Mr. W. Cheverie, Station agent for the P. E. I. R. at St. John's, will act in the same capacity. The fact that the residents of O'Leary are preparing an elaborate address which will be presented to Mr. Cheverie before his departure, is indicative of the high degree of popularity and esteem in which he is held by the people.

Those engaged in the mussel mud digging industry on Bideford Bay were obliged to make their appearance Friday owing to the rapidly increasing rottenness of the ice. We understand that this season has been one of the poorest for some years for furnishing the neighboring townships with this great fertilizer, and no doubt the shortage will also be noticeable in the grain crop this fall in some sections of the country which depend on Bideford for manure.

The Y. M. C. A. anniversary meeting which was announced through the columns of the Charlottetown church, was especially entertaining as well as instructive. At 7.45 a large audience having assembled, Mr. E. Wright, who presided, called the meeting to order and explained that the object of the meeting was to present the annual report of the work done in the various departments of the association, stating the duties of the officers and giving an idea of what association work really is. A number of books and magazines have been added during the year. Nine socials have been held, which were much appreciated and enjoyed. Mr. McKay then read the auditors' report and referring to the small balance of cash on hand earnestly requested the audience to remember this when the contribution box was passed around. Singing was the next item on the program, followed by a report of the boys' branch, read by Mr. E. E. McSwain, whom we must say delivered the report in a very creditable manner. Mr. Robert Sutcliffe, of Charlottetown, delivered a discourse, taking for his subject Chron: 12, 1-2. In reference to the Y. M. C. A. of Summerside he said he was greatly surprised on learning that there was no gymnasium in connection with it, and expressed great confidence in the influence which such a department, he believes, has on the bodily and mental vigor of those who patronize them. In referring to literature he strongly advised the young men of Summerside to only read books which were pure in expression and of such books to appropriate every opportunity which offered for their personal reading that Livingstone had his book beside him while at work. In reference to spiritual and religious life he said some of the young men of Summerside thought that religion was not fit for men, and in order to correct this idea he referred them to the lives of some great men, Gladstone, General Gordon and a few others who never commenced their daily duties without prayer to the Supreme Being. A collection was then taken, during which the staidness were treated to instrumental music by Mr. P. Welsh, organist and Messrs. W. Huestis and W. Bowness concert players, after which the meeting was dismissed.

Singing was the next item on the program, followed by a report of the boys' branch, read by Mr. E. E. McSwain, whom we must say delivered the report in a very creditable manner. Mr. Robert Sutcliffe, of Charlottetown, delivered a discourse, taking for his subject Chron: 12, 1-2. In reference to the Y. M. C. A. of Summerside he said he was greatly surprised on learning that there was no gymnasium in connection with it, and expressed great confidence in the influence which such a department, he believes, has on the bodily and mental vigor of those who patronize them. In referring to literature he strongly advised the young men of Summerside to only read books which were pure in expression and of such books to appropriate every opportunity which offered for their personal reading that Livingstone had his book beside him while at work. In reference to spiritual and religious life he said some of the young men of Summerside thought that religion was not fit for men, and in order to correct this idea he referred them to the lives of some great men, Gladstone, General Gordon and a few others who never commenced their daily duties without prayer to the Supreme Being. A collection was then taken, during which the staidness were treated to instrumental music by Mr. P. Welsh, organist and Messrs. W. Huestis and W. Bowness concert players, after which the meeting was dismissed.

The Y. M. C. A. anniversary meeting which was announced through the columns of the Charlottetown church, was especially entertaining as well as instructive. At 7.45 a large audience having assembled, Mr. E. Wright, who presided, called the meeting to order and explained that the object of the meeting was to present the annual report of the work done in the various departments of the association, stating the duties of the officers and giving an idea of what association work really is. A number of books and magazines have been added during the year. Nine socials have been held, which were much appreciated and enjoyed. Mr. McKay then read the auditors' report and referring to the small balance of cash on hand earnestly requested the audience to remember this when the contribution box was passed around.
