

# International Student Association

The term "International Students" has often been used to refer to students whose permanent residences are not in Canada. This may, therefore, cause many to think that the International Students' Association (I.S.A.) membership is restricted to students "from away". That is NOT the case.

It is true that our membership consists primarily of students "from away" (I like that phrase) but that is not to say that we are not open to receiving any others. We will not be making any progress towards achieving our goal of promoting International co-operation, particularly if we lack what I call "Canadian content" in the Association. I.S.A. aspires to be a real microcosm of the world community. We need your help!!!!

Hey, would you like to travel to some other country without actually leaving P.E.I.? Experience the world with us!... We invite all students, faculty and staff of this university to join us in our activities this coming year. We will keep you posted on our schedule of activities for this year through this newspaper. You may also look around for our posters every now and then.

In the very near future, we will be starting an educational series on some of the social institutions of countries around the world. We will also attempt to keep you up to date with significant happenings from around the world. We will very much appreciate any feedback that we can get from you regarding what you read in this column. We can most definitely use your comments.

## UPCOMING EVENTS
