The Favorite

Medicine for Throat and Lung Diffi-
culties has long been, and still is, Ayer's
Cherry Pectoral. It cures Croup,
Whooping Cough, Bronchitis, and
Asthma; soothes irritation of the
Larynx and Fauces; strengthens the
Vocal Organs; allays soreness of the
Lungs; prevents Consumption, and,
even in advanced stages of that disease,
relieves Coughing and induces Sleep.
There is no other preparation for dis-
eases of the throat and lungs to be com-
pared with this remedy.

"My wife had a distressing cough,
with pains in the side and breast. We
tried various medicines, but none did
her any good until I got a bottle of
Ayer's Cherry Pectoral, which has cured
her. A neighbor, Mrs. Glenn, had the
measles, and the cough was relieved by
the use of Ayer's Cherry Pectoral. I
have no hesitation in recommending this

Cough Medicine

to every one afflicted."—Robert Horton,
Foreman Headlight, Morrilton, Ark.

"I have been afflicted with asthma
for forty years. Last spring I was taken
with a violent cough, which threatened
to terminate my days. Every one pro-
mised me in consumption. I deter-
mined to try Ayer's Cherry Pectoral.
Its effects were magical. I was immedi-
ately relieved and continued to improve
until entirely recovered."—Joel Ballard,
Guilford, Conn.

"Six months ago I had a severe hem-
orrhage of the lungs, brought on by an
incessant cough which deprived me of
sleep and rest. I tried various reme-
dies, but obtained no relief until I be-
gan to take Ayer's Cherry Pectoral. A
few bottles of this medicine cured me."
Mrs. E. Coburn, 19 Second st., Lowell,
Mass.

"For children afflicted with colds,
coughs, sore throat, or croup, I do not
know of any remedy which will give
more speedy relief than Ayer's Cherry
Pectoral. I have found it, also, invalua-
ble in cases of Whooping Cough."—
Ann Loveloy, 1227 Washington street,
Boston, Mass.

NEW YORK.

Local and Other Items.

CIVIC.—The name of Mr. Theo. L. Chap-
pelle is mentioned as a probable Candidate
for Ward Four.

MAILS.—Fifty-six bags of mail matter ar-
rived in the city by special train from George-
town last evening.

SEVERE WINTER.—A recent despatch says
that the winter in France has thus far been
the severest for fifteen years.

TOO COMMON.—An exchange says that
some of the fashionable young women of New
York have given up piano playing, because
it's too common.

As soon as you discover any falling of the
hair or grayness always use Hall's Hair Re-
newer to tone up the secretions and prevent
baldness or grayness.

SOLED.—The good will of the Montreal Post
and True Witness, together with subscription
list, were sold the other day for the small
sum of six thousand dollars.

WATCHES AND RINGS.—A man named James
Leslie, from Ottawa, was arrested in Mon-
treal on the 9th, charged with stealing jewel-
ry. He had offered \$500 worth of watches,
chains and rings for \$15 to a Montreal dealer.

The weakness and debility which result
from illness may be speedily overcome by the
use of Ayer's Sarsaparilla. This is a safe but
powerful tonic, assists digestion, regulates the
liver and kidneys, and cleanses the blood of
all germs of disease.

THE BRIDE MISSING.—Says a Montreal
despatch of the 9th:—On the 2nd inst., John
A. Flanagan, only son of the late John Flana-
gan, lumber merchant of Quebec, was married
to the only daughter of the late Thomas Mur-
phy, of Sanford, Ontario. The bride left her
room on the 6th and has not since been seen.

INCREASED EMIGRATION TO CANADA.—The
British Board of Trade emigration returns for
the past year, just completed, show a re-
markable steadiness. The total exodus was
280,068, as compared with 281,487 in 1887.
There was a marked decline in emigration to
the United States and Australia. The former
decreased 5,566; the latter 3,900.

MOTHERS who have delicate children can
see them daily improve and gain in flesh and
strength by giving them that perfect food and
medicine, Scott's Emulsion of Cod Liver Oil
with Hypophosphites. Dr. W. A. Hulbert, of
Salsbury, Ills., says: "I have used Scott's
Emulsion in cases of scrofula and debility.
Results most gratifying. My little patients
take it with pleasure." Sold by all Druggists;
50c. and \$1.00.

CORRECTED STATISTICS.—According to cor-
rected returns there were 878 births, 562
deaths and 312 marriages in Westmorland,
N. B., last year. The birth and death re-
turns are not complete, but sufficiently so to
indicate a population of 50,000 in the county.
Of the births, 31 were under 20 years of age
and but three were reported as only 16 ft.
The aggregate age of one Monton couple was
140 years, each being reported at 70. Several
other groomes were over 50, but the next oldest
bride was 47. She married a young man of
31.

AN OPINION OF O'CONNOR.—The most noted
English writer on roving matters says: "I am
inclined to believe that if Searle and O'Con-
nor meet, O'Connor will win. O'Connor
sculls equally as well as Hanlan did in his
best days, with the advantage of being con-
siderably stronger than Hanlan. From the
contents of my private Australian letters, I
shall not be at all surprised if Stansbury at an
early date proves to be the second best sculler
and Beach will act wisely if he does not meas-
ure blades with either Searle or Stansbury."

ONIONS FOR CHILDREN.—A prominent phy-
sician, says the Buffalo Express, was seen buy-
ing a barrel of onions, and being gazed about
this purchase said: "I always have boiled
onions for dinner for the benefit of my child-
ren. I like onions too. They are the best
medicine I know of for preventing colds.
Feed onions, raw, boiled or baked, to the
children three or four times a week, and
they'll grow up healthy and strong. No
worms, no scrofula, or diptheria where
children eat plenty of onions every day."

PROBABLY INSANE.—On Wednesday morn-
ing last Mrs. Ryan, who keeps a small fruit
store on Craig Street, Montreal, went into
the kitchen and was horrified to find her
niece, Mary O'Brien, aged 18, preparing to
swallow a heavy dose of Paris green. She
said her aunt ill-treated her, and she wanted
to escape further misery in this wicked world.
However, when brought before the police
magistrate, the accused said she only wanted
to frighten her aunt, and that even if his
honor, Queen Victoria and her aunt were to
all get down on their knees to her she would
not poison herself. The poor girl is supposed
to be insane.

DOESN'T MIND IT.—An exchange vouches
for the correctness of the following para-
graph:—Luther James a rich and eccentric
bachelor of Ann Arbor, Mich., died a short
time ago and willed a large fortune to his
nephew, George Babcock on condition that
the young man marry within a year. The
will was published, and since then Babcock
has been overwhelmed with tender epistles
from damsels who are dying to marry him—
and his money. Babcock takes the matter
very coolly, looks the ground over carefully,
and does not propose taking a wife until the
last moment. The young man sometimes re-
ceives 50 to 100 proposals by mail in a single
day.

THE SUIT OF DETECTIVE POWER.—A
Portland, Me., despatch of the 7th inst.,
says: The suit of Detective Nicholas
Power, of Halifax, against the Saco and
Biddeford savings institution, to recover
the reward offered for the arrest and con-
viction of Frank C. McNeally, will be
tried at Alfred at the May term of the
Supreme Court. The report that the sav-
ings institution has offered anything to
Detective Power to compromise the suit
is emphatically denied by the officers of the
bank, and they have retained Nathan and
Henry B. Cleaves, of Portland, to defend
the suit. No compromise will be made by
the bank, and the claim of Detective
Power will be resisted to the end.

LETTERS TO THE EDITOR.

Waterworks and Insurance.

SIR,—I must beg space from you to reply
to some remarks appearing in the Patriot of
yesterday, and having reference to a letter
addressed you on the 9th inst., touching
the condition of the reservoir, etc.

I presume the article in the Patriot is in-
tended to be an answer to my questions
addressed to the Water Commissioners.
But why the Commissioners should take
that mode of replying is a mystery to me.
It may be possible that Mr. Laird is de-
sireous of making the whole Grit party and
the Patriot share his short-comings as a
Water Commissioner, as well as his political
faults. One would have thought the latter
load was sufficiently grievous, without add-
ing a fresh one to it.

I asked two civil questions and expected
two civil answers. Mr. Laird, for reasons
best known to himself, has shirked the first
question altogether, and charges the in-
surance companies with trying to evade
some general understanding which, he says,
was had with reference to a reduction of
rates on the introduction of water. The
reason he shirks the question is that the
reservoir, at present, is perfectly useless,
and he wishes to conceal that fact from the
public. Nevertheless, it is so, and the
reservoir is nothing more than a big failure,
which somebody will have to foot the bill
for later on.

Without the reservoir the supply of
water is very uncertain, as a trifling acci-
dent to the pumps or the pipes would shut
it off completely.

The fire department is admitted to be in-
efficient; and with incomplete waterworks
I think it is safe to say the Underwriters
will not consider the question of a revision
of the tariff until the reservoir is service-
able.

Mr. Laird says my second question is an
absurd one; and he tries to make us believe
there is no more pressure on the pipes
when the pumps are forcing the water over
the heights of Mount Edward than there
would be if the water was running by
gravitation from the reservoir to the city.
I believe it can be shown that there is
much more pressure, and the danger of
bursting is proportionately increased.

The Underwriters, surely, have the same
right to await the result of the waterworks
as the Commissioners have in delaying the
taking of them off the contractors' hands.

Yours respectfully,

AGENT.

The "Survivor" Rises to Remark.

SIR,—The trade and shipping correspon-
dent of the Patriot at Montague has changed
his tune. His melody is becoming shrill.
Instead of the dismal creak of the bird of
evil omen, we have now the scream of the
eagle blending in symphony with the cry
of the falcon.

Last week, in the columns of the Patriot,
he treated his Annexationist fiddlings to a
feast of pikes, and wound up his entertain-
ments with the song of the raptorial an-
chist. A single specimen may suffice:

"Free trade maintains the right of man
To buy where'er he chooses,
And pay as little as he can
For everything he uses."

The enterprising merchants of Montague
will please note the concluding lines of this
stanza—they should have been underscored
by the correspondent—as they comprise
the Alpha and Omega of his beneficent
gospel of free trade. The member from
New Perth, for whose "special benefit"
some twenty stanzas of wretched doggerel
similar to the foregoing, have been repro-
duced while exceedingly grateful to the
Montague scribe of the dolorous pen for
the kind interest that prompted him to the
trouble of selecting and preparing this for-
midable dish of "savory" Salmagundian
free trade literature, feels, nevertheless, that
he can employ his leisure to better purpose
in scanning the pages of the Bard of Hope
especially, as he believes the "rhymes"
referred to and no doubt rudely meant as
a corrective (?) contain more deadly poison
than all the "monopolist literature" he
has ever imbibed.

Georgetown Notes.

The str. Montague took a full load of freight
to Montague Bridge to-day. Captain Fair-
child reports not one cake of ice in the way,
something unheard of in the history of the
Province at this season of the year.

The str. Stanley is making daily trips,
conveying on an average from five to six
cars of freight a trip.

Our harbor is as open as in July. There
is not any ice made yet in the docks around
the wharves.

The schr. R. Munn is still carrying out
between Grand River and this port, for A.

Mr. Adam Wight, of Sturgeon, sold two
hogs, the same age, weighing 360 pounds
each.
