

Covers Prince Edward Island Like the Owl... W. J. Hancock, Publisher... Published every week day morning except Sunday and statutory holidays at 265 Prince Street, Charlottetown, P.E.I., by Thomson Newspapers Ltd.

Uncle Sam Gyped... At Washington, members of a special congressional delegation just returned from Viet Nam are raising the roof about the lack of checks and restraints on profiteering carried on by smart-alec Vietnamese at the expense of the U.S. government.

Worth Closer Study... In testimony he gave before the House of Commons committee on justice and legal affairs, Dr. Wallace Troup made some statements worth nothing on the question of mandatory blood or breath tests for drivers whose abilities, police suspect, have been impaired by alcohol.

Canada And The Alaska Panhandle... Kamloops Senator Sydney Smith pleased his Canadian colleagues and startled their USA hosts at their recent joint parliamentary meeting in Washington, by suggesting quietly but firmly that Canada would like USA to hand over the Alaska panhandle.

Health Of Public Men... In a curious way, an article in the current Canadian Medical Association Journal by Dr. J. L. Genesee of Toronto has raised an important question about the health of public men.

Cheaper And Safer... High costs are not always an obstacle to progress. Sometimes, when costs are prohibitive, less expensive methods of doing things are found because there is simply no alternative.

Our Yesterdays... TWENTY-FIVE YEARS AGO (June 13, 1941) British and Free French troops were fighting a fierce battle with Vichy forces at Kissou in the mountains, 10 miles south of the Syrian capital of Damascus.

TEN YEARS AGO... Mrs. J.P. Lantz was re-elected president of the P.E.I. Federation of Home and School at the annual meeting held at Prince of Wales College.

EDITORIAL NOTES... "It is depressing to look at the literature of any of our major political parties in Canada today—my own included."

Some Dour Reflections... Things are going to be pretty tough on Prime Minister Lester Pearson, predicts the Globe and Mail, if Daniel Johnson comes out of his corner fighting all the battles he has promised.

Standfield and Premier John Roberts seems solidly entrenched, but would an election now disclose the national schizophrenia? In New Brunswick Premier Louis Robichaud could certainly not count any chickens until they were actually hatched.

Canada's Role At Brussels... Once again Canada has assumed her role of peace-maker, stepping in to prevent the big Western powers from giving each other a bloody nose.

Nervous Indigestion... By Dr. Theodore R. Van Dellen... A person with nervous indigestion is likely to have other manifestations of nervousness.

Mice Go To School... School principals certainly have their share of day-to-day problems, but Mr. Donald Whillans, principal of Eganville (Ont.) District High School, is one who has been burdened with more than any school official should be asked to handle.

STUDY FERTILITY... The International Fertility Association, formed 15 years ago on a Latin-American initiative, brings together researchers in zoology, veterinary medicine, gynecology, obstetrics and related fields.

Career School... BARBERING RAZOR CUT - HAIR STYLING SCREEN TEACHING. Transportation allowance and other benefits.

TRANS-CANADA BEAUTY Moncton, N.B. INDUSTRIES LTD.

THE OTHER SIDE OF THE FENCE OTTAWA REPORT By Patrick Nicholson

Canada And The Alaska Panhandle... This corridor of coastal mainland and islands runs 400 miles southwards from Alaska, absorbing exactly half of what should be B.C.'s Pacific coastline.

Health Of Public Men... In a curious way, an article in the current Canadian Medical Association Journal by Dr. J. L. Genesee of Toronto has raised an important question about the health of public men.
