THE DAILY EXAMINER

JUNE 18, 1900

FALLING TO PIECES.

SIR WILFRID LAURIER'S following is in a state of chaos. The Montreal Gazette says:—

"Sir Wilfrid will find division in his own city, Quebec, where the chief Liberal paper has been telling him that the party are not ready for an election. He will find it in Montreal, where strong Liberal supporters are kicking against the man his Government desires to appoint to a second-rate office. He will find it in Manitoba, where his Minister of the Interior is actually hated by a section of the Liberals, and where his chief newspaper organ is daily derided by the rest of the Liberal press. He will find it in British Columbia, where 'Joe' Martin, the man he congratulated on winning a seat in Parliament, is seeking for votes on the platform that he doesn't care whether Laurier tries to help or to hurt him. He will find it in Ontario, in New Brunswick, in Nova Scotia, and in Prince Edward Island, where a Liberal Government has broken the rules of honour and outraged the constitution to keep a dissident Liberal out of his seat in the Legislature."

Disintegration is in progress from one end of the Dominion to the other. But the observable movement is as nothing compared to the slump among the masses. Conservatives, who voted Liberal at the last election for this or that reason, have returned to their party. Independents are disgusted, and clean Liberals are falling away because of the broken pledges and corruption, and the ballot-box stuffing. The universal feeling is that for the present Government one term is quite enough.

THE REIGN OF EVIL.

"PINEAU, who was elected to oppose the Government of Prince Edward Island, is keeping it in office by a majority of one. By his vote alone Liberalism holds office in Prince Edward Island.

"Martia is Premier in British Columbia, having been named as such while the overwhelming majority of the Legislature was opposed to him. In violation of the constitution he has been kept in office by the agent of the Laurier Government.

"Greenway, who went from one end of Manitoba to the other solemnly declaring that he was opposed to railway subsidies, has since his defeat been convicted of secret deals with the railways, directly contrary to his professions before the public.

"Two Liberals at Ottawa sit in the House of Commons in seats that were stolen by the most criminal methods. Violation of the code of political honour, contempt of the constitution, transparent deception, and finally criminal tampering with the ballot-box, have blackened this country. Is it not time that honest men called a halt to the reign of rotten politics?"—Quebec Chronicle.

NOTES AND COMMENTS.

—In the action of the Transvaal Government against the Franko-Belgian Company, which constructed the Kooms-Biselate Railway, begun yesterday, the company is charged with fraud in demanding £9,600 per mile, whereas the cost was really only £7,200. The defence put forward by the company is that the difference was spent in the bribery of the receivers of the road, including President Kruger and his son-in-law, Eloff.

—The United States Democrats are building hopes that they will carry New York in November, because since 1872 it has never voted twice in a presidential contest in the same way. Here is the record giving year, successful candidate and plurality:—

1872	Grant	Republican	22,515
1876	Tilden	Democrat	5,516
1880	Garfield	Republican	6,641
1884	Cleveland	Democrat	6,512
1888	Harrison	Republican	2,348
1892	Cleveland	Democrat	7,125
1896	McKinley	Republican	18,181

The coincidence is peculiar, but that is about all. The quadrennial changes had reason behind them; but, as has been happily remarked, there will be no reason in 1900 for changing from McKinley to Bryan.

—The Montreal Witness has been erroneously led to suppose that the Farquharson Prohibition Act, is from a temperance point of view, something worth while. It will discover the mistake by-and-by. In the meantime it has the justice to say: "Yet it remains true that the worst shuffling has been done by Liberals who, being the most advanced in this matter, have received the greatest amount of support from the temperance people and prohibitionists, though this may have been largely because Liberals are more generally temperance men and prohibitionists than are the Conservatives. Liberal governments for the same reason have made more promises and excited hopes on the part of the prohibitionists which have not been

realized. The course of Mr. Macdonald's government will certainly be contrasted with that of the Mowat, Hardy and Ross governments, much to the disadvantage of the Liberal Government at Ottawa."

—The St. John Globe says:—"Prohibitionists ought to be well satisfied with the condition of affairs in Prince Edward Island, and persons who do not believe in prohibition will enjoy the satisfaction of watching the result of the experiment in a province where such a law can be more easily enforced than in any other province in the Dominion. It can be claimed that public opinion is strongly in favor of the law, for it was passed by unanimous vote in the Legislature. The only objection of the opposition was that the act was not stringent enough. Many of the Island legislators in the last twelve months changed their minds on the temperance question, for at the previous session a majority supported the government in enacting a liquor license measure. There is a strong temperance sentiment on the Island, otherwise the legislators could not have been so united, and it may, therefore, be assumed that the authorities will have little difficulty in enforcing the new law. An object lesson in temperance legislation will be afforded the entire country." Those who "will enjoy the satisfaction of watching the result of the experiment" ought to know that the law will be applied only in Charlottetown; and then, all the "clubs" will be, legally, in full blast.

SEVERE CRITICISM OF TARTE.

St. James' Gazette Urges Sir Wilfrid to Recall Him.

MONTREAL, June 4.—The Star's London correspondent cables: "The St. James' Gazette, a ministerial journal, attacks Hon. Mr. Tarte tonight for his recent utterances, which it alleges, are unbecomingly to a minister of the British colony, for instance, his prophecy that the French element will some day form a majority in the Canadian co-federation, his assertion that the French tri-color now floats over three million Frenchmen in Canada, and his appeal to France to never lose sight of French Canadians."

English journals generally have passed his speeches by as regrettable outbursts of a gallio temperament, but the St. James' Gazette urges Sir Wilfrid Laurier to recall Mr. Tarte to Ottawa, where his speeches give less offence and give rise to fewer misconceptions than in Paris.

LONDON, July 11.—The Paris correspondent of the Daily Chronicle says that Mr. Tarte, in a lecture in the Canadian section last week, conveyed the impression that the province of Quebec was desirous of adopting the tri-color. On Saturday last, in company with a party of French-Canadians, he visited Rouen and delivered a lecture, in which the following words occurred: "I shall go back with what I have seen and heard. We have never ceased to look towards France. May France never lose sight of us. Since the English and Germans find a home with us, why should not Frenchmen, too? Frenchmen who come to us can be certain of finding French laws and arms open ready to welcome them."

The Chronicle correspondent commenting on the speech, says that although Mr. Tarte is quite right in giving utterance to pro-French sentiments, since he is a French Canadian by birth, he is a little apt to forget that he has come to France as the representative of the Dominion of Canada, and not of the province of Quebec. It is a pity, the correspondent concludes, that he does not strive to imitate his predecessor in Paris, Sir Wilfrid Laurier, the present Premier of the Dominion.

ASTHMA

CURED PERMANENTLY.

Why Do You Suffer Night After Night, and Keep Doing Without Temporary Relief Remedies? Clarke's Kola Compound Will Relieve Your Suffering. It Cures Permanently.

Mr. S. Till's case was a most obstinate one, but this marvellous remedy worked the wonder. Was cured with six bottles. Here is his letter in his own words. Mr. S. Till, 142 Dorchester street, St. John, N.B., writes:—"I have been a great sufferer from asthma for nearly ten years. Many months, night after night, I have been so bad that sleep was impossible, and at times I thought I would choke. I used different asthma remedies and doctored with the best physicians in St. John, but my trouble became worse each year. About a year ago I purchased three bottles of Clarke's Kola Compound; then I took three more, and since completing the treatment with this remedy have not had a single attack. I take great pleasure in recommending Dr. Clarke's Kola Compound, which I know has no equal for asthma. Since being cured I have frequently recommended this remedy to others in our city, and they all speak very highly of it." Clarke's Kola Compound is the only permanent cure for asthma yet discovered. Over a thousand complete cures are recorded in Canada alone. All druggists sell it. Write for book telling all about Clarke's Kola Compound, to the Griffiths & Macpherson Co., Limited, 321 Church street, Toronto.

A CORN ESSAY.

The most a "maize"-ing crop raised in the Eastern States is corn. Corn grows very tall. While you can listen to the cornstalk you can't hear it, and although it has ears it can't hear you. While some corn reaches a height of several feet one particular corn on one foot has been known to raise a storm. Corn is being introduced by Mr. Murphy with considerable success in the old country among well bread people. In fact they take the cake in the old country (johnny cake). Corn can be "eaten in the ears," a most peculiar feat. It can also be eaten "canned." Pop corn is a favorite among girls of 39 summers, because it "pops" so nicely. Corn was first grown in Kentucky. That's why it is all "kernels." Corn, when it is cut, gets "shocked." When the extract of corn gets into a man he cuts up, and the neighbors get shocked. We sometimes "acknowledge the corn." We do to-day. We sold so many overcoats this spring that we'll soon be without enough to keep a mosquito warm, We've got some new prices on them too: \$6.00 covert coat, its a full-eared corn to our competitors. One thing we never have to do is "acknowledge the corn" on prices. People do say that the young men's suits that we're showing at \$5.00 are fully as good as suits shown at \$8.00 right in town. They also say that all the difference they can see between our \$3.75 suit and s'mother fellow's five dollar suit is a dollar twenty-five; and they say that our fine suits for big boys and young men are made of better goods than any other store in town carries. You needn't spend ten dollars for an elegant suit if you don't want to. We'll show them to you for less than that, and they're really better than the usual ten dollar ones. They're in sizes to fit boys from fourteen years of age to boys within a year of "old enough to vote." Young man, we're after you.
