The Efficacy of Oil

TO STILL THE TROUBLED WATERS DURING OCEAN STORMS.

The Hydrographic office, at Washington, has received during the last month about a dozen letters from officers of steam and sailing vessels, narrating their experience in the use of oil in the time of storms at sea for the purpose of smoothing the water. There is a singular unanimity in the conclusions of the writers that almost at the instant the oil touched the water it spread far over the surface, and reduced the billows to long and heavy, but harmless, swells. The writers describe a variety of plans for applying the oil. Several of them attribute the rescue of their ships and crews from destruction to the application. Of the hundreds of similar letters received in the past, no instance of failure has been narrated, when the oil was vegetable or fish oil. Kerosene and the lighter oils have sometimes failed to produce the effect desired.

"Isn't that Mrs. Holmes? I thought the doctors gave her up. She looks well now." "She *is* well. After the doctors gave up her case, she tried Dr. Pierce's Favorite Prescription, and began to get better right away. I heard her say not long ago, that she hadn't felt so well in twenty years. She does her own work and says that life is worth living, at last." "Why," said she, "I feel as if I had been raised from the dead, almost." Thus do thousands attest the marvellous efficacy of this God-given remedy for female weakness, prolapsus, ulceration, leucorrhœa, morning sickness, weakness of stomach, tendency to cancerous disease, nervous prostration, general debility and kindred affections. f a w

PROFESSOR GRADY is engaged at the Osborne House in the humane employment of teaching the stammerer and the stutterer to speak plain. The Professor has the "golden key," and knows how to use it. His method is exceedingly simple (we speak from personal observation), and we believe he ensures a perfect or almost perfect cure in every case—no matter how bad it may be. Certainly there seems to be no reason why any stammerer or stutterer (not an idiot) may not be absolutely and permanently cured by following the simple, never-to-be-forgotten rule laid down by Professor Grady.
