CANADIAN APPLES AHEAD.—Mc. D. Macaulay, an extensive fruit grower of Peton, Ontario, lately returned from England, whither he had been, we presume, in the interest of some shipments of fruit. This gentleman reports that Canadian apples brought from seventy cents to nearly a dollar more per barrel than similar varieties of the same fruit grown in the United States. Nova Scotia apples are coming into some disfavor on account of the small barrels and bad packing.

You don't want soap or soda, or the common washing powder any more, when you use the Lessive Phenix. Every woman who has used it—and there is a legion in France, England, and Canada—says it is the greatest household blessing. For it washes and cleans everything, from the costly dress goods to the common tinware dish. The misery of the wash is gone. No more chapped hands. Hard water becomes soft. Just think—Lessive Phenix is so comprehensive in its work that it makes all kinds of white clothing like snow, but it will make dirty zinc to shine again! Ask your grocer.

QUEEN'S WHARF.—This property belonging to the corporation of Charlottetown, has been for many years under lease to different parties and recently, for want of repair it ceased to be a source of revenue to the city. The present City Council, however, has the wharf now under contract for its repairing, or at least speaking its rebuilding. The contractor, Mr. Egan, is an honest and working mechanic who thoroughly understands his work, and judging from the progress already made, it may be fairly assumed that Mr. Egan will complete his contract in a satisfactory manner. He will use the best stone and the best materials in the construction of the work. The contract provides for the erection of a new dock extending from the old wharf into deep water, by which an additional depth of over ten feet will be had, so that large ships and steamers can load and discharge cargoes at the wharf with every facility required. The new Queen's wharf, which is to be completed during the coming season, will be a substantial and permanent work, which for many years to come will be a source of revenue to the city. The credit of this acquisition to the city property is almost entirely due to Councilor Morrie, who in the face of much opposition succeeded in causing tenders to be called for, and the work to be let to the lowest tenderer, thereby securing valuable wharf property which otherwise would have been lost to the city.

SPECIAL DESPATCHES TO THE EXAMINER.

DYING OR DEAD?

HALIFAX, Jan. 13.

A special despatch from Ottawa says that a cablegram has been received there, announcing the death of the Duke of Clarence.

A press despatch received at Halifax says that he is in a critical condition.

Behring Sea Difficulty.

WASHINGTON, Jan. 13.

The Behring Sea question was before the Cabinet yesterday. It is understood that the case has taken a favorable turn within the past few days. Lord Salisbury will agree to Mr. Blaine's suggestion as to the method of selecting three of the arbitrators from countries which have no interest in the questions at issue. One of Great Britain's representatives will probably be a Canadian, and it is likely that one of the arbitrators on the part of the United States will be a Republican, and another a Democrat. Mr. J. Phelps, United States' minister to England, will likely be one of the United States arbitrators.

Candidates Nominated.

HALIFAX, Jan. 13.

Mr. Dickey has been again unanimously selected as the Liberal-Conservative candidate for Cumberland Co.

Messrs. Jones and Farrell were nominated by the Halifax Grits last night.

General Telegraphic News.

STELLAKTON, Jan. 11.—B. D. Rogers, merchant of this town, while driving over the railway track crossing this morning, was struck by the down train to New Glasgow. The horse was killed, and the buggy broken to pieces, while Mr. Rogers escaped with a few bruises. No blame is attached to the train hands, as the train was only moving slowly, the whistle was blown, the bell rang and the train stopped almost instantly.

WINNIPEG, Jan. 11.—In order to encourage settlement of the lands of the Canadian Pacific Railway, it has been decided to make a material reduction in the price of lands, which have hitherto been held at \$4 per acre and upwards, excepting such lands as are especially valuable on account of their proximity to the railway stations. The land which has heretofore been held at \$4 per acre will be sold at about \$3; those that have been held at \$5 and \$6 per acre will be sold at about \$4.50 per acre.

READING, Pa., Jan. 11.—Diphtheria is a violently epidemic in several places in this section. In the vicinity of Cross Kill Mills, more than 15 children have died, including four in one family and three in different families in one night. The spread of the disease is attributed to the fact that the funerals of the victims are public and that large crowds attend.

MADRID, Jan. 11.—The Spanish Minister at Tangier telegraphs that the Arabs are still threatening that place, but the lives and property of the Europeans are guaranteed by foreign men-of-war, which will act in concert, if necessary, to protect Tangier.

MONTREAL, Jan. 11.—It is stated that a movement is on foot to form a combine of cigar manufacturers for the whole Dominion, and some preliminary meetings have already taken place. If the project goes through, factories will be established in Montreal, St. John, N. B., Toronto and Vancouver.

PARIS, Jan. 11.—L. Soleil, commenting on the Egyptian situation, says: "France being alone in opposition to England and M. D'effrayant having presided over the cabinet which allowed England to enter Egypt alone, it is more than probable the Government will do nothing whatever with regard to Egypt, especially as Turkey is certain to back out of any difficulty."

OTTAWA, Jan. 11.—Arrangements for the postponement of the Metrey Connolly trial were made to-day. The accused were admitted to bail for \$10,000 each, Hugh Ryan and John Henry becoming their bondsmen. The Grand Jury returned no bills in the case against Michael Connolly and Patrick Larkin for conspiracy.

CHICAGO, Jan. 11.—The News says a new political organization has been formed combining the laboring men in protected trades, farmers who are not in the alliance and Democrats and Republicans generally who believe in Blaine and reciprocity. The organization is secret and oath-bound, and is to be a union of Knights of Reciprocity and the Continental League.

INDIANAPOLIS, Ind., Jan. 11.—The street railroad employees of this city struck yesterday because the company decided that employees, except when engaged on the company business, must hereafter pay their fare when riding on the cars. The whole street car system here is tied up.

SAVED!

The testimonial below refers to a patient who was pronounced incurable by leading physicians in England:

From Rev. Dr. Hill.

M. F. Egan, Esq. HALIFAX, N. S.

Dear Sir,—I feel that it is due to you that I should say publicly what I have said privately very many times, namely, that I firmly believe your PHOSPHOLEINE was the means of restoring a near relative of mine to ordinary health. The patient was apparently in the last stages of Consumption, but with the concurrence of skilled physicians your PHOSPHOLEINE was tried, and, I am happy to say, with results that I certainly did not anticipate. My friend is to-day in the enjoyment of excellent health.

Believe me, yours very truly,

GEORGE W. HILL, D. C. L., Rector St. Paul's.
