SOME HARD SENSE

Life is not a picnic. Of course, there can be lots of fun crowded into it, in a proper way, but on the whole it is a matter of hard and earnest work.

The men who work the hardest are the happiest.

Those who are happiest in their work are the most successful.

Every lick you put in now will be of benefit hereafter. No matter what your pay may be do the best that is within you.

We can't all get rich by lying on flowery beds of ease while other's fight to win the prize or sail through each day with colors at the masthead and every yard of canvas set. Work is the most healthful, invigorating tonic that poor human nature can help itself to.

Remember that if you are well and busy you must, as a result, be happy.—Hardware.

Mrs. Caterer—It is, Mr. Transient, and I wish you would try to make it go as far as you can.

Mr. Transient—With pleasure, Mrs. Caterer (opens window and throws butter against back fence). There! If it hadn't been for that fence, I could have made it go a little farther yet.—Boston Courier.

Not Unique.

"Madam," said the smooth spoken tramp, "I am not an ordinary hobo!"

"Oh, I don't know," said the lynx eyed housekeeper, as she leisurely took down her husband's gun from the wall, "you're about the same as the rest of 'em. You can work, but you won't. Git." And he gat.—Vim.

A NEW MEANS OF STERILIZATION.

One of the simplest and most thorough methods of sterilizing when it can be used is by means of heat. One of the difficulties in the use of this means is that the articles may be spoiled, especially where the heat is long continued. Baking or placing articles in dry heat for any length of time is not only an unreliable method, but attended with the danger of fire if a degree of heat is sufficiently thorough to sterilize them. Boiling or steaming is objectionable because most things would be rendered useless from the contact with moisture. Experiments have proved that hot oil is one of the best sterilizers known, especially for instruments.

One of our most eminent surgeons has demonstrated the fact that the most complete sterilizing follows the dipping of surgical instruments into boiling olive oil. One may determine the temperature of the oil by a very simple process of dropping bread crumbs into the oil. When they turn brown and crisp, the oil is hot enough for the surgeon's use. This is much more convenient than using the thermometer, which may not always be at hand. The oil may be heated over a spirit lamp, and a few spoonfuls will be sufficient for sterilizing the instruments used in some of the more simple operations.—Exchange.

A Real Gentle Horse.

"I want a gentle horse for my wife to drive," said the prospective purchaser. "Can you recommend this one?"

"Yes, indeed," replied the owner. "There is not a safer horse for a lady to be found anywhere, and there is but one thing he's afraid of."

"And what is that?" asked the other. "He is awfully afraid some one will say 'Whoa!' to him and he won't hear it," replied the conscientious owner.—New York World.

HEED THE DOCTOR.

Benefit by the Advice he Gave his Friend the Lawyer.

And You'll Never Have Dyspepsia—Dodd's Dyspepsia Tablets the Safest, Surest, Pleasantest and Quickest Cure Known—They Never Fail.

"Why are business men so generally afflicted with Dyspepsia and Indigestion?" The question was asked by a prominent lawyer, the other day, of an equally prominent physician.

"My experience has taught me that business men and professional men in nine cases out of ten suffer from Dyspepsia and Indigestion," answered the doctor. "And when I was first struck by the circumstance, I began to look into the cause of the state of things. I have never ceased to investigate, so far as I can, every such case with which I come in contact.

"I have found that in the vast majority of cases the trouble is due to one of two causes."

"And what are they?" queried the lawyer.

"In the case of a merchant, for instance, you'll find that worry and anxiety, 'business cares,' are the predisposing causes.

"In the case of a lawyer, who has little time to spare from business, the 'lunches' he eats every day cannot help but give Dyspepsia. They are frequently ill-cooked; the bread, buns, etc. are only half baked; the tea or coffee is swallowed almost boiling hot, the food is 'boiled' rapidly, and the lawyer rushes off to work again."

"There's not much hope of a change in that direction," said the lawyer.

"No, but if the lawyer and the merchant were to carry in their vest pockets a few of Dodd's Dyspepsia Tablets they would find that they would never again be troubled by Indigestion, or Dyspepsia, for Dodd's Dyspepsia Tablets digest the food for you. They are the only medicine I know of that will positively prevent and cure Dyspepsia, Indigestion, and all other Stomach Troubles."

Weak and Run Down, With Heart and Kidneys in Bad Condition—Restored by Hood's Sarsaparilla.

"I was very much run down, having been sick for several months. I had been trying different remedies which did me no good. I would have severe spells of coughing that would leave me prostrate. I was told that my lungs were affected, and my heart and kidneys were in a bad condition. In fact, it seemed as though every organ was out of order. I felt that something must be done and my brother advised me to try Hood's Sarsaparilla. I procured a bottle and began taking it. Before it was half gone I felt that it was helping me. I continued its use and it has made me a new woman. I cannot praise it too highly." MRS. SUMMERVILLE, 217 Ossington Avenue, Toronto, Ontario. Get only Hood's, because
