PUBLIC FORUM

businessmen; but we also have the dealer who likes to cut prices rather than not sell.

The export potato contractor has a carefully executed plan which is exacted by the farmer. He offers \$1.25 to \$1.50 for 100 lbs. of No. 1 seed potatoes and \$1.00 to \$1.25 for certified seed and 80 cents for table stock. The farmer has to sell his potatoes at their net price received from Southern P.E.I. potatoes.

This is nothing short of dictation, telling a farmer that he will not be able to sell his potatoes at the cost of production, take it or leave it, without the farmers having a word to say in what they buy or sell.

Our farmers have no alternative but to accept what is presented to them by appointing their friends, one from each county, to represent them in view of demand from our government, and Dominion government.

These representatives must be practical farmers who must be given legislative power by our provincial government to examine all potato contracts with the power to accept or reject as they see fit, before these contracts are considered legal, also that their finding of each potato contract be published in a daily newspaper.

Also these representatives should be given the right to bring government in before July 30, 1964 for a guaranteed price based on the cost of production, with the best limit.

In the event of failing to get a guaranteed price, it has been commonly suggested that these three farmers act in an advisory capacity to the government.

It was noted that the sale of all potatoes from the island of next year's crop, through the export channel, would enable us to get a price above the cost of production. This however is not a realistic demand, as the price agreed to by all P.E.I. farmers.

In conclusion we the bona fide farmers are not unreasonable in our demands. It is Mr. MacEwan's department, with no mortgage or interest to pay, to meet our needs. It is not our business to pay for, and plenty of money government money is available to meet our needs.

Mr. MacEwan's department, with no mortgage or interest to pay, to meet our needs. It is not our business to pay for, and plenty of money government money is available to meet our needs.

Senior Inman Basts Railway

Provision should be made for equipment breakdowns.

OTTAWA (CP) — A tunnel rather than a causeway should be built to link Prince Edward Island with the mainland, Senator P.E.I. Tuesday and at the same time, Senator P.E.I. Edward Island, said Tuesday.

Senator Inman told the upper chamber during a three-hour session that he has no excuse for subjecting travellers to the kinds of inconvenience he experienced on a recent trip to her home province.

She said she and fellow passengers on route from Saint John to Charlottetown were shifted from their car at Moncton into the "new monstrosity of a station recently completed" at the height of a snow and wind storm.

The concourse of the station is so small that it is too small for the traffic using it daily and the seats in the waiting room few and the two trains forlorn.

NEAR-FOODLESS at Tormentine, N.B., the rail ferry to dock and passengers carried a cold and almost inedible lunch because the facilities were so far away that women passengers could not find a place to eat.

Heating facilities on the rail car broke down in 10 below weather and new passengers had to take refuge in a rest room at roadside where the heat they got out was doughnuts and coffee.

At Bordent, P.E.I., after crossing the ferry, passengers had to walk down a dangerous ramp in 100-mile-an-hour winds to get to the unloading ramps were frozen.

Finally, the rail cars provided no food because the inadequate "I feel like saying they were prohibitive."

"It was a waste of experience and I can see no need for it," the weather could be so bad that never have been permitted to go beyond Moncton or at least Sackville, N.B., in the storm.

Stanhope Beach Ass'n Told Lobster Pounds Scheduled

The Stanhope Beach Association meeting held at Montserrat Hall was addressed by Cmdr. Ken Rivest on behalf of the Confederation of P.E.I. Also in attendance as guests among the 57 members present were Mrs. Ira Lewis, Mr. Lewis spoke to the meeting on the history of the National Park.

Cmdr. Rivest outlined the program of events for the National Park and said that it was a program of starting magnitude and that it was unprecedented in P.E.I. history. He said that it was a program of starting magnitude and that it was unprecedented in P.E.I. history.
