[SPECIAL DESPATCHES TO THE EXAMINER.]
The Address in Reply Moved by Tupper and Wood.—Union Bank and Bank of N. S.

OTTAWA, Feb. 13.
The address in reply to the Speech from the Throne was moved yesterday by Mr. Tupper, son of Sir Charles, M. P. for Paton, N. S. His maiden effort was able, and created a good impression on the House. It was seconded by Mr. Josiah Wood, M. P. for Westmorland, N. B. Mr. Wood made an excellent speech yesterday. He showed himself to be master of the subject which he handled.

Both mover and seconder were complimented by the different speakers who followed them.
A petition was yesterday presented to the House of Commons praying for a bill authorizing the amalgamation of the Union Bank of P. E. Island with the Bank of Nova Scotia.

FREE TRADE PROTECTION is the subject for discussion at the Y. M. C. A. Debating Club and Literary Society tonight, to be opened by A. McNeill, Esq. The public are respectfully invited.

The Agent of the Redpath Lyceum Bureau informs us that he is making arrangements for two lectures from the eminent orator, Rev. Joseph Cook, to be given in this city about the 1st of July next. Our citizens will, no doubt, look forward with great pleasure for this important event.

A poor woman of unsound mind, named Mary Murphy, was found in a very helpless condition on Sunday morning last on the railway track in Lot 11. She had been out all through the preceding very cold night, and her two feet were badly frozen. Having no home, she was brought yesterday by the charitable person who found her, to the City Hospital. Amputation of the greater portion of both feet will, we learn, be unavoidable. This is another instance showing the necessity for a hospital for the poor and afflicted.

THE Whitehall Review has the following: "Skaters are much exercised as to the relative speed of Fish Smart, the English champion, and Paulsen, the champion of Norway, the latter of whom is now in this country. There was some talk of a match at the Southport Glaciarium, but the authorities have wisely ruled that no proper test could take place on so confined a surface, and so the champions will have to wait till the next frost has made the ice hard." Paulsen was in Halifax last week and gave a few valuable hints to some skating.

To the Editor of the Patriot.
SIR.—Your statement that I am the author of an article in the EXAMINER commenting on the Chief Justice's decision in the King's County Election Case, is not true.

I did not write the article, nor do I know who did, nor did I suggest it. I know nothing about it. I have not even read it, for I left town the day it appeared and I have not yet seen that issue of THE EXAMINER.

It is not my custom to notice the impertinence of an anonymous scribbler, but in this case you have, by an editorial, adopted it and made it your own.

Yours, etc.,
EDWARD J. HODGSON.

King's County Speaks for Her Rights.

To the Editor of the Examiner.

SIR.—The present agitation for more efficient steam communication between this Province and the Mainland, it is hoped will result in something more being done than has yet been accomplished. Every one who gives the subject any consideration must admit that if this Island is to keep pace with other parts of the Dominion, it must, of necessity, have increased and improved means of communication with the railway system of the larger Provinces. The literal fulfilment of the Terms of Union is now being strongly urged by some of our leading politicians. I, for one, sincerely hope that their efforts may be crowned with success, and that the Dominion Government may be induced at an early day to either literally fulfil the Terms of Union, or failing to do so, grant the people of the Island full compensation for the loss sustained through non-fulfilment of the bargain entered into in good faith, at the time they joined the Confederation.

Among the arguments used by the "literal fulfilment" advocates there are one or two statements on which I am not quite clear. They declare, through the press and from the platform, that it is not the duty of the people of this Island to indicate the route nor even suggest the means whereby the difficulties of navigating the Straits of Northumberland in mid-winter may be overcome. The problem of successful winter navigation they assert, remains for the Dominion Government to solve. From a popular standpoint, these assertions, I admit, look plausible enough. The advisability of acting upon them however is open to question. In fact some of our leading men who profess to be in favor of such a course appear to have little faith in it, for they are even now engaged in securing signatures to petitions in which the Dominion Government are requested to do certain specific things by way of (literally) carrying out the Terms of Union.

With regard to these petitions I have to express surprise that in the matter of steam accommodation during the summer months, King's County is ignored altogether! Surely if Charlottetown and Summerside are to have daily trips, Georgetown, Souris and Murray Harbor are entitled to semi-weekly trips at least. I have no desire to arouse a selfish or sectional feeling in this or any other public matter, but in the interests of fair play and equal rights, I would ask electors of King's County to withhold their signatures from the petitions in question until their rights are recognized in any appeal that may be made to the Federal Government for fulfilment of the terms of Union.

While writing on this subject I may say that I fear many of those who advocate the Capes route as the only feasible one for communication with the mainland will live to regret their action in the matter. I would hazard the opinion that King's is not the only County that will be effected by the proposed change of mail route. It is no secret that the building of branch railways to the Capes, and the placing of steamers on that route, mean nothing more or less than the making that the permanent highway across the Strait, both for summer and winter travel.

You are aware that the contract between the Dominion Government and the Island S. N. Co., has already expired, and that this line is subsidized only from year to year until the branch lines are completed. When, in all probability, this subsidy will be withdrawn altogether, as the government does not often subsidize boats except those carrying the mails. I would like to know how the enthusiastic Capes route advocates of Queen's County would like this arrangement. As for King's County it cannot be worse off than under the proposed scheme of the petition now in circulation.

I remain,
SENTINEL.

IN MEMORIAM

LINES WRITTEN ON THE DEATH OF JAMES E. KING, AT MADISON, WIS., SOME TIME AGO:

Ah Death! what hast thou done?
Thy cruel icy hand we see,
Upon the brow of a fair victim,
Whose lips are quivering with thee.

Thou hast filled our hearts with sadness,
As we look upon thy deed,
Yes, oh Death, where is thy victory,
In our never-changing creed!

Oh Heavenly Father comfort them,
That mourn the loss of a loving son,
And fill their hearts with thy words:
"Not my will, but thine be done!"

Sorrowing one bound by sacred ties,
To him who is no more,
Look upon him as a new-made star,
Shining for you on yon celestial shore.

Mournfully lay our dear friend to rest,
Be each the cold, cold sod,
And look to Him who willed it so,
For 'twas none else but God.

FRED. J. GARBETT, M. D., Graduate of the London University, Dean and Registrar of the Boston Medical College of Specialists, says:—"I had tried every system of treatment for the cure of nervous prostration, partial paralysis, and abouic dyspepsia. Persuaded, much against my will, to try the Pad system, I put it on, and in two days found that the paralysis of the nerves had been conquered, the entire nervous system toned up, and now—six months from the day of application—I am free from any symptoms of nervous debility or dyspeptic tendency. In my professional practice as a Physician, in private life and among my personal friends, I shall deem it my bounden duty and my highest privilege, as an act of gratitude, to counsel and enforce this treatment, as the only reliable and effectual remedial agency having for its origin the stomach, liver, brain, and great nerve centres.
