Observation Tower Planned World Record

MONTREAL (CP)—An offer to build a needle-shaped observation tower 1,300 feet high, overlooking the site of the 1967 Montreal world's fair, was announced Tuesday by a 15-man group.

The sponsors said the $9,000,000 tower would be the highest in the world, and would include a circular gondola containing restaurants, lounges and observation decks 950 feet above the ground.

Co - ordinators of the sponsoring group are Stanley Singer, Ralph C. Tees and Norman S. Brooke, all officers of the Guardian Trust Company. The other sponsors are Montrealers with the exception of restaurant consultant Robert J. Paynter of New York.

A spokesman for the fair corporation said the offer is under consideration but prior approval would have to come from the city of Montreal since the tower would be a permanent structure.

Sponsors offered to give the tower to the city once they have recovered their original investment, which they estimated would take about eight years.

Montreal Doctor Assesses Treatment Of Mental Illness

OTTAWA (CP) — General practitioners can be highly successful in treating many forms of mental illness but they should not attempt psychiatric treatment of sexual deviates or patients with severe symptoms of depression, a psychiatrist, said Tuesday.

Dr. Ewen Cameron, head of McGill University's psychiatry department and president of the World Psychiatric Association, told 100 physicians and psychiatrists that family doctors could be of real assistance to their patients in a time of family crisis.

"If someone is involved in a severe accident, or suffers bereavement, the physician, along with treating physical symptoms, can use basic psychiatric principles to help the patient maintain his mental health," the Montreal psychiatrist said.

Dr. Cameron spoke during a three-hour appraisal of medical education in psychiatry at a conference here on Medical Action for Mental Health, sponsored jointly by the Canadian Medical Association, the Canadian Mental Health Association and the Canadian Psychiatry Association.
