Island Girls Learn How to Bathe a Baby

Five of P. E. I.'s eight delegates to the Atlantic Provinces High School Junior Red Cross Training Centre, continuing at Mount Allison University until July 16, pictured above, they had a real live subject for their lesson in bathing a baby, sturdy Malcolm Elliot, seven-months-old son of the centre's director, G. Forbes Elliot. Let to right are Joyce MacKinnon, Charlottetown; Eleanor Haywood, Summerside; Rebecca Jardine, Kensington; Suzanne Francis and Elizabeth Kelley, Charlottetown, and the instructor, Miss Jean LaPointe, resident nurse at Miscou Island, N. B., Red Cross Nursing Station, who is on full-time duty at the centre as "camp nurse". Other pursuits arranged for the delegates include art, handicraft, woodcraft, sewing, first aid, and journalism.

ELLEN'S DIARY

By An Island Farmer's Wife

Now that we stop to look back along its hours, was there nothing, think we, for this Family today but work? True, in a manner of speaking, though for some, labor expended meant the nearer realization of a long dream of building which had been shaping in mind through the recent years.

Women From World Over To meet For Discussions

Canadians inclined to envisage farmers' wives as somewhat retiring ladies, with conversation limited to the current market price of butter and eggs, are due for a severe shock in August, when rural women the world over will gather in August at Toronto's Royal York Hotel for the Associated Triennial Conference of the Associated Women of the World. Reservations flowing into the offices of the hostesses groups (the Federated Women's Institutes of Canada and Quebec's Les Cercles de Femmes) indicate clearly that while the visitors will without a doubt be able to discuss market prices fluently, they will have a more varied and interesting topic of conversation.

Buell-Peake Wedding

The marriage of Sue Virginia Peake, daughter of Mrs. Pearl Peake, Victoria Avenue, to George Ellsworth Buell, son of Mr. and Mrs. Ellsworth Buell, was solemnized July 11 in a twilight ceremony in Trinity Church of England, at Gait, Ont., by the Rev. A. B. Thomas.

Redding-Craswell Wedding

A pretty wedding took place at 7 o'clock on July 10 at St. Mathias Anglican Church, Westmount, Que., when Vivian Katherine, eldest daughter of Mrs. Craswell and the late Harry K. Craswell of Clyde, P. E. I., was united in marriage with Harold Gordon, elder son of Mr. and Mrs. P. Clare Redding of Lockport, N. S. The marriage was solemnized by the Rev. Canon Oliver.

Modern Etiquette

By Roberta Lee

Q. Is it really proper for a woman to repair her makeup at a restaurant table?
A. It is permissible for her to take the shine off her nose and, if necessary, touch up her lips. But the one unbroken rule still is—don't use a comb anywhere in public, and when near food, do not even touch your hair with your fingers.

Embittered Mother

She Declares Her Only Child Is Millstone Round Her Neck

DEAR MISS DIX: A recent correspondent wrote you that "Children are more a burden than enjoyment." She is 100 per cent right. All one has to do is look around and see the torture, heart break and tears caused by children, to realize the truth of her statement. Experience is the best teacher, but also the most expensive. I regret more than anything in all the world having a child as a millstone around my neck the balance of my life.

REGRETTABLE AND TRAGIC

ANSWER: What a sad, embittered woman you are. The existence of your child isn't the whole trouble; though you give no explanation for your feeling of the sad circumstances that have brought you to this tragic belief, it almost certainly goes back to a time before the birth of your child. No one can possibly deny that there are heart-aches and tears wound up in the rearing of a child, but can you name any other way of life that is different? No matter what path one chooses, thorns will be well scattered among the roses. Few indeed are the parents who look back on the years spent raising a family as having been wasted. No effort in the world is as rewarding, since no other effort holds the full measure of creation that comes with rearing a child. The architect may receive columns of praise for his beautiful building, the author's best-seller may be acclaimed by critics, but the sacrifices involved in raising a family bring the blessing of God. Fortunately, children need no press agents; most folks love them, yearn to have them, and are more than willing to take the trouble to bring them up properly. It's regrettable and tragic that the priceless gift of a child should have been given to one who doesn't appreciate it. It is denied to many couples who would welcome every sacrifice a baby entails.

DEAR MISS DIX: We are two teen-agers who are worried about a party. Every summer the Ladies Auxiliary of our church gives a party, at which there is dancing. The problem is that the boys never ask the girls to dance. How can we make them dance with us?

ANSWER: That problem is up to the sponsors of the party, rather than you girls. They are supposed to keep people in circulation, see that the boys dance and that there are no wallflowers. The best way to get shy boys on the dance floor is to have square dancing. This is something that requires no particular dancing skill, and most boys are quite willing to participate.

DEAR MISS DIX: I am very much in love with a wonderful girl and (Continued on Page 3)

Seven Days A Week

1. MONDAY: Someone once said that you could use up everything from a porker but the squeal. Now the researchers have found another way to use up Mr. Hambones. Hog grease is being converted into plasticizers needed to make vinyl plastic products. Too, he's going into garden hose, floor tiles and refrigerator gaskets. So all in all there is not much waste to a pig is there. And speaking of new ideas did you know that mechanical scare-crows are all the rage in some parts of the continent? Most of them are fitted with loud speaker systems which emit all manner of "scare" noises. One model explodes like a shotgun at regular intervals. Quite a change from Grandpa's old coat on a cross-stick!

2. TUESDAY: The creation ordered by Empress Eugenie to be worn at a ball given at the Tuileries was designed by Eugenie herself. It was made of a thousand yards of gauze, and embroidered in threads so fine the artists had to wear magnifying glasses. The gauze was woven on specially constructed machinery. The gown was made with fifteen skirts, one over another, each with 35 yards of gauze. The other four hundred yards were used in flounces on the sleeves. (Continued on page 11)

That Body Of Yours

By James W. Barton, M.D.

EMOTIONAL DISTURBANCES MAY CAUSE OVERWEIGHT

No matter what the age of a woman, she will sacrifice much in denying herself food for the sake of her appearance, whereas her health is a secondary matter. But a man gradually increasing in weight finds himself looking better as he becomes rounded out and loses some of his corners or angles. His friends tell him how well he looks and his mirror shows how full his face has become, but unfortunately, does not, unless he turns sideways, show his protruding abdomen.

For years, Dr. Eugene Fisk, the noted chief medical examiner of the corporation making yearly physical examinations for policy holders of life insurance companies, has been telling his physicians and the public generally that the average weight of the population at 30 years of age, with due regard to height, age, and build, is the ideal weight for life expectancy.

In "The Ontario Medical Review," Dr. F. S. Brien, Professor of Medicine states that it would appear that from 25 to 30 per cent of the adult population is overweight. This constitutes one of the greatest problems in preventive medicine today.

The studies of our nutrition research physicians have failed to show any abnormality in the obese.

How Can I!!!

By Anne Ashley

Q. How can I remove nail polish stains from leather upholstery?
A. Dab it quickly with nail polish remover and follow that immediately with a cloth dipped in warm water. Apply saddle soap later if a dull spot remains.

Q. How can I darn a hole in a flimsy curtain?
A. Cover the hole with a piece of white paper and run back and forth over it with the sewing machine needle. Then launder the curtain to dissolve the paper, and a neat darn remains.

Q. How can I clean enameled woodwork?
A. Mix one cup gasoline, one cup vinegar, and a half-cup water in a bottle. Shake it up well, apply to the woodwork with a soft cloth, and follow that up with a dry, clean cloth.

The summer tide was at its turn now. Gently it receded, washing quietly the gold of the sands away beyond the sheen of the faintly blue reaches, the sapphire of sky came down as we had known it, old, to touch the far side, binding heavenly places to earth. Against a fetching background of white cloud, darker amid the surrounding.

Stove Burners

A good cleaning of the stove burners can be effected by removing them and dumping them into a large enamel pot with water and lye. Boil for 10 minutes. No need to dry them; just replace them, light them up for a few minutes, and they'll dry themselves.

Breadbox

If your breadbox gets rusty inside, clean it by rubbing gently with emery cloth. To keep it clean, use a coat of lard.

Mosquitoes

To keep mosquitoes away from your bed on summer night, put five drops of spirits of camphor on a lump of sugar and set it on your bedside table.
